MR. CLEVELAND is apparently booked to stump the colleges, while Senator Hill "makes dates" with Southern Legislatures. In this characteristic way, their missionary work goes on.

JOHN Y. says,
"I do not smoke, nor chew, nor lie,
Nor steal, nor take my 'tea;'
I am simply a Dimmocrat
And that's enough for me."

THE *Democrat* glories in Gibson and Gorman, the *Star* twinkles brightly for Turner and Grover. The *Ledger* stands off with an eye squinted tightly and saves his trump card 'till the doubts are all over—then he'll scoop the pot.

IF the legislature tinkers with the present local option law by re-submitting it to the popular vote, the prohibitionists will have themselves only to thank in case the provisions of the law as now in force become extinct.

THE city of Chicago has a greater mortgage indebtedness on its buildings and town lots than there is on all the farms of Kansas. To be exact, the debt in Chicago is 16,000,000 in excess of that of Kansas. It exceeds that of Iowa by $41,000,000.

THE McKinley tariff reduced the duty on binding twine until it was merely nominal and could not possibly add anything to the retail price. Springer's free binding twine bill is eighteen months behind the times. That bird's nest belongs to last year and there are no eggs in it.

THE success of the Republicans in New York State has everywhere been unprecedented, and notable features of the elections are especially gratifying as showing the determination of the Republicans to regain control of the State by hard work and united endeavor, and to rebuke the Democrats wherever they carried out their foul and desperate thieving last fall.

THE proposition to put binding twine on the free list is too barefaced a fraud for even such a free trade organ as the New York *Times*. It points out that the McKinley bill practically cheapened binding twine as far as it is possible to do so by lowering the tariff, and that if the light duty now remaining should be repealed it could not make any difference in the retail price of the article to the farmer.

THERE has never been any such thing as a "billion dollar Congress." Democratic falsehood is the only ground on which that charge can rest. But it can be demonstrated with mathematical accuracy that there is a five cent Democratic House now in session—one that while running at an expense of over $7,000 a day puts in such costly time debating propositions to reduce the appropriation for soap and saddle blankets for the cadets at West Point.

THE municipal elections held in New York State this week—like the others a couple of weeks ago, send throughout the country most gratifying Republican results. In the county elections for Supervisors, the result is the same. Counties and towns which have been under Democratic control for years have turned completely around and made the Republican cause triumphant.

Hill and Hillism will have no place in New York after the fall elections of 1892.

DR. CHANCELLOR, in a report before the Senate Finance Committee, relative to the erection of a new hospital for the insane, said: The Eastern Shore is the proper place for the building, as the counties here possess many advantages, namely, cheap land, fine climate and cheapness of food and other necessaries of life.—The building he thought, should be located where access could be had both by railroad and water, and where industries could be introduced for the occupation of the patient.

Talbot can answer the several requirements.

HON. BARNES COMPTON in a political speech at Port Tobacco, Charles County, last fall accused Mr. Reed, the late Speaker of the House, of making a palpably wrong and illegal ruling, and for which characterized him with much force as being a "tyrant," "zar," etc., and then shouted that he (Compton) proposed to tell him of this outrage to his face in the next House. This sort of stuff was used to enlighten(?) the voters by every Democratic speaker and Democratic paper in the country, at that time. But now the Supreme Court of the United States hands down the unanimous opinion that Mr. Reed was right!

If Mr. Compton will kindly notify his Maryland friends, as well as his Port Tobacco audience, the day on which he proposes to tell Mr. Reed "to his face" of his "illegal outrage," it is quite probable the galleries will be unusually filled on that occasion.

STATISTICS just made public show that in a single day forty-seven banks in New York city loaned over $297,000,000 on city real estate and other securities. In Chicago in one day twenty-one banks loaned $87,000,000. Nine banks in St. Louis loaned in one day $27,000,000. These figures show what great borrowers the merchants and manufacturers living in cities are and they prove also that they are doing a big business. Otherwise they could have no use for these large sums and would not borrow them. A vast amount of business is done by men who, lacking sufficient means of their own, have to work with borrowed capital. Farmers also borrow, but not to the same extent as city people, and as a rule they use their credit to much greater advantage. Official reports show that over 80 per cent. of the farm mortgages which have been examined were incurred for the purchase of additional real estate and nearly all of the remaining 20 per cent. was to make improvements, buy live stock, or invest in some form.—The money was borrowed because the farmers believed they could make more out of it than they would have to pay in interest. The amount borrowed and spent for living expenses is insignificant.

