THE SLAVE CASE AT NEW YORK.

Judge Edmond's Decision. The case of Joseph Belt, claimed as a slave of Mr. John Lee, of Frederick county, Md., came up before the Supreme Court, in New York, on Friday. Judge Edmonds having decided that Mr. Lee must produce testimony showing Belt to be his property, Thomas Lee, a young nephew of the claimant, was called, and testified that he knew Belt to be the slave of his uncle; had known him all his life, and had no doubt of his identity. To prove that slavery was recognised by the laws of Maryland, the counsel of Mr. Lee offered to read the volume containing them, but the court decided this to be insufficient. Mr. Child, one of the counsel for Belt (who at one time practised law in Baltimore,) was called on the stand, to prove the volume to be the laws, but that gentleman could only say that similar appearing books were used there. After the argument of counsel, Judge Edmonds decided that in order to hold Belt as a slave, two things were necessary, viz:

First, to show that slavery was authorized by the constitution and laws of Maryland, which had not been done in a manner satisfactory to the law—and that the individuals having Belt in custody at the time the warrant with which he was brought up was issued, must show that their object was to take him before a Judge, agreeable to an act of Congress. This not only had not been done, but the return itself in a measure allows some other intention. All that the Court can do, therefore, is to place Belt in the position he was in before being arrested, and he is therefore discharged.

As soon as the result of the trial was made known to those assembled outside they expressed their gratification in continued cheers, and on the appearance of Belt they hurried him off to a place of security.

Mr. Lee, as understood in Court, has a right to arrest Belt should he find him, and take him before a Judge for warrant to be conveyed to Maryland.

It is said another person belonging to Mr. L., left Baltimore at the same time B. did, and was supposed to be in New York.

THE DISTRICT OF COLUMBIA AND SLAVERY.

The Washington Union has the following forcible article on the last anti-slavery movement in Congress—the passage, by the House, of Mr. Gott's instructions to the District committee to bring in a bill to abolish the slave trade there:

"The District of Columbia was taken off from Virginia and Maryland—two slaveholding States. It was taken off with the laws and property of each of the States.—The transaction was conducted under the auspices of Gen. Washington; and no man dreamt that the State legislation in regard to that peculiar property would ever be changed. If such an idea had ever been entertained at the moment of transfer—if Maryland and Virginia had ever supposed that the property of the citizens would have been meddled with, and that the system would have been abolished, not only against the consent of the people, but of the ceding States, and, as Mr. Van Buren once contended, against the consent of the southern States, who believes that the cession would ever have been made? And who thinks it right at this time to violate the rights of the slave owners, and to disturb the relations of the South on this agitating subject.

"The abolitionists of the North have counteracted their own designs. Their impertinent interference with the slaves has retarded their emancipation. We well recollect that movements were making to speed the cause in the South, when the abolitionists stepped in with their insidious publications, circulated through the mails, and their secret spies, and their open meetings in the North, to alarm the South.—From that moment the reaction commenced. To devise measures for reforming their own institutions was one thing—To see a crowd of fanatics, in the northern States, impertinently intruding themselves into the domestic and delicate concerns of the South, understanding neither the malady to be corrected nor the remedy to be applied, stimulating the slaves to insurrection and irritating their masters—was a very different thing. The consequence was, that the arm of the police was strengthened—the education of some of the slaves, and the preaching by their own ministers, were partially arrested—and the slaves, as well as their masters, had to curse the infatuation of these meddling *amis des noirs*. This interference has proceeded even to greater lengths, until it threatens to change the whole character of the legislation of Congress. As friends of the Union—*as no friends of slavery—but as friends not only of the South, but of our whole country*, we respectfully submit to all the members of Congress, to all the citizens of our country, without regard to cliques, without distinction of parties, whether the federal government ought not to pause in its action—whether it should not throw itself upon the principle of non-intervention—whether it had better not leave this "peculiar institution" alone—and whether the citizens of the other States had not better leave the slaveholding States to manage their own concerns. As sure as the present system is changed, the principle of non-intervention, acting in the spirit of the age, well produce reforms and ameliorations which the present system of interference is only calculated to defeat."

THE CHOLERA.—*Mode of Treatment*—The best and most reliable cure of this disease, as stated by Dr. Whiting, in his report to the New York Board of Health, is calomel; administered in moderate doses with morphine, at short intervals.—Recoveries have commenced, in every case, from the moment the slightest bilious evacuation was produced. He also states as a remarkable fact, that worms have been discharged, either by vomiting or the bowels, in a large majority of cases. One-third of the whole number of patients at the Quarantine Hospital have been children under fourteen years of age.—*N. Y. Jour. Com.*

CHOLERA ON BOARD AN AMERICAN SHIP.—The ship Edwina, arrived at New York on Sunday, from Roterdam; left at Hellervetslais, 23d of Novermber, ship Gen. Washington, (of Alexandria, Va.,) Low, for Baltimore. The New York Star, says:—

The General Washington, in coming down the canal from Rotterdam, run against the pier-head, and sustained considerable damage, which detained her about a week to repair. During the time, cholera broke out among the steerage passengers and crew. Several of the passengers had died. The ship went up to the Hague, and put the sick in the Military Hospital. The authorities learning the facts, immediately ordered the ship to haul off in the stream.

