WHITMAN'S

Premium Wrought Iron Rail-WAY HORSE POWER.

AT the great Agricultural State Fair, held at Baltimore, October, 1849, there was the largest exhibition of Horse powers and Threshing Machines, ever exhibited in this State, or at any other State Fair in this country, and all thoroughly examined and tested by a la ge and competent committee, who awarded the *first premium* to the above power, as the *best* on the ground. More than *five thousand* of these powers are now in use by many of the best Farmers in the Country, and they consider them to be *double* in power to any of the best Sweep Powers, more durable and much easier for the horses. CASH PRICE, $100. E. WHITMAN, Jr.,

Corner of Light & Pratt Street, Balt.

☞ As evidence that we do not over rate the capacity of this Power, and for the satisfaction of farmers in want of a good machine, we insert the following letter, just received from one of the most intelligent and respectable farmers in Virginia—and we are in daily receipt of letters of the same import from Maine to Texas.

Miller's Tavern, Essex Co., Va., May 20, '50.

Mr. E WHITMAN, Jr.,—

Dear Sir.—I have for some time intended giving a full description of operation and success of the 2 horse wrought iron RAIL-WAY POWER and THRESHING MACHINE, I purchased of you last May. I will give you a few instances of my threshing.—I carried the whole machine between 8 and 10 miles with an ox cart, & set it three times on different farms, and threshed from 115 to 120 bushels of wheat in one day, & each time took the machine out of the cart; made the tables; geared the horses; and commenced threshing in ten minutes. Rev. Peter Ainsley, Col. Rich'd J. Muse and Musco Garnett, Esq., were witnesses to the above.—In another instance I commenced threshing at Mr. W. R. G. Tribble's, at 8 o'clock in the morning, and threshed 92 bushels of wheat by 12 o'clock—then moved about a mile after 2 o'clock in the afternoon of same day, and threshed 47 bushels of wheat before sun down. Mr. L. D. Brooks, Mr. Beverly Brooks and others, can vouch for the truth of this statement. I frequently threshed 100 bushels of wheat from breakfast to dinner time—and during the season, I threshed 38 different crops, making in all 5,450 bushels of wheat, and the wear of the machine is scarcely apparent—and I consider the labor to the horse no more than ploughing in light land. I candidly believe, your wrought-iron Railway Horse-power and thresher, surpasses any I have seen, and I find it is now much better since your late improvements have been attached.

You will please have two of your Improved Rail-way Horse-power and threshers put up and sent to me by first conveyance they are for two of my neighbors—have them landed at Piscataway Bridge. I think I shall order one or two more of them between now and harvest

Very respectfully, yours,

W. G. COVINGTON.

One Wheel Power.

WE also have the EDDY POWER, which is one of the most simple and durable Sweep Powers new in use. It consists of one wheel only, and the horses work inside of the wheel. It can be transported easily from place to place, in a common farm wagon, and may be set up in twenty minutes and taken down in half that time. It is simple in construction, not liable to get out of order, and may be easily repaired, the gearing being made entirely of wrought iron. It may work in the open field though it is better to have it under cover, when stationary, especially during stormy or very hot whether. For efficiency, durability and simplicity, this, for a sweep power, is preferred by many to all others. Price of the largest size, with our late improvements, $100.

E. WHITMAN, Jr.,

SWEEP POWERS.

WE also have three other kinds of SWEEP POWERS, which embrace all the va uable improvements that have been attached to the Sweep or Lever Powers. Prices, $85, $100, and $120. E. WHITMAN, Jr.

PREMIUM THRESHERS.

OUR Iron Thresher, which received the first Premium in Baltimore, last Fall, is well adapted to either of the above powers.—Price of the two sizes, $45 and $50. If Straw Carriers are attached, they are $15 extra.

ANOTHER SCIENTIFIC WONDER!

PEPSIN;

The True Digestive Fluid,

OR GASTRIC JUICE!

A GREAT DYSPEPSIA CURER,

Prepared from RENNET, or the fourth Stomach of the Ox, after directions of BARON LIEBIG, the great Physiological Chemist, by J. S. HOUGHTON, M. D., No. 11, North Eighth Street, Philadelphia, Pa.