"TOM" REED was a "tyrant." "Tom" Reed decided there was a quorum present when a great number of persons sat in the face of him and were ready to say, by virtue of their not answering to the roll-call they were paid to answer to, that they were not there; that nothing could be done unless they responded.—"Tom" Reed said "you are here gentlemen to be counted," and the Supreme Court has decided without a dissenting voice that they were there. It is a considerable fact in history that the highest court decides in the light of common sense as of common justice that a man who is elected to do something can not sit in his place and by a fiction prevent something's being done.

Ever the Same Story.

People (to Democratic Congress): "What are you going to do about silver coinage?"
Dem. Con.: "Reduce the tariff."
People: "What about pension legislation?"
Dem. Con.: "Reduce the tariff."
People: "What about the World's Fair appropriations?"
Dem. Con.: "Reduce the tariff."
People: "What about the Grant Monument?"
Dem. Con.: "Reduce the tariff."
People: "What about the Rivers and Harbors?"
Dem. Con.: "Reduce the tariff."
People: "What about the Navy and coast defenses?"
Dem. Con.: "Reduce the tariff."
People: "What about improving the Mississippi?"
Dem. Con.: "Reduce the tariff."
People: "Great Scott! What about the salvation of your immortal souls?"
Dem. Con.: "Reduce the tariff."—*Bulletin.*

WASHINGTON LETTER.

[FROM OUR REGULAR CORRESPONDENT]

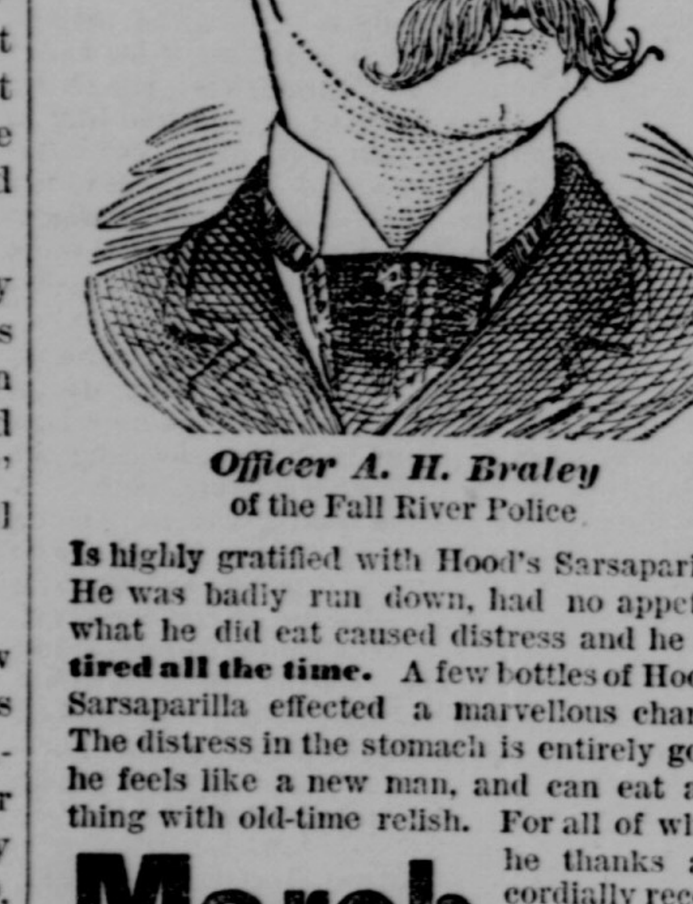

Washington, D. C. Feb. 29, '92.