COL. HAYS' EXPEDITION.—The report that Col. Hays and his command had been cut off by Indians and murdered, is contradicted. Galveston papers of the 17th say: By accounts in a letter from Port Lavacca, we learn that Col. Hays has returned from Chihuahua and reports most favorably of his expedition. He says the people of Chihuahua are more anxious to have the road from San Antonio to that place established than those of Texas, and that they were ready to subscribe largely or such a purpose.

FROZE TO DEATH.—A negro man, named Joseph Waugh, froze to death on escaping from a coal boat which sunk in the river, near Cumberland, last Friday night week. A man, named Rogers, a spinner in Garrett's factory, near Elkton, Md., was found perished from exposure in a run, week before last. Both were intoxicated.

BOSTON, Jan. 2, 1849.

Death of a Wealthy Man—Congressional Election.

Peter C. Brooks, the wealthiest landholder in N. England, and father in law of Edward Everett, died last night. His fortune is estimated at between 7,000,000 and $8,000,000.

In the special Congressional election held yesterday, Daniel P. King, Whig, was re-elected in the 2nd District; and John G Palfrey, Free Soil, probably, in the 4th—having gained in eleven towns 1300, over the November election. In the 5th District, Allen, Free Soil, is undoubted elected over Chas. Hudson, Whig, the present member—the Democrats having voted the Free Soil ticket *en masse*. In the 9th, Fowler, Whig, has been elected.

SECOND DISPATCH.

BOSTON, Jan. 2.

Allen, Free Soiler, has fifteen hundred majority over all others.

Palfrey gains largely in the 5th district. He has a very strong vote in the town of Worcester, and is believed, beyond doubt, to be elected.

LATEST NEWS FROM HARRISBURG.

Harrisburg, Pa., July 15, 1846.

Dr. D. Jayne,—Dear Sir, Mr. J. Miller, residing on the Cumberland side of the river, direct opposite this place, called on me a few days since, and stated that his wife was cured of a very severe cough, which she had been troubled with for a long time, by the use of your EXPECTORANT. Before she commenced using it, she had become so weakened and reduced as to be obliged to keep to her bed, with every appearance of having deep-seated CONSUMPTION, and he had very little hopes of her recovery, especially on the night before she commenced using the expectorant. Her cough was so tight and severe, that he did not think she *could live till morning*, and three bottles, which he procured from me, restored her to perfect health. He wishes me to communicate these facts to you.

Respectfully yours. MARTIN LUTZ.

N. B. Your "Carminative Balsam" answers admirably the purposes for which it is intended, and is quite in demand. M. L.

Mr. Lutz is one of the most respectable men in Harrisburg.

HO! HO! YOU'RE GETTING BALD, ARE YOU?

Well, that is a misfortune and not a crime; but to *remain bald*, when so fine an opportunity offers to restore your hair, by a faithful and liberal use of Jayne's Hair Tonic, is but little short of crime. This valuable preparation excites the scalp to a new and healthy action, cleanses it from scurf and dandruff, prevents the hair from falling off, cures those eruptive diseases which often appear on the head, and in a majority of cases produces a fine growth of new hair. It also gives the hair a rich and beautiful appearance, unequalled by anything of the kind.

NEW ESTABLISHMENT.

Cart-wheel Wrighting, Wagon making, & Plough Stocking.

THE subscribers respectfully inform the citizens of Easton and Talbot county, that they have taken the Cart-wheel-wright shop at the lower end of Easton, which place is well known as an old established stand, where they intend to carry on the above business in all of its various branches, SCYTHE CRADLING, DRAGS, HARROWS, CULTIVATORS, FLUCKES, and all kinds of farming untensils, made to order. Any work wanted in our line of business will be furnished ironed off ready for use, and all work engaged of us or sold by us, whether particularly engaged or not will be warranted equal to any that can be made in Easton, on the Eastern Shore or elsewhere. Our prices will be as moderate as any other establishment in Easton. All work will be done at the shortest possible notice, and in the best workmanlike manner.

We intend to furnish Ploughs at Baltimore prices so that farmers can be furnished without the trouble of sending their money from home. We will take any kind of trade from the farmers for work, that we can make of any use to our business or families, such as old cast iron, or old wrought iron of a good quality, or wood, corn, wheat, rye, oats, and such timber as we need in our business, and for all Cash, of, and over five dollars there will be a deduction of ten per cent on the dollar.

We intend to attend strictly to our business, work good materials and do our work well.

If any of our work should fail to be as we have promised, we will either make it good or charge nothing for it. All orders for work will be thankfully received, and promptly attended to.

CIRCULAR.

