The Senate was not in session to-day.

HOUSE.—The bill to incorporate the Eastern Shore Railroad Company, was taken up. The question was on the additional sections offered by Mr. Stephenson, to make each stockholder individually liable to the creditors of the company to an amount equal to the amount held by him for all debts and liabilties of the company, until the whole amount of the stock held by him is paid in. Making all the stockholders *jointly and severally liable to all* its laborers and servants for work done; and giving said laborers a lien on the work under certain restrictions. This amendment was favored by Messrs. Stephenson and Norris, and opposed by Messrs. Waters and Crout.

On motion of Mr. Baker, of Baltimore, the amendment was so amended as to make the stockholders liable to the amount of stock held by them only. The said bill was then ordered to be engrossed, and made the special order for Wednesday week.

The bill to restore to the city of Baltimore the auction duties, was next taken up. The amendments reported by the Committee of ways and means were adopted, and the bill was ordered to a third reading.

NEW ORLEANS, March 10.

Arrival of Santa Anna at Vera Cruz—The brig Robertson has arrived at Mobile, having left Vera Cruz on the 1st inst. She reports having met the English steamer going in with Santa Anna on board.—His colors were flying at the topmast.

NEW ORLEANS, Jan. 15.

Important from San Juan—The American Flag Insulted, &c.—The difficulty between the citizens of San Juan or Greytown, and the Vanderbilt Nicaragua Transit Company is becoming quite serious.—The depot of the Transit Company is located on a point across the river from Greytown, and at this depot the Company has stores with supplies of all descriptions, which are furnished to passengers going either way, thus completely monopolizing this branch of trade, and cutting off the citizens of the town from all participation in its benefits. Numerous complaints had been made, which were unheeded, and the citizens becoming exasperated, threatened that unless the depot was removed to Greytown open warfare should be resorted to, to check the monopoly, for which purpose cannon and ammunition had been procured, with the determination to tear it down. Mr. Baldwin, the agent of the company had been arrested and imprisoned, on the charge of using threatening language, but was subsequently released.

On the 8th instant, according to private letters received, the inhabitants of Greytown sent a body of armed men instructed to destroy or remove the depot. After destroying considerable property they took down and insulted the American flag, and gave notice that they would demolish the whole building on the 10th if it was not removed within the limits of the town.—Great excitement prevailed, and the Transit Company had refused all intercourse with the town, and declared its determination to convey none of its citizens to New York.

AUSTRIA.—Vienna letters are full of the recent attempt on the life of the Emperor. The assassin says he had no accomplices. He had it in contemplation for three years. He had been watching for three weeks to find the Emperor unattended. When he was taken to prison, he cried "Vive Kossuth."

Fears were felt of an outbreak throughout Hungary. Twenty travellers had been arrested at Pesth. The garrison of the city were kept constantly under arms, and sentinels posted at all the gates leading to the fortress of Buda.

ITALY.—Milan letters of the 9th state that the Austrian authorities believed Mazzini was in the city, and the most vigorous measures had been taken to prevent his escape. The inhabitants were forbidden to appear on the bastions after 7 o'clock. In case of disturbance householders were to close their doors, and every man found in the streets was to be treated as concerned in the affray.

A rumor in Paris states that the funds of the revolutionary committee, at London, amounted to 700,000 pounds just before the outbreak at Milan. The number of soldiers wounded at Milan, was 70, of whom 10 have since died. The focus of the conspiracy was at Malghern.

It is stated, in a Berlin paper, that the Hungarian regiment, at Milan, refused to fire on the insurgents, and it is to be sent to Crotia. The Piedmontese Government continues to expel all suspicious characters.

The Charleston Mercury, commenting on President Pierce's Inaugural Address, says—

"We have but little to say about that part of the address which treats of the great sectional question. General Pierce takes precisely the same position which has been constantly maintained by Mr. Fillmore."

This is the extreme Southern Right's estimate, and it tallies exactly with the view expressed by the central organ of the Abolitionists. We quote from the National Era's criticism of the Inaugural:

"No doctrine was uttered in regard to domestic affairs which Mr. Fillmore has not uttered in his annual message; no sentiment was expressed in relation to foreign affairs which has not been fully expressed by Mr. Everett in his letter about Cuba."

NEW ORLEANS, March 12.

Late and Important from Honduras.—Late advices from Honduras state that the country is in the greatest state of excitement. The British steamer Devastation anchored off Truxillo, and demanded its surrender in the name of the King of Mosquito. The inhabitants being threatened with bombardment if they did not decide in two hours, yielded under protest. The Honduras flag was pulled down and that of the Mosquito King hoisted in its place. The steamer then proceeded to Limas.—Cannonading was afterwards heard in that direction, and it was believed that the steamer had been attacked by the troops of Honduras.

CHARLESTON, March 12.

Further from Vice President King.—The oath of office was not administered to Mr. King on the 4th instant. Mr. Rodney, the American Vice Consul, visited him on the 3d for that purpose, but Mr. King thought the ceremony unnecessary, fearing that he would never reach Washington to assume the office, and if he should, the oath of office could be administered there. His friends, however, encourage the hope that the salubrity of his present location may yet restore him to health.

CENTRAL AMERICA.—A dspatch from Washington states that a protracted meeting of the cabinet was held on Tuesday morning, which resulted in directing the Secretary of State to demand an explanation from the Government of Great Britain on the subject of the recent intelligence from Honduras, and the English intervention in behalf of the Mosquito King. The Secretary of the Navy was instructed to report forthwith to the Executive the effective force at his disposal for active operations. If this be true there may be something in the war rumors after all.

