THE evident and indicative tide of popular sentiment in this State, in favor of the Republican nomination and election of Mr. Wm. T. Malster, President of the Columbian Iron Works, of Baltimore, for governor is noticeable. The suggestive fact that a number of counties have already, in advance of the election of delegates from Baltimore City, declared by resolution in favor of Mr. Malster, shows an unusual condition of our State politics, and indicates that the record which he has made as a self-made man, and a successful man of business, coupled with his recent declarations upon Reassessment, Taxation, Public School System and anti-machine methods in political matters, have brought him close to the hearts of many as the proper candidate for Governor.

His freedom from past political factional alliance, his magnificent vote in Baltimore two years ago for Mayor, when he might have been elected had the situation been properly known in advance, his strength and popularity with the laboring classes there, his position as a large employer of labor, with which he is always in harmonious relation, and the recent securing by him of large contracts for building Government vessels, which will give employment to perhaps one thousand or twelve hundred additional men, are all factors which seem to point him out as the especial candidate for this occasion, when the first consideration should be the success of the party.

THE city of Baltimore was in a tumult on Wednesday among the democrats when both flanks of the party met in open convention at the Academy of music and nominated a State ticket. To sum it up in two words, Gorman won.

This is as it should be.

We are glad of it.

Gorman deserves to win every time. The more his party try to down him the stronger he will bob up.

He has made the state of Maryland famous at home and abroad for being the most boss-ridden state of the Union. Who else deserves the honors but Senator Gorman? And he should have them.

Democracy in most states means independence, in Maryland true democracy means Gormanism.

Maryland democrats are not true to their colors who oppose Mr. Gorman, and so all the rancor and discord sinks into insignificance when it comes to the test.

When the Republicans make their State ticket and place at the helm a man above the possibility of reproach one who has had no record but that of credit, one whose ability is marked, and influence felt, it will give Senator Gorman and his party the greatest set-back they have ever sustained.

The opportunity for the Republicans is the success of the Gormanites.

One cheer for Mr. Gorman and three cheers for the coming Republican nominees.

IT is somewhat difficult to understand Democratic ideas of economy. One member of the Cabinet—Secretary Morton—has, he says, as a measure of economy, abolished the distribution of seed to the farmers of the country, in defiance of Congress, which appropriated the money to buy the seeds and to pay for their distribution. Another member of the cabinet—Secretary Herbert—has started on a six weeks' tour of the Atlantic Coast summer resorts, on board of the U. S. Dispatch Boat Dolphin, at public expense. He didn't say that his pleasure trip was also a measure of economy, but he tries to disguise its real nature by pretending that it is made for the purpose of inspecting the Government Navy Yards on the Atlantic.

WHAT's the matter with the democrats, any how? Surely the lightening of their wrath turns into streams of liquid "sugar" which is another word for taffy; and Boss Gorman cooks it, while the little fellows hop around and lick up the drippings.

IN commenting on the convention which nominated John E. Hurst of Baltimore for Governor of Maryland, the Sun of Thursday says:

Mr. Gorman, according to his usual practice, had several strings to his bow, several candidates encouraged to hope that they might receive his support and be the choice of the convention, (i. e., his choice.) There were several booms that grew and expanded in the sunshine of his favor. Of course there could be but one Governor and one attorney general, and when the Sultan dropped his handkerchief there were necessarily aching and disappointed hearts in the seraglio. More than that and worse than that, there were sturdy, honest men who had felt encouraged to cherish an honorable ambition by the hope, if not the promise, of the Senator's favor. How some of these and how their friends will take their summary and almost contemptuous dismissal at the last hour, their throwing aside like squeezed and empty oranges out of which no more can be sucked, remains to be seen. Some of these gentlemen stood for principles, which is more than Messrs. Gorman and Rasin were ever known to stand for. Their rejection at the last moment confirms conclusively what The Sun has all along asserted to be true—that Mr. Gorman and his allies cared no more for reassessment and its advocates than the late Mr. Vanderbilt is said, according to his oft quoted words, to have cared for the public. It was simply with them a "racket" and a "circus" to amuse the rural voter and deceive the honest aspirant for Gubernatorial honors.

We feel that we have done our duty in a faithful endeavor to save the democratic party from the consequences of what we believed to be a false step. Together with the great majority of the democratic party and of the people of Maryland we await the final result, trusting that it will be for the best interests of the people and for the honor and well-being of the good old State of Maryland. That decision, we believe, will be an honest one. It will not be bought with money or secured by the intrigues and cajoleries of officeholders and politicians. Politicsans, "bosses' even, may be bought at so much per head; voters even, at primary elections, may sometimes be bought by the dozen, and conventions may be thus packed and misled, but the people of a whole State, especially a State like Maryland, cannot be corrupted.

THE SAME OLD GANG.

The Ledger seems to derive great pleasure from the fact that a number of Republican candidates have been candidates before and some of them honored with an election. He is right. All but three of them have. Those who have been elected performed their duties to the satisfaction of their constituents. Those who have been defeated showed their popularity by the flattering vote they received particularly where they were best known. These men got their nomination without solicitation on their part and in some instances against their expressed wishes. But we believe they will waive their wishes in deference to the will of the convention and those it represented.

Now how is it with the Democratic ticket? All but three are office holders, not "exes." "The same old gang" now feeding at the public crib and must so continue to the exclusion of those who have no "pull" with the "managers" however great may be their merit.

