Has taken the Premium of the N. Y. State Fair, and the Silver Medal and Premium of the American Institute. Also of the Franklin Institute of Philadelphia, and the Silver Medal of the Maryland Institute, 1851.

ALL of which will fully justify the following statement:

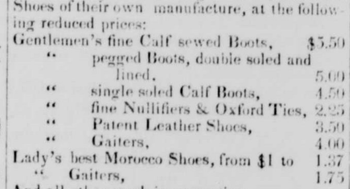

First—That it is the best, most simple and durable Pump in use.

Secondly—That with the same power, it will raise more water per minute than any other Pump in use.

Thirdly—It is anti-freezing, and requires little or no repairs.

For a House and Fire Engine it is not equalled by any; one man can draw from a well and throw water over a three story house, or by attaching pipe can force water throughout the largest buildings, for Baths and other uses; for a Garden Engine, washing windows, carriages, &c., it is particularly applicable.

70 of which is Woodland,

SITUATED in Talbot County, on Third Haven River, and opposite to the Military Academy at Oxford, being about eight miles from Easton. The steamboats plying between Baltimore and Easton pass the door.

Few Farms have ever been offered for sale possessing advantages equal to those belonging to this estate. It is now in a good state of cultivation, and such are the inexhaustible resources of the most fertilizing manures, that with comparative small expense of labor it may be made one of the most productive farms of the size in the County. Among the Manures which exist so abundantly there is Marl, Shell Bank, "Marsh and Woods' Dirt."

Game, such as frequent these waters at all times during the season. Also from the River, Fish, Oysters, &c. in abundance.

The society of the nighborhood is everything that a gentleman could wish for his family, being in the immediate vicinity of the estates of Col. Nich. Goldsborough, Gen. Tench Tilghman and Messrs. Bannings.

THE DWELLING is a spacious double house, one of the finest in the County, built by one of the best Baltimore mechanics, and combines all the conveniences for a large family. A very excellent tenant House, which in case of a division of the farm into two, of which the place is very susceptible, would answer for a Dwelling, Barn, Stables, Carriage Houses, Granaries, &c. &c.

Martin Goldsborough, Esq., who now occupies the premises, will give information to any who may call to see it. The place will be shown to any one by Mr. John Dolin, my present overseer, who resides on the premises; and for further particulars, inquire of

R. E. SELLERS' VERMIFUGE,

FOR EXPELLING WORMS

FROM THE HUMAN SYSTEM

This Worm Medicine has no superior—if an equal—in this or any other country.—

It is much used and highly recommended by Physicians.

The following certificates prove it to be better than any ever offered to the American people:

THE TRUTH BY MEN OF TRUTH.

Concerning Seller's Vermifuge, A single vial producing wonders. Read the following from the Rev. S. Wakefield, Pastor of the Liberty street Methodist Episcopal Church.

PITTSBURGH, March 8, 1847.

Mr. R. E. Sellers:—It is from a sense of duty, as well as with great pleasure, that I bear testimony to the virtue of your justly celebrated Vermifuge. I procured a single bottle and gave it to three of my children, who had been ill for several weeks. The eldest was seven years old, the next four, and the youngest eighteen months. The first passed fifty-six worms, the second forty-seven, and the third a considerable number, not distinctly recollected. Since then they have been doing well, and are now in good health. Yours respectfully,

S. WAKEFIELD.

GREENVILLE, Va., Jan. 15, 1845.

Mr. R. E. Sellers:—Your vermifuge gives universal Satisfaction. I have sold *Fahnestock's, McLane's*, and others; but none has given the satisfaction that yours has.

B. F. GRAHAM, Postmaster.

All the Vermifuge manufacturers of the country are challenged to procure stronger testimony than the following:

UNION TOWNSHIP, Washington Co., Pa.

Mr. R. E. Sellers:—Dear Sir—One teaspoonful of your Vermifuge was given to a child of Mr. Bradbury, about twenty months old, and the single dose expelled the enormous quantity of 234 worms in about four hours from the time of taking the dose.

BENJAMIN LYTLE.

WARRENTON, Jefferson Co., O., Nov. 25, 1844.

Mr. R. E. Sellers:—This is to certify that I purchased of Thomas Shannon, Esq., one bottle of your celebrated Vermifuge, and gave it to my little son, who was then five years old, which took from him one hundred and eighty-six worms of a very large size. I believe your Vermifuge to be the best worm medicine for children that the world ever produced. I would therefore call upon all parents who have children afflicted with worms to give it fair trial.

JOSEPH MCCLEARY,
Justice of the Peace

SELLERS' VERMIFUGE THE BEST IN THE WORLD.

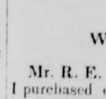

Attention is asked to the following statement of a graduated physician:

GALLIPOLIS, April 1, 1845.

This certifies that I have kept on hand, and used in my practice, R. E. SELLERS' VERMIFUGE, for the two past years. I am confident in saying that it has not failed, in a single instance, to relieve children and adults troubled with worms; in many instances it has brought away large quantities. I am very confident it is the best worm medicine in use. All that is required to give it reputation in any family is to give it a fair trial.

Complimentary Notices.

