LATER NEWS FROM EUROPE.

Important News from Turkey—Difficulty in the English Cabinet, &c.

NEW YORK, June 21. The steamer Humboldt, with Southampton dates of the 8th inst and 125 passengers, reached her wharf about 3½ P. M. Among the passengers are W. Cullen Bryant of the New York Evening Post, Mrs. Col. Fremont and family, and R Scelelden, special Envoy from Bremen.

TURKEY.—The news from this quarter is decidedly war-like. The English fleet in the Mediterranean had been ordered to the Dardanelles, and the fleet in the Channel had been despatched to the Mediterranean. The French fleet had also arrived in Besica Bay.—The Russian forces were moving towards Moldavia and Wallachia; the frontier provinces of Turkey, and the Russian troops in Warsaw had received orders to proceed by forced marches to Bessaratia.

The military preparations of the Turks were of the most gigantic character. The Egyptian fleet, with an army of 30,000 men, were proceeding to the aid of the Sultan, and the Turcoman chiefs were busily engaged in raising an army of 100,000 men for the assistance of the Porte. Similar efforts were also being made in every province of the Empire. The mediation of Austria and Prussia were spoken of to avert the threatened war, and Count Nesselrode, with important despatches, had arrived in London A later despatch to the London Times says that the Emperor of Russia had sent a courier to Constantinople with the demand that Menzikoff's last proposition should be complied with in eight days.

ENGLAND.—A split had occurred in the English Cabinet between Lord John Russell and the Irish members, and the latter had sealed their resignation. Numsell, Keogh and Sadlin had withdrawn.

The income tax bill had passed the House of Commons.

The subject of the imprisonment of British colored subjects in South Carolina was about to be brought before Parliament.

GERMANY.—The ratification of the Zolverein treaty was confirmed at Berlin on the 2d.

It was still hoped that the peace of Europe would be preserved, but further advices from the East were anxiously awaited.

BOSTON, June 20.

The Fisheries—Arrival of Admiral Seymour at St. John, N. B.—Extensive Preparations. New Brunswick papers to the 16th inst., have been received. On Tuesday, H. M. steamer Argus, Commander Purbes, arrived at St. John, bearing the flag (white at the fore) of Sir George Francis Seymour, Kt. G. C. H., Vice Admiral of England and Naval Commander-in-Chief on the North American and West Indian station. The Councils of St. John had adopted an address to the Vice Admiral, expressing the approbation of the citizens for the firm but judicious and discreet manner in which the colonial fisheries were protected last season against foreign aggression by him and the naval forces under his command, and trusting that the same desirable course will be pursued this year.

The New Brunswicker says: "It is understood that this visit of the Vice Admiral to our provinces is connected with the measures which have been and are about to be adopted this season, for the more efficient protection of the fisheries. A schooner, hired by Sir George Seymour, has been manned and armed for the purpose of guarding the entrance of the Bay of Chaleur, between Point Miscou and Point Mackerel, on the Gaspe shore, in order to prevent all intrusion on the waters of the Bay. The steamer Rose has also been hired and armed to cruise off Prince Edward Island, and prevent trespass there. Boat stations have been established at various points on the gulf coast; and these, with the ships of war and hired vessels, will, we hope, this season, effectually prevent the wanton intrusions upon our fishing grounds, of which the colonists have so long and so justly complained."

BOSTON, June 22.

Important from the Fisheries—Halifax papers state that the fishery question was assuming greater importance since a French cruiser had driven off a British vessel from a part of the coast supposed to belong to England. The French evince a determination to reclaim ancient and forgotten rights, which, it is supposed, will have an important bearing upon American and English rights. Two armed vessels had sailed from Halifax for Newfoundland.

MEXICO.—An export duty of six per cent is now placed on all silver coin and bullion shipped from the Mexican ports. General Arista's letter, protesting against his banishment, as recently published, was a forgery, as the real one is published at Havana, and contains no such passages as those referring to American institutions, annexation, Carvajal, &c. In the late Vera Cruz insurrection three of the Government troops were killed and five wounded. Of the rebels forty were killed and wounded, and thirteen made prisoners.—A German merchant was among the killed.—Three of the most distinguished prisoners were put to death. A Territorial Government has been formed for the Isthmus of Tehuantepec, a General Marin appointed Governor, and the Capital fixed at Minatitlan.