CHESTERTOWN, Nov. 28, 1848.

Gentlemen:—Allow me to call your attention to the following Circular:

Your ob't serv't, J. A. PEARCE,
for the Board of Visitors, &c.

WASHINGTON COLLEGE.

The Board of Visitors & Governors of Washington College deem it proper to invite the attention of the several Orphans' Courts of the Eastern Shore counties, as also of the citizens of these counties, who may feel an interest in the subject, to the provisions of certain resolutions adopted by the Legislature of Maryland at its last session. After directing the payment to the College of an additional annuity, in full satisfaction and discharge of its claim against the State those resolutions proceed as follows:

Resolved, That in consideration of the above grant of fifteen hundred dollars, to be paid annually to the said Washington College, the Visitors and Governors of said College shall board and instruct in said College one indigent scholar from each of the counties of the Eastern Shore of this State, in all the branches of learning taught in said College, and shall furnish each of the said eight scholars with all the necessary books and stationary.

Resolved, That the Orphans' Court of the several counties of the Eastern Shore of this State shall have the sole and exclusive power to select from their respective counties the pupils to be entitled to admission to said college under and by virtue of the aforegoing resolution, and that the term and period of each pupil's continuance in said college shall not exceed beyond the period of five years, and no pupil shall be admitted under the age of twelve years.

Resolved, That the several Orphans' Courts of the State in making the selection of the pupil to be admitted to said College under the foregoing resolutions, shall look exclusively to the moral and intellectual fitness and claims of the respective applicants.

The Board of Visitors are now prepared to receive from each county on this Shore a Scholar who may be entitled in conformity to these resolutions to claim the benefit of their provisions. The Board would impress on those concerned that the object of the Legislature is obviously to secure to each county the complete education of one of its citizens, in all the departments of a college education. Such an education can this College now afford to those who may be placed within its discipline. The Board therefore have a right to expect and they desire the Orphans' Courts to regard it as a consideration not to be dispensed with in the selection of an individual that every possible assurance shall be given of his continuance at College until he shall have completed his full course.

If pupils are allowed to remain but for a short time and then return to their residence with the very limited acquirements they can receive it will practically effect no good result, either to the individual or to the community of which he is a member, while it will be calculated to reflect discredit on the College. The Legislature, by expressly requiring each scholar to be instructed "in all the branches of learning taught in said College," indicate their design to be that the pupil may derive such advantages from his privilege as to make him an intelligent and capable citizen, competent to fill that character honorably to himself and usefully to the community. Of course the selection will always be made with reference to the intellectual and moral character of the candidate—the law preemptorily requires it. In the confidence that the proper tribunals will select individuals who indicate a high grade of intellectual and moral capability, the Board feel willing to commit the institution by a deliberate pledge to redeem the just expectations of all who have an interest in the future destinies of the pupils confided to its care.

E. F. CHAMBERS, Pres't.

J. F. GORDON, Sec'y.

IN conformity with the above Resolution, the Orphans' Court of Talbot county will receive applications from those persons who intend to apply for the Scholarship to which this county is entitled, until the first day of February next, to be filed with the Register of Wills of said county; after that day no application will be received.

By order,
J. H. HARRIS,
Register of Wills for Talbot Co.

WOOD.—A lot of Oak and Hickory wood for sale by T. T. MARTIN.

BRONCHITIS, COUGH, CONSUMPTION, SORE THROAT; &c.—Mr. John Beckford, a respectable merchant of Eastport, Me., says—Please send me a large supply of your valuable medicines; particularly of the Expectorant, as I have a great demand for them in the British Provinces. A gentleman from Windsor, (Province of New Brunswick,) was passing through here on his way to Boston, to get cured of BRONCHITIS, when I recommended him to take your expectorant, which gave him immediate relief, and he returned home completely cured.

The expectorant has also brought one man to life here, after his physicians had given him up, and had taken nothing for three days.—His complaint was *Consumption*.

I happened to call in and saw him in very distressed situation, I recommended his wife to try the Expectorant, thinking that it might give him some ease, and he would expire with less agony, but he recovered right away.

Yours, &c., J. BECKFORD.

Rev. Jonothan Going, D. D., President of Granville College, Ohio, says: "He was labouring under a severe Cold, Cough, and Hoarseness, and that his difficulty of breathing was so great that he felt himself in imminent danger of immediate suffocation, but was perfectly cured by using this expectorant."

Lewis C. Levin, Esq., the distinguished advocate of Temperance, stated at a meeting of upwards of three thousand persons, that he should not have been able to address them, but for the use of "Jayne's Expectorant." He said that he had been labouring under a hoarseness and severe oppression of the chest, that he had purchased some of the Expectorant the day before, which had relieved him in a few hours, and he found himself, contrary to his own expectation, able to address the multitude.

Prepared only by Dr. D. Jayne, Philadelphia, and sold on agency by E. M. DAWSON & Bro., Easton, H. MARSHALL, St. Michaels.
