Messrs. Wm. Law and Henry P. Turner were in the Maryland delegation of democrats who went to New York this week to welcome W. J. Bryan back home.

Robt. L. Kemp has bought the well-known Justis Farm, in Chapel district for $10,000. It contains about 290 acres of land and adjoins the T. A. Dudley farm.

One by one the awning posts are disappearing from the streets. In time the horse and the odor of stables will not be an annoyance to citizens passing in front of the stores.

The Election Supervisors met in Easton on Tuesday and appointed the judges and clerks to sreve at the coming election. The official list will be found in the advertising columns of this paper.

The weather continues wet. Farmers are becoming more than anxious about their crops. While many have abandoned their wheat prospects, they are now confronted with the possibility of losing their corn fodder.

Dr. McCready has returned to Easton after a month's vacation in Connecticut. He will hold service at Christ Church tomorrow at 7:30 and 11 a. m. Holy communion at 11 a. m. and service at 7:30 p. m.

Attorney Wm. H. Adkins administrator of Capt. John W. Martin on Tuesday last produced in the Orphans' Court the prior will of the late Capt. John W. Martin over which there was a legal controversy last week. The will was drawn up August 8, 1902 and differed but slightly from the will admitted to probate.

Among those whose faces have not been seen in Easton for some time, but who are greeting their friends this week, are Mr. James Stewart who has been on the Pacific Coast for months, Mr. Joseph Soulsby who for two years has been in Oklahoma, and Mr. Julius Baynard who has been travelling several months.

Talbot County is known frequently abroad as the 'Land of Legendary Lore.' Col. Ingraham has made the county conspicuous by his book. Persons who love Talbot and her people should be pleased to tell all strangers within her gates that a most readable book of the county can had at the office of the Easton Gazette, only one edition and that one nearly exhausted.

Talbot Prohibitionists met in Easton Tuesday and elected the following to the state convention to be held in Laurel, Sept. 12th. Easton District, Silas Lane, Samuel Collins; Chapel District, Alexander Booth, D. H. Cox; Trappe District Theodore Price, John Frampton; St. Michaels District, Dr. James Robinson, L. E. Harrison; Bay Hundred District, George Gibson, Wade Cummings.

The water main on Goldsborough street, just over the railroad burst Wednesday evening about seven o'clock and the entire eastern portion of the street was cut off and was without water until Thursday afternoon.. Water takers were given no notice of the cut off, and having no opportunity to draw a supply were put in an embarrased position. Ten minutes notice would have been sufficient and it could have been done while a messenger was on his way to the water station for the necessary cut off tools.

Mrs. John Satterfield, wife of the late John Satterfield, one of the patriarchs of this town, died this week in Muskegon, Mich., at the home of her son-in-law, Prof. Wickes, who was at one time connected with the Easton High School. Mrs. Satterfield was brought to Easton by Prof. Wickes and her daughter, Miss Tillie, and buried from the home of Mr. Frank L. Roberts on Thursday. Interment was in Spring Hill Cemetery. Dr. W. R. Summer is waning.

The little child says 'it has been waning all summer.'

This summer has been kind to the mosquitoes.

But the Professors of the bugology department of the Maryland Agricultural Experiment Station, of which our Prof. T. B. Symons is the chief, have inaugurated a war of wholly extermination upon Mr. Mosquito and his tribe in this state.

Bulletin No. 109 has been issued and it is worth reading, and very picturesque. Perhaps one may be had for the asking.

This Bulletin tells of many wonderful things connected with the mosquito family, among which is the statement that the individuals are fond of vegetable diet including boiled potatoes and watermelons.

The mosquito also likes the juices of apple, plum, pear and banana.

Most persons think the mosquito has a preference for human blood. This seems to be its abnormal thirst.

That being true, there are mosquitoes who are inclined to this intoxication and opportunity for reformatory work is evident.

Perhaps the W. U. T. C. (Work Under Tough Conditions) will take on an extra department for this reform.

Next to her inquisitive nature, for it is only the female mosquito that bites men and boys, is the name she has to bear. This name is imparted to the whole family and should annihilate it at once when it became known to the quintillions of representatives just what an unpronounceable cognomen wise professors had given them.

To be up on mosquito-ology one must not say Miss Quito any more. Even Madam Culex is becoming obsolete. Family pride in tracing geneology has uncovered the highsounding name of Ochlerotatus. It takes all the letters of the alphabet and a few extras to give the names of the cousins and collateral branches.

It would be useless to introduce Miss Isostomyia Perturbans, or Miss Pneumaculex, or Miss Lepidoplatys Squamiger, in this connection but, really, the booklet is worth reading and studying if—

One does not want Mosquitoes.

JACKSON IS NOMINATED.

Ocean City Convention names him as Republican Standard Bearer.

The Ocean City Convention met last Wednesday and a large delegation of Republicans were present. Several from this county were in attendance. Mr. Wm H. Jackson was nominated for Congress, and the contest this fall suggests liveliness at least.

Mr. Phillips Lee Goldsborough was named as the permanent officer of the convention, and in his address he vigorously attacked the election laws of the State, which, he said, were a matter of vital importance in this Congressional electon, as in others, because they could be used to accomplish the defeat of the Republican candidate. Victory in this fight, he said, foreshadowed success in the Gubernatorial campaign one year hence. He lauded the accomplishments of the Roosevelt Administration and defended the tariff. He declared that Mr. Jackson was determined to win, and vindication would be the watchword.

This is a fight for the vindication on the part of Mr. Jackson, not only as far as the First district is concerned, but from a Republican Congress, which practically refused to act favorably on a contest instituted by Mr. Jackson, alleging that Mr. Smith was not entitled to his seat in Congress.

This contest grew out of the last Congressional election when the same candidates opposed each other. Mr. Smith was declared elected, but the Republicans claimed that frauds perpetrated in the counties of the ballots, sepecially in those counties where the Wilson law is in effect, brought about this result.

This campaign will be one of the most stirring in the history of the Eastern Shore Mr. Smith is now engaged in making a house-to-house canvass. Mr. Jackson's friends say he will go through the district in his big automobile urging his friends to work for the success of the Republican ticket.