Ex-Speaker Reed and other long-headed Representatives have advised their republican colleagues in the House not to extend a helping hand to either the democratic majority or minority in that body, but to let them fight out among themselves whether a free coinage bill shall be passed by the House. If this advice be taken, and it is believed that with a few exceptions it will be, the passage of the Bland free coinage bill which is to be called up under a resolution from the Committee on Rules just as soon as the House puts itself on record in favor of free trade by passing one of the tariff bills reported from the Committee on Ways and Means, is a certainty, although it will not be accomplished without a very bitter parliamentary fight. The latest scheme of Representative Harter, of Ohio, who has made himself the leader of the anti-silver democrats, to kill the effect of free coinage, is to offer as an amendment thereto a proviso that all pensions shall be paid in gold; that depositors in saving banks shall have the right to demand payment in gold; that all holders of life insurance policies shall be entitled to gold payments, and that every man, woman or child working for wages, or who receives a yearly salary of less than $1500 shall have the right to payment in gold.

Individually seven out of ten Senators and Representatives will agree as to the immediate and pressing necessity for a new building for the Government Printing Office, and that Senator Galienger, in his recent speech, did not exaggerate the danger to the health and lives of the nearly three thousand men and women who work in the rickety old building at present occupied by that office; they will acknowledge that they share the shame felt by Senator Gallinger when he went through the magnificent buildings erected in our large cities for the use of the big daily newspapers and contrasted them, in his mind, with the Government Printing Office building, and yet collectively, Congress does nothing towards erecting a new building. It will be much cheaper to erect a new and first-class building than it would be to pay damages for several hundred people killed or crippled by an accident likely to occur at any time in the building now in use, as Congress may some day learn.

Every day there is a different bill announced as the one that is to first be called up in the House by the Ways and Means committee. To-day it is the Springer free wool bill, and to-morrow is the day set for it to be called up. If the program is carried out there will be about three weeks devoted to tariff speeches before the bill is pressed to a vote.

The resolution offered in the House from the Committee on Public Buildings and Grounds declaring it to be "unwise and expedient to enter upon legislation looking to the construction of new public buildings, "because of the alleged act of money in the Treasury, is as arrant a bit of buncomb as was ever attempted in Congress, being a part of the democratic scheme to try to bamboozle the people by cutting down the appropriation at this session, in order to allow the democrats to pose as economists in the Presidential campaign. The Democratic members representing districts in need of public buildings are told to keep quiet until after the Presidential election when their buildings will be provided for; but it is difficult to keep them quiet and a row is pending over the resolution.

Officer A. H. Braley
of the Fall River Police

Is highly gratified with Hood's Sarsaparilla. He was badly run down, had no appetite, what he did eat caused distress and he felt **tired all the time.** A few bottles of Hood's Sarsaparilla effected a marvellous change. The distress in the stomach is entirely gone, he feels like a new man, and can eat anything with old-time relish. For all of which he thanks and cordially recommends Hood's Sarsaparilla. It

March

is very important that during the months of **March April May** the blood should be thoroughly purified and the system be given strength to withstand the debilitating effect of the changing season. For this purpose Hood's Sarsaparilla possesses peculiar merit and it is the **Best Spring Medicine.**

April

The following, just received, demonstrates its wonderful blood-purifying powers:

"C. I. Hood & Co., Lowell, Mass.:

"Gentlemen: I have had **salt rheum** for a number of years, and for the past year one of my legs, from the knee down, has been **broken out very badly.** I took blood medicine for a long time with no good results, and was at one time obliged to **walk with crutches.** I finally concluded to try Hood's

May

Sarsaparilla, and before I had taken one bottle the improvement was so marked that I continued until I had taken three bottles, and am now better than I have been in years. **The Inflammation** has all left my leg and it is entirely healed. I have had such benefit from

Hood's Sarsaparilla

that I concluded to write this voluntary statement." F. J. TEMPLE, Ridgeway, Mich.

HOOD'S PILLS act easily, promptly and efficiently on the liver and bowels. Best dinner pill.

Even the democrats admit that the President has by the unusually hard work he has done this winter earned the week's rest he is now taking with his family, in Virginia.

Secretary Noble preceeded his evidence before the Pension Office investigating committee with a statement of his having come as a willing witness, and not because of any authority he recognized in the committee to compel his attendance, and he closed by "nailing a thousand and one lies," with these words: "I want to say one word which is not in response to a question, and that is that I regard Gen. Raum as an efficient Commissioner of Pensions. I believe he is conducting the Pension Bureau in a proper and business like way."