The Musical World and Journal of the Fine Arts.—It is with pleasure that we pen an article commendatory of this paper, which is fast winning golden opinions among those who have hearts to appreciate the deep pathos of music and poetry, and love and noble sentiment. It is like an angel, in robes of purity, wandering through the by-paths and windings of this uncharitable world, dropping a word of kindness here, smiling upon some way-worn traveller there, cheering a child of sorrow in his course through the dim vista of life, and softening asperities of the human race by its sweet, plaintive song.—*Derby Journal, Birmingham, Ct.*

We are no 'puffer' of Northern works, but it seems to us that such a work as this should be patronized by all who feel an interest in the musical art, no matter whence it comes. There is not a human being living who does not love the concord of sweet songs.—*Republic., Houston, Miss.*

An enterprise which is confined to no narrow limits, which is to tell upon Church and School—and which, by bringing to its columns the productions of the best writers upon the art, will be a faithful instructor, and, we trust, an unprejudiced censor of musical errors. This Journal cannot fail to be widely established, and welcomed to every school and musical family, if we are to judge from the enterprise and noble purposes of its founders.—*Christian Parlor Magazine.*

The Musical World and Journal of the Fine Arts is receiving encomiums from the press, both secular and religious. It is in truth a very ably conducted periodical, and deserves the patronage of all lovers of music, both professors, amateurs and learners, and of those who delight in literature. We are informed by one who is a better judge in musical matters than ourself, that the pieces of original music published in the paper are alone worth far more than the price of subscription.—*New Orleans Baptist Chronicle.*

There are several well-known and highly competent musicians and musical authors connected with it, and the literary department is managed with skill and ability. There are thousands now engaging in the study of music, who need precisely the instruction and information which a well-conducted Journal could furnish. We hope much from the work, and trust it will be sustained so as to accomplish a good work.—*New York Evangelist.*

The establishment of this Journal was a happy idea. It supplies a natural want, and may already be considered as the musical organ of the country. It is one of the few projects of the day, in the way of journalizing, which is destined to succeed. We perceive it is extensively quoted by the standard musical journals of London.—*Morris & Willis's Home Journal.*

The following note, signed by eminent Musicians, Music Publishers, Authors, Clergymen, etc., is also respectfully submitted:

"We fully approve of the Musical World and Journal of the Fine Arts, (late Message Bird,) a Musical and Literary Journal, which is established upon a wide and permanent basis. We have the fullest confidence in this Journal as the one long needed in the schools and musical circles of this country, while the very moderate price at which it may be procured, will commend it to every one who has the improvement of musical science at heart."

The following note, signed by Two Hundred of the principal Teachers of Schools in New York, is also respectfully submitted:

"We are readers of, and subscribers to, the Musical World and Journal of the Fine Arts, a Journal which is extensively taken in the principal Schools of New York. Many of its articles are Essays of a high-toned and practical character, embracing the whole range of musical science, and the work itself, in a very able manner, furnishes indispensible musical knowledge, hitherto imperfectly supplied, if at all, by personal instruction. We trust it may find its way into every school and family in our country, where the love of song or the musical faculty exists."

The plan of instruction to be adopted is thorough and systematic, designed to embrace all the departments of a polite and finished education. The principals will associate with themselves, as far as Assistants may be required, resident Female Teachers of established reputation, holding themselves responsible to their Patrons for the faithful improvement of the Pupils, in all the branches to which their attention may be directed, and will make it their duty to advise the Parents or Guardians monthly of the progress or deficiency of their respective pupils.

The daily number of their studies is not to exceed from three to five.

It will be the aim of the Principals so to conduct the education of young ladies, as will best prepare them for the scenes and duties of practical life. They will seek to develope and strengthen the intellectual powers—train the mind to habits of careful study and thorough investigation—to inspire just principles of taste in Literature, with a thirst for knowledge and sound learning; that thus their pupils may learn to think and reflect, and be prepared to act, as they must do, sooner or later, for themselves. The culture of the heart, the proper regulation of the moral feelings, and the due observance of religious duties, will be diligently urged as the appropriate ends and objects of life.

The manners of ladies, which when duly refined, constitute an ornament and charm of the female sex, will be constantly and carefully cultivated. A well trained mind—a cheerful temper—a kind heart, with the adorning of a modest graceful deportment, presents that model of character to which each of their pupils will be urged to aspire. Attendance on Public Worship will be insisted upon, at those Churches directed by the Parents or Guardians, accompanied by one of the Principals or Teachers, or in the absence of such directions, in company with the family to the Episcopal Church of St. Michael's.

The exercises of the day will be opened and closed with devotional services.

The discipline of the Institute will be strictly parental.

At the solicitation of many friends, and from years of successful experience in the education of young ladies, the Principals feel a confidence in commending their labors to the regard and patronage of an intelligent community, and particularly to those Parents who, in selecting an Institution for the education of their daughters, have respect to their progressive improvement no pains will be spared to render the residence of their pupils while with them, both comfortable and happy; the advantages of select female society twice a month will be enjoyed under the observance of the Principals and Teachers.

Communications may be addressed (prepaid,) to Mr. or Mrs. J. F. Pattison, St. Michaels, Md.
