NEW Stove, Tin, and Sheet Iron MANUFACTORY.

THE subscriber takes this method of informing the citizens of Talbot and the adjoining counties, that he has opened in the room under the Sons of Temperance Hall, in the town of Easton, an establishment for the manufacture and sale of all the various articles appertaining to the *TIN* and *SHEET IRON* business, which for cheapness, quality and workmanlike finish, cannot be surpassed in either country or city. He respectfully solicits the liberal patronage of a generous public, and particularly those who buy to sell again, promising to make it to their advantage to deal with him. **Roofing and Spouting,** to which branches he pays particular attention, done at the most moderate rates, (costing little more than good shingles) in the best manner and satisfaction ensured or the money refunded. The attention of persons purposing to build is called to the fact that while metallic roofs cost but very little more, they make a much neater and safer covering and are much more durable than shingles; taking this into consideration, I solicit a call from all purposing to build, feeling assured that I can give them satisfaction.