NEW YORK, June 17.

Another Fatal Accident on the Erie Railroad—Eleven Persons Killed.—Another fatal and distressing accident has occurred on this road. The boiler of engine 58 exploded yesterday afternoon, near the Susquehanna river, with a terrible concussion. Eleven persons were instantly killed and several badly wounded. Among the dead is Mr. Arnold, the engineer, and three bodies whose names are not stated. The others are mostly Irish laborers, who were engaged on the road, and were near the engineer when the explosion took place. The scene was one of great distress. Some of the bodies were dreadfully mangled and so disfigured as not to be recognizable. It is not stated what caused the accident.

WASHINGTON, June 17.

Acquitted.—In the case of Wm. B Sasscer on trial for the murder of Mrs. Emeline Johnson, by poison, the jury rendered a verdict of acquittal to-day, in two minutes after the case was submitted for their decision.

A son of Mr. Henry Richardson, of Harford county, Md., aged ten years, was kicked by a horse on Sunday last, and died on Tuesday.

DISAPPEARANCE.—Henry Kunkle and Francis Temple, stone masons, who left Bel-Air on or about the first of the month, for Spesutia Island, to do some work there, and after remaining about a week they left in a row boat for Perryville, Cecil county, since which they have not been heard from.

CONCORD, N. H., June 20.

The New Hampshire Resolutions of Censure—Letter from Mr. Burke.—Mr. Burke, who presented certain resolutions in the New Hampshire Democratic Convention, censuring President Pierce for his course in regard to appointments, has addressed a letter to the Democrats of the State, in answer to an article which appeared in the New Hampshire Patriot. Mr. B. says, in reference to the committee reporting the resolutions, that he does not believe a single gentleman composing it, wished or designed to attack the Administration.

He further remarks, "He did not and presumes others did not, but I candidly acknowledge that I did wish to have the Democracy of New Hampshire presents clear and straight forward record to the world, to stand on the national platform, as the third resolution asserts, 'unchanged,' and that if the true Democracy have been overloked, and Freesoilers, Coalitionists and Disunionists had been taken too much into favor, the Democracy of New Hampshire were not responsible for it."

Mr. B. concludes by asserting that he shall not war on the Democratic party—principles, usages or candidates—but he shall upon the contemptible little cabal at the Capital, who, sheltering under the shield of the Democratic party, are willing to hazard its unity and success to gratify a personal dislike to one or more members of the party.

About four columns of to-day's Patriot, which is looked upon as Gen. Pierce's New Hampshire organ, are occupied with a bitter reply to Mr. Burke.

The Patriot charges that the statements of Mr. Burke are malignant falsehoods, and intended as threats against the administation, and accuses him of cowardice, and as being a bully, an assassin, &c., which traits the Patriot thinks he exhibited when he attacked the President through the committee in the Democratic State Convention, and that said body correctly failed to sustain the resolutions he offered. The Patriot also says that Burke's course is owing to his failure to secure a lucrative office.

THE SOUTHERN COMMERCIAL CONVENTION.—The subjects which received the endorsement and recommendation of the late Memphis Convention are as follows—

1. The Pacific Railroad.
2. The favorable settlement and adjustment by our Government of the difficulties in regard to the Tehuantepec route.
3. The protection of the Cotton interest from injurious discriminations, by diplomacy, when practicable.
4. The fostering and encouragement of the trade with the Amazon, Oronoko, and La Plate rivers, through steamers from Southern ports.
6. Address on the most valuable form of Cotton for export.
7. Recommendation in behalf of Common Schools in the States.
8. The adoption of means to ascertain the laws which govern, and to investigate the practicability of guarding against, the floods of the Mississippi and its tributaries.

We learn from the Memphis Enquirer of the 10th inst., published the day after the adjournment of the Convention, that its proceedings throughout were characterized by great unanimity, and that this large assembly, comprising some five hundred delegates from the States of the South and West, was not sectional, in the least objectionable sense of that term, in its tone or temper—the spirit which seemed to animate its members in reference to their brethren of the North being that of a generous emulation, rather than a soured and antagonistic rivalry.

