Correspondence of the Gazette.

DELAWARE CITY, Del., May 15.

MR. EDITOR: * * * *

This place is situated at the Delaware terminus of the Del. and Ches. canal, and is a place of considerable business. There are five regular Steamboats plying daily between Philadelphia and different places down the river, besides several Erricksons through the canal to Baltimore. The locks are never clear of boats of different kinds, running lumber and other produce from point to point by this convenient abreviation of the natural course of navigation.

This place has just received a charter of incorporation, and it is thought that it will thereby receive a fresh impulse to improvement. The town contains about 1100 inhabitants, and is filling up with men of enterprise and industry.

Agriculture is in a most thriving state in this vicinity, and now in the middle of May the scenery is truly delightful. The Peach crop has been injured by the late frosts, but it is thought that it will still be sufficient to yield a profitable gathering.

Our court is in session at New Castle, and several convictions have resulted—amongst them a young man for counterfeiting. We had a very heavy rain on Tuesday night, attended with much thunder and lightning. A Mr. McAlister, near Chesapeake City, returning to his house across an open field, was struck down in presence of his wife who was looking at him, and instantly killed. I have just been called upon to attend his funeral, and consequently must be brief. A cow was also killed between here and Chesapeake City. I hear the lightning also struck in two different places in Wilmington. Your old friend,

RAMBLER.

THE PRESIDENT AT BUFFALO.—President Fillmore was received at Buffalo by an immense military and civic procession. A despatch says:

The public as well as many private houses, were tastefully displayed from the shipping in the harbor; great numbers of the old friends and constituents of Mr. Fillmore, came flocking into town, and on every side a joyous and patriotic feeling was manifested.

Until three P. M. the crowd visibly increased; the tide flowed in from the country towns of old Erie; and swelled, by canal and railroads, until it became evident that this was to be the most public demonstration ever witnessed in our city, or in Western New York.

During the progress of the procession, the President was everywhere hailed with tokens of respect and esteem, as well from the ladies, whose fair faces and waving handkerchiefs filled the windows, as from the crowds of citizens who cheered him from the streets.

THE PRESIDENT AND CABINET will soon be in Washington again. Mr. Fillmore, with the Postmaster General, the Attorney General, and Secretary of the Navy, left Syracuse yesterday morning for New York city. At New York the President would go from the boat to the cars for Washington, without stopping. A despatch from Rochester, May 29, gives the following account of the reception there, in coming down from Buffalo to Syracuse:

"The President and suite arrived here to-day from Buffalo, and were recived with firing of guns, ringing of bells, &c. A long procession escorted them to Washington Square, where addresses were made. The procession then proceeded to the Eagle Hotel, where a grand dinner will take place. The streets have been thronged by visiters from all parts of the country. Flags are flying from all the principal buildings in the city."

Mr. Webster was the only one of the party left in Buffalo yesterday, where he was to speak and partake of a public dinner. He will leave Buffalo for Washington to-day.—*Sun of Thursday.*

PHILADELPHIA, May 20

Steamboat Collision—Steamer Ohio Sunk on the Delaware—Great Consternation—No Lives Lost! The steamer Ohio, from New Castle, with a large number of passengers from Baltimore, about half past eight o'clock to night, come in contact with the steamer Cosmodore Stockton, at Gloucester Point. When nearly opposite Greenwich Point, about three miles below Philadelphia, the Stockton struck the Ohio on the bow, and carried it away. The Ohio sunk in two minutes. The Stockton is much damaged.

Great consternation prevailed among the passengers, but fortunately, it is believed, no lives were lost. We have made most diligent inquiry, and find this to be the case Much confusion prevails, and it is difficult to get the true particulars. Only one trunk was saved from the Ohio. The passengers were brought to the city by the Gloucester ferry boat.

BOSTON, May 19, 1851.

The Charge of Mr. Allen against Daniel Webster.—A letter from Franklin Haven appears in the Transcript to-night, in which he implicitly denies Judge Allen's charges of corruption against the Hon. Daniel Webster, in the matter of the $50,000 subscription. Mr. Webster never wrote him any letter on the subject of remuneration, nor were any bankers or others interested in the Mexican indemnities, concerned in that subscription. The subscribers were chiefly retired business men, and Mr. H. believes that Mr Webster does not know, even at this day, who they were.