Jerry Simpson appears to be souring on the democrats whom he has heretofore seemed inclined to favor. On Saturday, while the House was discussing Mr. Bower's amendment to the Indian appropriation bill authorizing the President to detail officers of the Army as Indian agents, which after being amended with a proviso that officers acting as Indian agents shall be under the orders of the Secretary of the Interior was passed, Mr. Simpson said: "I cannot see how the democrats can vote against this amendment, unless it be that they expect to control this political force in the future. But in view of the dissension in their ranks and their inability to agree on any economic policy it is not clear to me that they will have a chance to control it."

About American Tin Plate.

Elwood, Ind., Jan. 25.—Some time ago I vouched for the richness of the tin mines near Rapid City, South Dakota. I said they occupied a section of Harney's Peak, about twelve miles square, and that the scientists there assayed the ore and found it from 2.5 to 9.5 per cent. The article was printed 25 to 95 per cent., and a Mugwump journal in New York used up two columns in editorials showing that 25 and 95 per cent. tin ore was ridiculous, a self-evident fact that any average man could see. The fact that we had in the United States large sections of rock bearing ore richer in tin than the mines of Mallacca is what I said. Such fact is not doubted in Dakota.

Yesterday I visited a tin factory in Elwood, Ind., that would bring joy to any American. It is situated in the gas belt, at the junction of Senator Calvin Brice's Lake Erie and Western Railroad and President Roberts' Pan Handle. This tin plate plant is the first million dollar plant built up from the ground in this country by Welsh skill and money. Money to build this great factory is furnished from Wales and by Col. A. L. Conger, who has great plate-glass works here, and W. B. Leeds, and other Pennsylvania magnates. The McKinley bill made this factory.

I rode over and inspected the building yesterday with Superintendent E. Stanford, of the Jersey Tin Plate Company of Britton Ferry, Wales.—Mr. Stanford has been making bright tin for twenty-five years in Wales.—After showing me through three mammoth brick buildings covering several acres, I asked him if he could make the best bright tin in America as well as in Wales.

"Certainly," he said. "I have made it for twenty-five years in Wales, and we can make it more profitably here, with the tariff as it is, than in Wales. That is what brought me here. We shall turn out 2,500 boxes of American tin plate a day by the 1st of May."

"Is bright tin being made in other places in the United States?" I asked. "I don't mean terne plate, but bright tin."

"Yes. The Demler Tin Plate Company of Demler, Pa., is making 1,000 boxes a week; the Britton Tin Plate Works in Cleveland are turning out 1,000 boxes a week; the works at Apollo, Ind., are turning out 800 boxes a week; Anderson, Ind., is making 500 boxes a week; Neidringhaus of St. Louis is turning out 1,000 boxes a week and Somers of Brooklyn, N. Y., is turning out large quantities, I don't know how much."

"Now, you know this, Mr. Stanford," I said, eyeing the Welshman steadily. "You know that these quantities of bright tin are being made in this country. You know the New York *Times* denies it."

"Yes, sir; I know it. And why not? Until American tin ore can be gotten out of the rocks in sufficient quantities we can do just what I did in Wales—use block tin from the Straits of Malacca. That comes free of duty. The McKinley bill will bring many tin factories to this country in time. With natural gas here as fuel, we expect to make more money than in Wales."

"How about your iron?"

"We shall roll that from bar iron in these Elwood mines."

Elwood had about 1,600 people two years ago. To-day, with her plate glass factories, natural gas, and tin factory, she has 5,000 people.—*Eli Perkins.*

MILLS ON HILL.

The Salisbury *Advertiser*, ex-Gov. Jackson's mouth-piece, publishes the following article from that Mugwump organ, the New York *Evening Post.*—This is savory to wide-awake thinkers in the Republican ranks but no doubt a nauseous dose to Gorman Democrats.

