EVERETT'S CARRIAGE COUPLING.

PATENTED, Dec. 17th, 1850.

THIS improvement permits the use of large four wheels, with all the advantages derived from them in saving of frarection and surmounting obstacles with facility, and at the same time obviating the disadvantages which have hitherto attended their employment, as with this improvement a carriage can be turned in as small a space as those that have small fore-wheels, which run under the body; and besides the wheels never touch the body, and the parts are so arranged as to give a greater degree of strength than the old method of coupling.

The undersigned having purchased from the patentees their entire interest in their invention and patent for Talbot county, beg leave to call public attention to the same. The improvement is now being generally adopted by Carriage Makers in the principal cities of the United States. To say the patented coupling will ultimately be universally adopted in the construction of fore-wheeled carriages, would only be repeating the generally expressed opinions of all who have used or seen them. It is believed by many that the additional strength and simplicity of the construction alone would insure its general use; but when the convenience of turning in one third of the space required for the old plan, together with the fact that either fore wheel can be so easily removed by one step of the horse as to be entirely out of the way of getting in or out;—the advantages are self evident, as the wheels never touch the body of the carriage, it will be found the danger of turning over is much lessened.

The undersigned are now prepared either to manufacture new, or alter old Carriages with Everett's Patent Carriage Coupling, at short notice, and solicit the patronage of the public. This coupling can be used with great advantage and convenience on wagons; and persons wishing to have new wagons made, or old ones altered, can obtain individual rights for its use by applying to

ANDERSON & HOPKINS,
Easton, Md.

Certificate of Manufacturers who have examined Everett's Patent Carriage Coupling:—

We have examined the improvement in the running gear of Carriages patented by Messrs. Edward and Charles Everett, of Washington, D. C., and consider it a very important and useful invention, which obviates in a simple and effective manner, many of the difficulties heretofore attendant upon the use of large fore-wheels.

BYRNE'S LINIMENT,

FOR THE CURE OF

Rheumatism, Neuralgia, Sciatica, Lumbago, Sprains, Mumps, Pains arising from Colds, or injury in the back, joints or limbs, &c. &c.

Price only 25 cents per Bottle.

IN presenting the claims of this preparation to the public, the proprietor and manufacturer can not reconcile himself to use the means, so common, in puffing similar preparations.—The Liniment is composed entirely of officianal articles, correctly proportioned, so that each only assists in developing and concentrating the powerful action of all; and prepared on strict pharmaceutical principles. He makes no hesitation in declaring it one of the most powerful and efficacious preparations ever offered to the public. The diseases it is intended to cure, (and on which, up to the present, its success has been unprecedented) are all of the same family, cured by the same medicines; and that they can be cured is a fixed fact, incontestibly proven by the hundreds of certificates pouring in upon the proprietor from every quarter, from the most respectable families. For years past this secret has been in the possession of the manufacturer, only used on intimate friends, at their earnest solicitation, and heretofore, he has resisted all persuasion in bringing it before the public; but some astonishing cures (effected when all other remedies had signally failed) last Fall, so blazoned the article's fame that he has been driven into bringing it before the public, and if the future demand and success will but keep pace with the past, he will be satisfied. In proof of its success he must only give evidence of the following character:

On the 11th of February, 1851, the first regular agency for this article was established; since which time, without a single advertisement, and only 17 agencies, 1000 bottles have been sold; and no agent has yet had a single failure charged against the medicine—on the contrary, every family unhesitatingly declare it one of the best family medicines they ever heard of, or knew. Physicians of the first standing have prescribed it, and pronounced it successful in every case. He could fill a newspaper with certificates obtained.

W. H. Fairbank, of Talbot, after speaking at length of its astonishing effects on an aged man in his employ, declares no family should be without it.*

Joshua Harrison, of Church Neck, says he purchased it (hopelessly he admits) on recommendation of a friend, for an afflicted woman in his employ on which every medicine had entirely failed, and immediately she began to recover, &c.*

Henry Smith, on Long Point, Talbot co., declares he cured his wife of a spinal affection of some years standing, almost immediately.*

John Fairbank, of Talbot, says after years use of Expectorants, Tonic wines, Plasters, Cod Liver Oil, &c, &c, without any success on his wife's breast, he has discarded all medicines but this, and under its use his wife is in better general health than for the past 15 years, and speaks confidently of its ultimately effecting an entire cure.*

Wrightson Jones, of St. Michaels, gives the credit of a cure of Bronchitis from its use, and says *almost immediately* he felt relief.*

James Benson, of St. Michaels, says it cured almost immediately a severe neuralgic affection of the jaw in his wife, and goes on to speak of a threatened affection of the breast, cured almost immediately, under the most unfavorable circumstances.*

Adam Camper, of an affection of the back in his mother of many years standing, and she aged 70, and, using her own language, "for 15 years she never knew a night's sleep, until she began using this Liniment."*

And so he could go on, enumerating cure after cure of Toothache, (in which it is instantaneous) Face ache, Headache, Sprains, Strains, Lumbago, Sciatic affections, *Corns*, (for the cure of which he has proof from the most respectable sources.) In the county of Talbot and the adjacent ones, Baltimore city, Washington, Georgetown, Fredericksburg, Va., Leesburg and Alexandria, Va., and in fact wherever it has been introduced it is the same; certificates are by every mail crowding on him.

And one word more to the good people of Talbot. *If after purchasing this medicine and strictly following its directions, no beneficial effects follow, you can get your money back.*—Does *this* look like sailing under *false colors?*—He does not fear the result where a fair trial is given; it has passed through some severe ordeals, (as reference to the certificates appended to each bottle will prove) and it has nobly sustained its reputation in all.

It can be had of DAWSON & BRO., Easton; W. JONES and J. SKINNER, St. Michaels; C. R. MULLIKIN & Co., Trappe, and at nearly all the country stores in the Co. Also sold by N. MANSHIP, Denton.

Persons desiring Agencies will address the subscriber at St. Michaels, Talbot Co., Md., to whom liberal per centages will be allowed.