THE VIRGINIA CONVENTION.—*Basis of Representation Adopted*—The Virginia convention adopted in committee of the whole the compromise of the committee, by which the House, organised on the suffrage basis, will have a Western majority of 14, the Senate an Eastern majority of 10, (giving the West on joint ballot a majority of 4,) and by which provision is made that, in the year 1865, in case the General Assembly shall not be able to agree as to the principle of representation on which re-apportionment shall be made, the question shall be left to the qualified voters of the State to decide.

Cornelius S. Franklin has been appointed Naval Officer at New York, in place of Philip Hone, deceased.

The Raleigh Register nominates Fillmore for President, and Graham, of North Carolina, for Vice President, in 1852.

THE COST.—The Annapolis Republican asserts, and says it will prove it, that the late Convention will cost the State, over $300,000!

A SOLDIER REWARDED.—Major Edw. Wilson, of Elkton, a Captain in the army during the war of 1812, has received from Washington a land warrant for 160 acres.

DECLINED.—The Hon. Wm. B. Clarke, of Hagerstown, declines, for reasons of a private character, a nomination for Congress. He calls upon his party friends, however, to rally to the support of the administration of Millard Fillmore.

THE PIRATE CASE AT RICHMOND.—In the U. S. Court at Richmond, Va., the argument in the case of Read and Clemens, the pirates, on a motion for a new trial, was concluded on Friday, before Judges Taney and Halyburton, who deferred submitting their decision until this week.

The Washington Telegraph says that John Merinder, a sailor, died in that city on Friday night, from the effects of a blow inflicted upon him on the 8th instant by Captain John Powell, of the schooner Patrick Henry, on board of which the deceased was employed.

SAD ACCIDENT.—Two daughters and a step-daughter of Alderman Ramons, of N Orleans, were dreadfully burned a few days ago, by the explosion of a camphine lamp, caused by pouring in camphine while burning. One daughter died from the effects in a few hours, and the step-daughter is not expected to recover.

A DUEL.—Lieut. Adams and Lieut. Edwards, Third Artillery, stationed at Fort Moultrie, S. C., have had a hostile meeting at Sullivan's Island. After an exchange of shots, by which Edwards was slightly wounded in the back, the difficulty was reconciled. A lady was at the bottom of the misunderstanding, as usual.

THE LOPEZ EXCITEMENT.—The brig Shakspeare arrived at New York from San Juan de los Remedios, reports that a great excitement existed at that place, at the time of her departure, (4th inst.) from the fear of an invasion from Gen. Lopez, and which was father increased by a report that five vessels of war had been seen between that place and Neuvitas.

"DEATH TO THE CONSTITUTION."—A short time since the Argus was threatening "death to the Constitution," if certain of its recommendations were not adopted. Now it is open-mouthed for it and against all who raise objections, notwithstanding the rejection of the advice from the veteran with the hundred eyes—but what side will be taken finally, is uncertain.—The wind may blow N. W. to-day, but from an opposite point to-morrow—so changeable are the elements and men.—*Clipper.*

BOSTON, May 20th.

The Knight and Hughes Case.—The actions against Knight and Hughes in the names of Wm. Crafts and his wife for kidnapping, were dismissed in the Supreme Court to-day, no responsible endorser having appeared for the costs.

ANOTHER SCIENTIFIC WONDER! PEPSIN, *the True Digestive Fluid or Gastric Juice!* A great Dyspepsia Curer, prepared from Rennet, or the fourth stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., No. 11 North Eighth streets, Philadelphia, Pa. NO CREDIT.—In consequence of the reduction of Postage on the first of July, the undersigned has determined to adopt the Cash system after that date. Not being authorized to give credit for postage, he has heretofore done so on his own responsibility, and at an average loss of about $20 per quarter, a loss which he will be unable to sustain under the new law, as the labors of the office will be increased, and the remuneration probably be reduced.