FROM WASHINGTON.—The correspondent of the Journal of Commerce says:

Our Government is obliged still to keep a sharp watch upon the fillibuster movements. It is well known that fillibusters are better prepared now, than they have ever been, for an invasion of Cuba; but they will not make the attempt without some assurance of indulgence from this government, nor without such force as will give assurance to the Creoles, of success, in any revolutionary attempt in which they might participate

It is now understood that the President and his Cabinet, or least some of the latter, will attend the opening of the Crystal Palace.

EXECUTIONS AND CRIME IN NEW YORK.—Patrick Fitzgerald, convicted in New York of the murder of his wife, was hung on Friday. He met his doom with great firmness, and even smoked a segar during the morning, as well as laughed and talked with those who visited his cell. On Friday next Neary, also convicted of the murder of his wife, will be hung in the same city. Eight persons have been sentenced to death in New York during the last twelve months, of which number six have been hung. There are now ten prisoners in the city prison charged with murder. The convictions during the last twelve months in the city, are nearly as many as took place in the same period of time in the whole of England and Wales. The population of New York city, 600,000; population of England and Wales, 18,000,000.

NEW ORLEANS, June 16.

The Attemptempted Insurrection at New Orleans.—Several affidavits were made last night against James Dyson, an Englishman, in regard to the insurrectionary attempt on the part of the slaves. Dyson who for a year past has been teaching negro children to read and write, was accused about 2 years ago of harboring criminals and imprisoned for several months. He then displayed great acuteness and legal knowledge in defending himself.—The present affidavits are strong against him as being the sole planner and instigater of the recent attempt. He has been committed to await an examination upon next Wednesday, the 22d inst. If the offence is proved, the penalty will be very heavy—probably death. The excitement has rapidly subsided.

SPRING'S BODY NOT BURIED.—Various rumors have been afloat in Philadelphia for several days in reference to the final disposition of the body of Arthur Spring, and we notice in the Bulletin, on Saturday, the affidavits of two persons who state that they have opened the coffin in which it was alleged the body had been buried, and it was found to contain a log of wood and some clothing, but no portion of any human being.

GEORGE LAW AND SANTA ANNA.—The N. York Freeman's Journal states that an agent left New Orleans on the 1st instant for Vera Cruz for the purpose of negotiating a sale to Santa Anna for the famous lot of muskets owned by Mr. George Law; and also of offering to furnish other warlike materials, ammunition, &c., for the equipment of an army of 100,000 men. The Journal says it obtains the information from a reliable source.

HARVEST.—Our farmers are in the midst of the Wheat harvest, some having commenced a week since. The rust has touched some fields, and the fly others, yet the yield generally will be fair, though by no means heavy.

The Corn has been very much injured by worms, many farmers having had to re-plant several times. Fields that have escaped the worm, look very fine, and bid fair for a good crop.

ROAD SUPERVISORS.—Under a law passed at the late session of the Legislature, the voters of each election district in every county in this State, will be required to elect on the first Monday of November next, and every two years thereafter, one Road Supervisor, who must be a resident of the district in which he is a candidate, and whose duties will be to superintend the repairs of the public county roads and bridges, subject to the direction of the county commissioners.

THE weather for the last week has been excessively hot, the thermometer ranging from 85 to 95 in the shade, day after day. Red faces and cross words have been abundant in consequence. It is useless to advise our readers to "keep cool," so we say keep your temper, it will be cooler in three or four months, which is some consolation. Light Summer suits and ice-cream are in demand. On Thursday night there was a shower of rain, and yesterday was much more comfortable than any day for two weeks past.

THE quarrel among the Baltimore Locos is still at fever heat. It has extended to the nominations for Congress, the respective friends of McLane and May particularly, being 'down on each other like a thousand of bricks.' Evidently neither of them are fit to represent Baltimore city in the National legislature if all that is said of them is true. As to the Gubernatorial controversy, that is absolutely getting exciting, notwithstanding the heat of the weather. The Convention to nominate delegates to the State Convention met on Monday night, when they immediately commenced quarreling about the officers of the meeting. Upon the show of hands on the vote for President, it was found that Mitchell had 53, and the "Custom House," or Thomas men, had 46 friends in the Convention. A motion was made that no delegate be admitted to a seat unless his credentials were presented. Mr. Griffith hoped "the friends of Walter Mitchell would vote down the proposition," which brought down a perfect storm of hisses, jeers and cries of derision. The Custom House men then left the Convention, declaring that they would not be gagged, &c. The friends of Mitchell then proposed to go into the nomination of delegates, but after considerable discussion it was decided to adjourn until the following Wednesday evening.