THE nations of the world seem to know the timid nature of the Cleveland administration quite as well as Americans do. Months ago France was was asked to furnish a copy of the papers in the case of Ex-Consul Waller, who is now in a French prison, and it refused, an unprecedented thing to do. Another demand has since been made for the papers, and State Department officials express the opinion that another refusal will in due course be made. Meanwhile an American citizen is languishing in a French prison, on what he claims to be trumped up charges and an unfair trial. This administration seems to be opposed to protection for Americans either at home or abroad.

WHO is on top now, Mr. democrat Yea, verily, the same old war horse Gorman.

Will Be A Big Exposition.

Extensive arrangements are being made for the comfort of the great crowd of visitors who will attend the Cotton States and International Exposition, at Atlanta, in the fall. The Department of Public Comfort has been fully organized and is hard at work. Many new hotels have been secured, and the work of construction, on both permanent and temporary buildings, is making Atlanta resound with the music of the hammer and saw. Mr. Alex. W. Smith, the chief of the Department of Public Comfort, announces that when his plans are carried out there will be ample and comfortable accommodation for any crowd that may attend the Exposition.

Uses A Type Setting Machine.

The Wilmington Every Evening, with its issue of Tuesday, used the Thorne type setting machine to set up the paper. This is a long stride ahead of any journal on the peninsula, and shows marked enterprise on the part of the Every Evening management. With these new facilities even a better sheet than before may be expected.

Met the Emergency.

A melodrama of the most stirring kind was being given in a theater in a small provincial town. In one of the critical scenes the hero suddenly became aware of the fact that he had come upon the stage minus his pantaloons. Without a moment's hesitation he made a dash at the traitor, exclaiming: "Die, villain! I meant to strike thee with my dagger, but I left the weapon in my dressing room and will therefore strangle thee in the presence of this indulgent audience."

It is scarcely necessary to add that this variation from the original brought down the house.—London Globe.

A Dry Land Fish.

The periophthalmus, one of the most remarkable of the several species of dry land fish catalogued by the naturalists, is a native of Mauritius. He is only 4 or 5 inches long, but has a big head, very prominent eyes and side fins which bear a strong resemblance to legs. They have the curious habit of leaving the water in the evening and spending the entire night hunting the nocturnal insects which inhabit the muddy flats near tide water. A similar species of New Zealand are called "running fishes" by the natives.—St. Louis Republic.

Adversity.

Adversity yields benefits to those only who bring a willing heart and an intelligent mind to co operate with fortitude and resignation. As Emerson has well said, "Men are ennobled by morals and by intellect, but those two elements know each other and always beckon to each other until at last they meet in the man, if he is to be truly great."

The Jewish feasts, those of Tabernacles, of Pentecost, of Trumpets and Passover, were instituted by Moses, B. C. 1490.

Santa Fe was originally named La Ciudad de la Santa Fe de San Francisco.

Country Weekly Papers.

They are important factors not in the intelligence, but in the business prosperity and general progress of the respective communities where they circulate. No matter how humble the newspaper of a town or village may be, it is always worth more than its worth to its business community. It constitutes a bond of union and strengthens a community of interest that cannot be effected by the city papers. There items of personal or local interest transpiring every week that are not of sufficient general interest to occupy the space of journals of more extended circulation and influence, but which, intelligently and impartially reported, add interest to its columns, while as a local advertising medium its value cannot be measured by the number of copies issued, the presumption being that it is read by the most intelligent and thrifty classes within its bailiwick. It is certainly to the interest of such a community to patronize their local papers liberally and thus move the publishers to still greater enterprise in catering to the common prosperity.—Steelton (Pa.) Advocate.

What are They Good For Anyhow?

The festive mosquito is much in evidence of late, too much in evidence for creature comfort. Her song is heard alike, Jersey swamps and Maryland highlands, and her voice is as moving as her stiletto. She is no respecter of persons and devotes herself as unreservedly to the poor and obscure, as to the rich and great.

What the "pesky critters" were made for is a question that has baffled even modern science, though science has made other discoveries in mosquitodom, among them the fact that the mosquito that does the mischief is of the feminine persuasion.

She's a gay one too, sings all the night long and quenches her thirst with the crimson blood of her victims, while Mr. Mosquito is never heard from; is quiet and reserved and abstemious in his tastes, drinks only cold water and like a model coming man, leaves her to follow her own sweet will, and she follows it, but her will and her bill are one.

Blood Poisoned

A Running Sore on the Ankle

Yields to the Blood-Purifying Powers of Hood's Sarsaparilla.

"I want to tell what Hood's Sarsaparilla has done for me. I am an old sea trader, some years since retired, 73 years of age. A little sore broke out on my ankle, and after some effort to cure it, grew considerably worse. Home doctors failed and different medicines and ointments did not give me any help. I endured untold suffering for four years, when I was persuaded by my friends to go to the hospital for treatment. I did so, but the surgeon in charge said they could do nothing for my case. The breaking out spread over my limb, ulcerating the flesh almost to the bone.

Mr. John Hurley, Fairmount, Md.

I Was Almost Past Walking

and I could scarcely sleep on account of the severe pain. It was during the fifth year of my suffering that I decided to give Hood's Sarsaparilla a trial. I took two bottles and could see improvement. I continued with the medicine, and shortly the sores entirely healed, and

I am Now Perfectly Well.

I owe all to Hood's Sarsaparilla, the wonderful blood purifying medicine. If it had not been for Hood's Sarsaparilla I do not think I would now be alive. Today I am a well and hearty man for one of my age, and shall always speak highly of Hood's Sarsaparilla." JOHN HURLEY, Fairmount, Maryland. Remember, Hood's Cures.