"At the reception of the Reform Club at New York, last Friday night Roger Q. Mills, member of Congress from Texas, was the guest. There was a large gathering in the club house, and Mr. Mills was introduced by E. Ellery Anderson, President of the Club. In response to the greeting, Mr. Mills, on the subject of tariff reform, spoke in part as follows:

"Perhaps there has been no time for a number of years when it was more necessary for us to work—work steadily, zealously and persistently—than at the present time. The cause which we all have so much at heart, from some reason not necessary for me to mention, has recieved a check. The minds of many of our people are wavering. Our columns that were marching, as it were, to victory, seem to have halted somewhere. They seem to be staggering, and a great body of the army of tariff-reformers are anxiously inquiring, What is the matter? Why are we in this condition? Some of our leaders say, in order to try to reassure the confidence of the people, that we are not going to take any step backward.

To take no step backward may be to stand still. To stand still is to stagnate, and to stagnate is to die.—Motion is the law of life. We must either advance or retreat. If we retreat, our troops become demoralized, our army is lost, and the enemy captures us bag and baggage. We must advance.

Another distinguished leader of our party, D. B. Hill, says that we must retreat—go back to the tariff of 1883 and accept that as the final settlement of all that we desire. He forgets that the tariff act of 1883 received almost the solid condemnation of every Democratic voter in the House of Representatives and the Senate when it was passed. He forgets that since 1883 a Democratic House, under the leadership of William R. Morrison, made two bills to repeal that Tariff Act and substitute a better in its stead. He forgets that for the long years that have intervened the Democratic party have denounced that act and branded it as a counterfeit to the people of the United States. He forgets that the Democratic President, and the only one that we have had for thirty years, arranged that Tariff Bill before the bar of Congress and the country.

He forgets that a Democratic House of Representatives passed a bill to modify that and make it a better bill than it was, and that a Democratic National Convention endorsed that measure and that a majority of the people of the United States at the polls have condemned the bill. The man who says that we have got to accept the high protective Republican tariff of 1883 as a Democratic measure has lingered too long in the rear, among the camp followers, deserters and sutlers."

Extracted From Exchanges.

THE use of postal cards for the purpose of informing the public of the receipt of new goods, offerings of bargains, etc., is a practice whose economy and utility do not appear prominent. True there is no plan of advertising which gives such handsome returns as printer's ink, but how, when and where you apply the ink are points to be considered by the merchant. A newspaper advertisement well worded and properly placed, will reach a far greater number than these individual postals. The custom looks to limiting rather than enlarging the range of business.—*Mer. and Mfg. Journal.*

JOHN W. HANDY, colored, near Wye Mills, killed four otters last Thursday. He sold their skins for $27. He had the meat of one cooked, but says "no otter meat for him."—*Queenstown News.*

THE name of the chairman of the Republican State Central Committee of Louisiana is A. Hero. He has to be to occupy his position in a section of the country where Republicanism means ostracism.—*Akron Beacon.*

THE sapient Springfield *Republican* arises to remark: "It is hard to hold the South 'solid,' that is, to keep the Democratic majority in all the Southern States from disintegrating." Yes, indeed. The collapse of the Louisiana lottery shows that Democratic solidity is on the wane.—*Meriden Republican.*

THE Meriden *Republican* observes that: "It is an instructive circumstance that in the present Springer free-wool bill the duty on the plush and cloaks of the rich is reduced 20 per cent., while the rate on the blankets and hats of the poor is lowered only 5 per cent."

IF Mr. Cleveland's managers continue through the year to play as bad policy as they have thus far played, that distinguished citizen will certainly never be President again. They have by inaction or by pig headedness allowed Mr. Hill to rob them of the New York delegation, contenting themselves with a silly protest and a call for a bolting convention to be held in May, and now comes Frank Hurd, the notorious free trader of Ohio, who says he wants to go to the Chicago convention as a delegate from the Buckeye State for the sole purpose of placing Mr. Cleveland in nomination.—*Centreville Observer.*

WHEN you are moaning over a little mistake you can get a good deal of comfort out of the thought that it would have been a good deal worse if the mistake had been a big one.—*Smyrna Times.*

THE Junior of the Greensborough *Free Press* in taking a match from his vest pocket drew out a five dollar greenback which fell into the fire and ended in smoke. Government five dollars ahead.—*Union.*

How did he ever get hold of so much money at once? This story is fishy.