This is a truly wonderful remedy for INDIGESTION, DYSPEPSIA, JAUNDICE, LIVER COMPLAINT, CONSTIPATION, and DEBILITY, curing after Nature's own method, by Nature's own agent, the Gastric Juice.

☞ Half a teaspoonful of this Fluid, infused in water, will digest or dissolve, *Five Pounds of Roast Beef in about two hours,* out of the stomach.

DIGESTION is chiefly performed in the stomach by the aid of a fluid which freely exudes from the inner coat of that organ, when in a state of health, called the Gastric Juice.—This fluid is the *Great Solvent of the Food, the Purifying, Preserving, and Stimulating* Agent of the stomach and intestines. Without it there will be no digestion,—no conversion of food into blood, and no nutrition of the body; but rather a foul, torpid, painful, and destructive condition of the whole digestive apparatus. A weak, half dead, or injured stomach produces no good Gastric Juice, and hence the disease, distress and debility which ensue.

PEPSIN AND RENNET.

PEPSIN is the chief element, or *great Digesting Principle* of the Gastric Juice. It is found in great abundance in the solid parts of the human stomach after death, and sometimes causes the stomach to digest itself, or eat itself up. It is also found in the stomach of animals, as the ox, calf, &c. It is the material used by farmers in making cheese, called Rennet, the effect of which has long been the special wonder of the dairy. The curdling of milk is the first process of digestion. Rennet possesses astonishing power. The stomach of a calf will curdle nearly one thousand times its own weight in milk. Baron Liebig states that, "One part of Pepsin dissolved in sixty thousand parts of water, will digest meat and other food." Diseased stomachs produce no good Gastric Juice, Rennet or Pepsin. To show that this want may be perfectly supplied, we quote the following *Scientific Evidence:*

BARON LIEBIG, in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid analagous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be *softened, changed, and digested, just in the same manner as they would be in the human stomach.*"

DR. PEREIRA, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York, page 35, states the same great fact, and describes the method of preparation. There are fewer higher authorities than Dr. Pereira.

Dr. COMBE, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all-prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding every thing else to fail, had recourse to the Gastric Juice, obtained from the stomach of living animals, which *proved completely successful.*"

Dr. GRAHAM, author of the famous works on "Vegetable Diet," says: "it is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of *artificial digestion* of them *in no wise different from the natural digestive process.*"

Dr. SIMON'S great work, the "Chemistry of Man," (Lea & Blanchard, Philada., 1846, pp. 321–2) says: "The discovery of PEPSIN forms a new era in the chemical history of Digestion. From recent experiments we know that food is dissolved as rapidly in an artificial digestive fluid, prepared from Pepsin, as it is in the natural Gastric Juice itself."

Professor DUNGLISON, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals are well known. "In all cases," he says, "digestion occurred as perfectly in the *artificial* as in the *natural* digestions."

AS A DYSPEPSIA CURER,

DR. HOUGHTON'S preparation of PEPSIN has produced the most *marvelous effects,* curing cases of *Debility, Emaciation, Nervous Decline,* and *Dyspeptic Consumption,* supposed to be on the very verge of the grave. It is impossible to give the details of cases in the limits of this advertisement—but authenticated certificates have been given of more than TWO HUNDRED REMARKABLE CURES, in Philadelphia, New York and Boston alone.—These were nearly all desperate cases, and the cures were not only rapid and wonderful, but permanent.

It is a great NERVOUS ANTIDOTE, and particularly useful for tendency to billious disorder, Liver Complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive organs, after a long sickness. Also, for excess in eating, and the too free use of ardent spirits. It almost reconciles *Health* with *Intemperance.*

OLD STOMACH COMPLAINTS.

There is no form of OLD STOMACH COMPLAINTS which it does not seem to reach and remove at once. No matter how bad they may be, it GIVES INSTANT RELIEF! A *single dose removes all the unpleasant symptoms,* and it only needs to be repeated for a short time, to make these good effects permanent.—PURITY OF BLOOD and VIGOR OF BODY follow at once. It is particularly excellent in cases of Nausea, Vomiting, Cramps, Soreness of the pit of the Stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.