At the meeting on Wednesday night 63 members were present, A letter from the seceders was read, in which they say if they can be assured that their "just prerogatives" would be respected in the future proceedings of the Convention, they would return. The assurance was given, and then all the members attended. The committee on credentials made a report which led to much confusion and disorder, crimination and recrimination The difficulty was finally settled, and the Convention voted to go into the election of delegates, ayes 54, nays 46. Eleven Mitchell delegates were then elected by a vote of 54, to 14 for the anti-Mitchell ticket, *the seceders not voting, having again left the Convention.* The Convention, after some speeches from the Mitchell men recommending union and harmony, adjourned *sine die*.

Mr. Mitchell is a man not much known to the Democratic or any other party, out of his own county, as is shown by the fact that the Centreville Sentinel, a Locofoco paper, in speaking of his success in Baltimore, call him "Matthew Mitchell." He was taken up by the Lowe faction, who have systematically and constantly been writing him into public notice for a year past. The different publications in the Sun show how low all the cliques have stooped to carry their ends, and it remains to be seen whether the masses of the party are to be traded off and sold to the man who by the practice of the most successful frauds, obtains the nomination. This controversy has also shown that the "Irish Social and Benevolent Society," which should be what its name denotes, is really a *political machine*, through which different cliques of the Locofoco party, have ground out candidates for Governor. Mitchell, Key, Hughes, Ligon, &c., have each been brought out by their friends through that machine, and their enemies have also endeavored to kill them off in the process. We wish we could give our readers the benefit of the entire controversy, but it would fill our paper every week, and must be omitted.

THE Democrats of Howard County have elected delegates to the State Convention.—Two of the five districts passed resolutions in favor of the Hon. T. W. Ligon as the Locofoco candidate for Governor, and all the delegates are supposed to be in favor of his nomination, he being a resident of that county.

IT has been reported in Washington that Spain has formed an alliance with Mexico, to act against the United States, which alliance is to be under the protectorate of England.—This is a startling rumor, and if true would lead to a war with all those nations, but it is considered by well informed journals to be improbable and entirely false. The only ground upon which to base the rumor is supposed to be the fact that Santa Anna has incorporated several Spanish officers into the Mexican Army. The Washington Union publishes an article which is supposed to mean that that the Administration knows nothing of the matter officially, but it is so noncommittal that it leaves us as much in the dark as ever. It is presumed that when the Administration disposes of the more important matter of distributing the "spoils," it will give us some information in regard to our foreign affairs, unless Gen. Pierce has determined to follow the example of Louis Napoleon, and keep all knowledge of the affairs of Government from the people who gave him power. It is really desirable that before the expiration of his term of service, Gen. Pierce should let the people know what his foreign policy is. His domestic policy is to give the offices to Free Soilers and Disunionists,—when shall we know what is his foreign policy? Can his friends tell us?

CLOSING OF PATAPSCO BANK.—We learn from the Howard Gazette, that a general meeting of the stockholders in this institution, was held at the banking-house, at Ellicott's Mills, on Monday last, when it was unanimously resolved to close up the affairs of the bank, and give notice to all interested to draw their deposits from it before the 1st day of July next, after which they will be paid off in Baltimore. Notes falling due after the 1st of July, will not be collected by the bank. The first dividend of fifteen cents, was also declared upon each share. We also learn from the Gazette that a new bank, to be called the Bank of Howard county, is about to be established at Ellicott's Mills. Books of subscription to its capital stock will soon be opened.