THE agitation of the silver issue in Congress can bear no good fruit for the Democratic party in the approaching national contest. It must naturally be a sectional issue, and a position on it which would strengthen the party in one section would be suicidal in another. The party will make a great mistake if it falters for a moment on the great issue of tariff reform.—*Annapolis Gazette.*

THE Middletown electric light plant is not a paying investment as it is now operated and the company has made an assignment. The directors have appointed M. B. Burris of this place, receiver for the Company, and its affairs are now in his hands for settlement.—*Clayton Call.*

IT is said that one of the prominent citizens of Lewes told a colored man if he would not get drunk on a certain day he would give him a dollar. The next day the colored man was seen with a silver dollar, and when asked where he got it, replied, "Mr.—— give it to me for not gettin' drunk yesterday, but you can bet yer bottom dollar dis nigger gits thar to day."—*Pilot.*

Democrat: "The tariff is a tax."
Republican: "Of course it is."
Democrat (surprised): "I thought you fellows say it isn't."
Republican: "Oh, no; we don't."
Democrat: "But I say you do.—You are always arguing that it is no tax."
Republican: "That's where you are off. It is a tax, but a tax on the efforts of every man in your party to show wherein it is not the salvation of American industries, and you have never been able to pay the tax yet.—See?"—*National Bulletin.*

SENATOR GORMAN has been formally put in nomination for the presidency by the Easton *Democrat*, the newspaper spokesman for Senator Gibson.—*Annapolis Capital.*

A PATRIOTIC WORK.

Every person who is opposed to Free Trade Slavery and favors American Industrial Independence secured through the policy of Protection, should read the documents published by the American Protective Tariff League. As a patriotic citizen it is your duty to place these documents in the hands of your friends. They are interesting and instructive, and embrace discussions of all phases of the Tariff question. The League publishes over 50 different documents, comprising nearly 600 pages of plainly printed, carefully edited and reliable information. Among the authors of these documents are, Hon. James G. Blaine; Wm. McKinley, Jr., Governor of Ohio; Senator S. M. Cullom, of Illinois; Senator Joseph N. Dolph, of Oregon; Senator A. S. Paddock, of Nebraska; Senator Frye, of Maine; Senator Casey, of North Dakota; Senator Justin S. Morrill, of Vermont; Senator Nelson W. Aldrich, of Rhode Island; Hon. Thomas H. Dudley, of New Jersey; Hon. Robert P. Porter, of Washington; Prof. J. R. Dodge, of the Agricultural Department at Washington; Commodore W. H. T. Hughes; Hon. E. A. Hartshorn, of New York; Congressman Dolliver, of Iowa; Hon. B. F. Jones; David Hall Rice, of Boston; Ex-Congressman Perkins, of Kansas; Dr. E. P. Miller, of New York; Hon. Geo. Draper, of Mass.; Hon. C. L. Edwards, of Texas; Judge Wm. Lawrence, of Ohio; Hon. D. G. Harriman, of New York; Hon. Geo. S. Boutwell, of Mass.; Hon. E. H. Ammidown, of New York; Enoch Ensley, of Tennessee.

This complete set of documents will be sent to any address, post paid, for Fifty (50) Cents. Address Wilbur F. Wakeman, Sec'y, No. 23 West Twenty-Third Street, New York.

WONDERFUL

The cures which are being effected by Drs. Starkey & Palen, 1529 Arch St., Philadelphia, Pa., in Consumption, Catarrh, Neuralgia, Bronchitis, Rheumatism, and all chronic diseases, by their Compound Oxygen Treatment, are indeed marvelous. ⁂

If you are a sufferer from any disease which your physician has failed to cure, write for information about this treatment, and their book of 200 pages, giving a history of Compound Oxygen, its nature and effects, with numerous testimonials from patients to whom you may refer for still further information, will be promptly sent, without charge.

⁂

This book, aside from its great merit as a medical work, giving, as it does, the result of years of study and experience, you will find a very interesting one.

Drs. STARKEY & PALEN,
1529 Arch St., Philadelphia, Pa.
120 Sutter St., San Francisco, Cal.
Please mention this paper. 6febly

NOTICE.