RETURNED TO SLAVERY.—The Wheeling Times states that Lewis, a colored man belonging to H. M. Jamison, Esq., of that city, who ran away a short time ago, voluntarily returned, recently, perfectly disgusted with the condition of the "free niggers" in Pittsburgh, Pa., where he had been stopping.

☞ V. B. PALMER is authorized to receive advertisements for the "EASTON GAZETTE," in the cities of New York, and Philadelphia.

Mr. George A. Smith has been appointed Collector at Vienna, Md., vice Hooper C. Hicks.

CAUTION.—There have been two or three attempts made here to use Postage stamps the second time. There is a penalty of fifty dollars for the act, and the Postmaster is, by his oath, compelled to prosecute if he can discover the person offending. The saving of three cents at a risk of paying fifty dollars, is a *small* and *very uncertain* way of making money.

GRAHAM'S MAGAZINE, for April, is received, and fully sustains its reputation among the leading Magazines of the day, domestic or foreign. It is now published on the plan of Harper's and Putnam's, and Graham evinces a determination not to be behind those publications in the quality or quantity of his reading matter. Terms $3 a year, or $2 in clubs of five or more. Address George R. Graham, Philadelphia.

RESIGNATION.—We see by the last Star that Messrs. Thomas Beaston and Charles Robinson have resigned their positions as Trustees of School District No. 2, Election District No. 1. As the building of a school house in this District will cause the Trustees considerable trouble, we presume it will be now a rather difficult matter to induce suitable men to accept the station. We hope, however, the project of a new school house, so much needed, will not be suffered to fail on this account. It would be better to *pay* men to attend to it, if those regularly elected for the purpose will not do so.

THE trial of Theodore R. Loockerman, of this county, was comcenced in the Circuit Court for Caroline County, on Thursday last. The following gentlemen compose the jury:—Solomon Pippin, Thomas Beachamp, John Satterfield, John Price, John A. Clough, Jr., Wm. Connolly, Chas. Lane, Wm. Loockerman, John W. Christopher, Eli Collison, Henry Horsey, and Wm. Hardcastle. Messrs. Tarr and Martin appeared for the State, and Messrs. Goldsborough, Powell, Clark and Muse for the defence. We were in error in stating last week that Messrs. Bartol and Tingle were engaged. The case will probably be concluded to-day.

The case of Thomas B. Dean, indicted for perjury, also removed from this county, is expected to come up next Monday.

THE NAVY.—We regret to learn that the bill for a reorganization of the Navy was lost during the last hours of Congress. This is very much to be deplored, as a war with England is a possible occurrence, and our Navy is wofully deficient in both steam and sailing vessels. It is, in fact, only sufficient for a peace establishment, and is not qualified, without immense loss of life to our brave sailors, to cope with the English Navy. While Locofoco Congressmen were talking so wirlike it would have been well to convince foreign Nations that they did not speak in a Pickwickian sense, by putting our Navy on a footing equal to that of any other in the world. Should so unfortunate an occurrence as a war take place we should have no fears for the result, but the unprepared state of our Navy might lead to some disastrous losses.

IT will be seen by a despatch in another column, that the British have seized upon the town of Truxillo, in Honduras, Centra America, and raised the flag of the Mosquito protectorate. This town is undoubtedly in Central America, and the act is not only a violation of the Monroe doctrine, but of the Clayton and Bulwer treaty. Instead of talking about *abrogating* that treaty, Senators had now better talk about enforcing it. We shall now see whether the assertions of President Pierce, and Messrs. Mason, Cass, Douglas and others, were intended to be carried into effect, or only put forth to scare Great Britain from our shores.—The election of Gen. Pierce does not seem to have had a very beneficial effect on England, as that country since his election, has colonized the Bay of Islands, which is said by Locofoco Senators to be an infraction of the treaty, and now committed this outrage in direct and palpable violation of her solemn treaty stipulations. Senators have talked long and loud when there was no occasion, and it has done no good.—Now *action* must be had and we shall see what will be done by this Administration, which is said by some to have rebuked Mr. Fillmore for a want of American feeling in the conduct of our foreign affairs. With a Locofoco Senate and House, the President can do as he pleases, and he now has a fair opportunity to show us how our foreign affairs shall be conducted. If he does as Locofoco Senators and presses contended should be done when Mr. Fillmore was President, (although there was no occasion for so doing,) a fleet of armed vessels will immediately be sent there to compel at the cannon's mouth satisfaction for this violation of their treaty stipulations. Now there is open disregard of this treaty, and we shall see whether Locofocos with a President of their own choice, will be the same as Locofocos with a Whig President.

OUR readers will find some Washington speculations in regard to appointments to office, and an amusing account of the war for the Cambridge Post Office, on our first page.

MR. RICHARD M. BEALL, of Baltimore, has purchased an interest in the Cambridge Chronicle, and it is now conducted by Messrs. Goldsborough & Beall. It is very much improved in appearance, new type being put in requisition, and the former wide columns giving place to those of more modern appearance.

The Milford, Del., Beacon, has also been much improved since it passed into the hands of Messrs. Mahan & Bro., the present proprietors.

A new paper called the "Sussex News" has been started at Georgetown, Del., by Messrs. Blizzard & Dodd. It presents a very neat appearance, and will undoubtedly be found a great convenience and benefit to the citizens of Sussex County. We are pleased to see the success which attends the old established papers, and trust the new ones may be equally fortunate.

PHILADELPHIA, March 14.

The Philadelphia Murders.—Additional circumstances have been discovered, rendering the evidence against Spring conclusive of his guilt of the late murders. Lynch returned this evening from New York with the Philadelphia officers. He was found in a low den in Vesey street, crazy from the effects of drink and the intelligence of the murder of his wife. He says his wife's trunk contained $170 in gold. All the other prisoners except Spring have been discharged.