MELANCHOLY ACCIDENT.—We are very much pained to hear of a distressing accident that occurred at Governor's Bridge in this county, on Monday last. Thomas, son of Col. W. W. W. Bowie; William, son of Richard B. Mullikin, and a son of Haswell Magruder, Esq., were bathing in the river. Young Magruder, being unable to swim, got into deep water, and his two companions undertook to rescue him, when all three were drowned.—The bodies of two (Bowie and Magruder) were found on Monday night about 11 o'clock; young Mullikin's body not having been recovered at our last accounts. Their ages were from 12 to 15 years.—*Prince George's Advocate.*

HOMICIDE IN ALLEGANY COUNTY.—It is stated that a male slave of Mr. Joseph Sprigg, of Cumberland Md., was fatally stabbed on Saturday last on the canal, a short distance below Williamsport, by a man named Anderson, of Alexandria, Va. The deceased and another colored man, it appears, had a fight, when, it is alleged, Anderson approached and suddenly stabbed the slave in the left breast, the knife entering the heart and producing almost instant death. Anderson, who is a white man, has been arrested

ATTEMPTED SUICIDE.—We learn that Mrs. Mary Stratt, wife of Captain Richard Stratt, residing in Quaker Neck, in Kent county, attempted to commit suicide on Tuesday evening last by hanging herself. She was fortunately discovered by some one in the family, and cut down in time to save her life. The particulars we have not learned, but understand that this rash attempt upon her own life was caused by some domestic difficulties which have existed for some time past.—*Kent News.*

THE SUB-TREASURY OVERBOARD.—The Secretary of the Treasury, after having floundered three months through the impracticable meshes of literal construction of the Sub Treasury law, and received the praises of the Democratic party, for his wonderful firmness, and his superiority to his Whig predecessors, has abandoned his virtuous resolution and gone back to the plain, undemocratic common sense construction which all his predecessors have been obliged to give to the act. It seems to us that a law so impracticable that even its own friends confess their inability to enforce it, might as well be repealed.—*Providence Journal.*

BUSHING TOMATOES.—Those who love good tomatoes, will take pains to cultivate them so as to insure them as near as may be in their full perfection. There is no other fruit that delights more in air and sunshine than the tomato. They should have, therefore, abundance of room, and the vines be sustained from falling to the earth. Stout brush firmly set around the plants, answers the purpose better than any other method.—The branches have room to extend themselves as they like, while the limbs of the brush keep them in their positions. By this method the fruit is more fully exposed to the genial influences of the air and sunshine; whereby it attains a more delicious flavor, larger size, and comes quicker to maturity.

SINKING OF A PIER.—We learn from the N Y Express that on Saturday afternoon Pier No. 6 North River gave way, under the weight of iron and other merchandise carrying men, horses and carts with it. The goods were chiefly from the ships Western World and Union. One horse was taken out alive, but others went down, and it is feared some men were buried beneath the wreck in the water.

The Cambridge (Md.) Democrat says that the smut has injured the wheat crop in Dorchester county very much, some fields not being worth cutting. The bud worm has also injured the corn so much that many farmers have to plant nearly their entire crop over.

BE CAUTIOUS.—The newspapers around the country are recording deaths from sunstroke and drinking cold water while the blood is heated with exercise. The mid-day sun should be avoided as much as possible, and cold water should be drank sparingly.

CAMP MEETING.—There will be a camp meeting of the Methodist Episcopal Church of Centreville Circuit, at Wye camp ground, to commence about the 1st of August.

BALTIMORE CONGRESSMEN.—The election of delegates to the Congressional Conventions, took place in Baltimore on Thursday evening, when the friends of Joshua Vansant carried the third, and Henry May the Fourth District R. M. McLane and Nathaniel Cox, (Custom House men) were May's competitors, and Wm. P. Preston and Wm. Pinkney Whyte, Vansant's. A part of Baltimore county, which has not yet elected delegates, is in the Third District.

ALTERED BILLS.—There is a large quantity of altered bills in circulation in Brooklyn. The Times has been shown a $20 bill of the Citizens' Bank, of Washington, D. C, altered to Citizens' Bank of Baltimore, and also $3 bills on the Citizens' Bank of Washington, changed to the Citizens' Bank of Cumberland, R I

COL. H. E. BATEMAN, the present Comptroller of the Treasury, is recommended by a writer in the Westminster Democrat, as the candidate for that office at the next election.

A Fatal Editorial Duel—A duel was fought at New Orleans, on the 20th inst, between the editors of two German papers, resulting fatally to one of them.

The Rockville Journal says the Hon. R. J. Bowie is the unanimous choice of the Whigs of that county for Governor.

Dysentary prevails in Dorchester co., Md., and the Cambridge Chronicle says several cases have proved fatal.

Hon. Robert J. Walker has been appointed and accepted the post of Commissioner to China.

GOOD MEDICINES!! A celebrated Physician of Baltimore says it gives him "great pleasure to add his testimony to that of others, in favor of the *extraordinary efficacy*" of Stabler's DIARRHŒA CORDIAL, and the same eminent Physician writes with regard to their ANODYNE CHERRY EXPECTORANT, that he "has no hesitation in recommending it to the confidence and patronage of the public, as a *most valuable medicine.*" See advertisement in another column

"Howell's Point" for Sale.

THE western portion of the above named valuable tract of Land will be offered at public sale, at the front door of the Court House in Easton, on

Tuesday, the 26th of July, at 3 o'clock P. M.

It contains 175 ACRES of cleared and 59½ Acres of Wood Land, heavily Timbered.

The improvements are ample—the land unsurpassed in Talbot for fertility, and location one of the most desirable on the Eastern Shore. Extending into the broad waters of the Choptank, the frosts of spring early cease to check vegetation and render the point remarkably valuable for gardening purposes, while steamboats passing to and from Baltimore, afford almost daily conveyance for its products to market. The beautiful town of Cambridge is in sight and is also a fine market place.

Fishing for Shad and all other varieties of fish found in the Choptank may be successfully carried on a stone's throw from shore. In winter Wild Ducks and Geese are abundant and the Point is considered excellent as a gaming place.

THE TERMS are a credit—one fifth to be paid in ninety days from day of sale—balance in two instalments of eighteen and 36 months. Purchaser to have bond prepared at his own expense and to be approved by the Commissioners.

TRUSTEE'S SALE OF Valuable REAL ESTATE In Oxford Neck, Talbot Co., Md.

IN execution of a decree of the Circuit Court for Talbot County, in equity, passed in a cause wherein Samuel Chamberlaine and others are complainants and Henrietta M. Chamberlaine and others are defendants, the undersigned, Trustee, will offer for sale at public auction, at the Court House door in the Town of Easton, on

TUESDAY, the 19th day of July, 1853,

between the hours of 2 and 5 o'clock P. M. the several parcels of Land designated in the return of the Commissioners appointed in said cause to make partition of the estate of Mrs. Anna M. Chamberlaine, dec'd, as lots Nos. 3 and 4.

Lot No. 3, being part of the estate known as 'Bonfield,' is situated upon the waters of Boon's Creek, with a front affording an outlet upon the public road and a right to a landing on Tred Haven Creek. It contains

213 ACRES, **1** ROOD & **33** PERCHES

of land, about 100 Acres being now under cultivation and the balance being in wood, with Timber sufficient for the Farm. There are no buildings of any kind on this lot.

Lot No. 4, part of a tract called 'Nether Foston,' is a compact farm of

136 ACRES, **2** ROODS & **28** PERCHES

of land, beautifully situated on Island Creek.—50 acres only have been brought into cultivation and the balance of the farm is set in fine Timber.

There is on this lot a small tenant's HOUSE and *Granaries &c.* sufficient for its present requirement.

These lands lie in one of the most fertile and healthy sections of Talbot County; within two or three miles of the town of Oxford, the site of the Maryland Military Academy, near to a Post office and to Churches, in the vicinity of the estates of Gen. Tench Tilghman, William B. Willis, Esq., Benjamin M. Bowdle, Esq., and other well known farmers, and possess the various advantages of fine salt water situations.—Fish, Crabs, Wild Fowl, &c. being abundant in their season and steamboats to and from Baltimore affording easy and frequent communication with other portions of the State, and a market for any surplus proceeds of the dairy, poultry yards, &c. The lands are of good heart and excellent quality, susceptible of the highest improvement and the facilities for such improvement by shell, woods earth, &c. are unsurpassed. The title is believed to be indisputable.

THE TERMS of sale prescribed by the decree are as follows, viz: one fourth of the purchase money to be paid in cash, on the day of sale, or on the ratification thereof by the Court at the discretion of the Trustee, and the residue in equal instalments, in 1, 2 and 3 years from the day of sale, the whole to bear interest from that day and to be secured by the bonds of the purchaser, with security to the satisfaction of the Trustee.

Persons wishing to purchase are requested to view and examine the property, and for further information application may be made to James Chamberlaine, Esq., at Bonfield, or to