OFFICE OF THE COUNTY COMMISSIONERS OF TALBOT COUNTY.
EASTON, MD., Dec 22, 1881

NOTICE IS HEREBY GIVEN, That the County Commissioners for Talbot county will sit to hear applications for TRANSFERS AND ABATEMENTS on the assessment books, EVERY FRIDAY, beginning with Friday, January 1'th, and ending with Friday, March 11th.

These meetings of the Board on the days above named are for the sole purpose of hearing applications for Transfers and Abatements and all persons having business of this character are requested to bring it forward on the special Friday meetings and not on the regular Tuesday meetings.
1-2-82 WM. REDDIE, Clerk.

Age. Experience. Ability.

The Mutual Life Insurance Co.
OF NEW YORK.

ORGANIZED 1843.

SETTLED MORE CLAIMS THAN ANY OTHER CO.

OVER $159,000,000 SECURELY INVESTED FOR POLICY HOLDERS.

Oldest Policy in America.

Mr. Hezron A Johnson died at Newport, R. I., on Saturday, September 5, 1891, in the seventyfourth year of his age.

Mr. Johnson was the holder of the oldest policy in the Mutual Life Insurance Company of New York, having taken out Policy No. 3 for $5,000 the day the Company began business in 1843.

He very naturally took a great interest and pride in the Mutual Life, and watched its growth from nothing to the largest Insurance Company in the world. It did not have one dollar of assets when he signed his application, yet he lived to see a fund accumulated exceeding $147,000,000.

He outlived more than thirty six thousand policy holders in the Company. He paid more premium than any man in it, and contributed his share to the payment of every death claim that arose for forty nine years. His policy and the result of his insurance are matters, consequently, of rare interest to the policy-holder and all who are in any way interested in the subject of Life Insurance. He was

A PERSISTENT POLICY HOLDER,

and his example in maintaining his insurance after it became self sustaining many years ago has been of excellent effect.

Below is a statement of Mr. Johnson's investment.

Policy No 3.
Date, February 2, 1843.
Amount $5,000. Kind, Life
Annual Premium, $102

Original Insurance	$5,000
Additions of Profits,	9,686
Total of Claim Paid,	14,686
Total Premiums Paid	4,998
Amount of claims over all Premiums Paid,	$9,688

Thus it will be seen that all the premiums were returned with

4 PER CT. COMPOUND INTEREST.

The Mutual Life being the oldest regular Life Insurance Company in America, and Mr. Johnson the oldest policy holder in it up to the time of his death, it is evident that he paid more single premiums upon one policy than any man insured in an American office, hence the payment of his policy enables one to ascertain the result of what many men fear—"living to pay so many premiums." They think they will lose something. The exceptional long period of premium payments in this case shows that this fear is without foundation when insured in the Mutual Life—For further information call on or addres

PERFUMERY.—All kinds of perfumery at the drug store of W. C. HUGHES.

FRUITS.—W. C. Hughes has a fine line of fruit of all kinds.

Push the Spring Goods.

The good times of '92 are here! good times and a brave outlook for our own great business.

In fashioning, making, quality—Wanamaker & Brown Spring Clothing is surpassingly good.

Three-fourths of the selling Good Clothing at fair prices lies in the manufacturing. It can't be done by a store that doesn't.

We manufacture on the same great scale as wholesalers; don't sell any of our clothing except to you who put it right on your back; and then have enough to do to sell it as low as we do and make it as good as we do.

We buy much cloth at the cloth-mill's doors.
We have it cut by our own cutters, under our eyes.
We have it made by our own careful workpeople.
Every needless expense of selling is cut off.
Our offer of Railroad Excursion Fare on top of all.

New Spring Specialties in Ten Dollar Overcoats.
New Spring Specialties in Twelve Dollar Overcoats.
Handsome—the fitting and tailoring great
Silk Lined—Fifteen and rising in price.
Spring Suits—New features and qualities, $10.
Better—$12, $15—the cloth much better.
The finest qualities fully represented.

Don't lose sight of it.—Our business is directly with the consumer. We cut the cost down by manufacturing. We sell at the lowest prices because we manufacture. It makes a difference of dollars to you.

Wanamaker & Brown,
Sixth and Market, Philadelphia.

For example, we pay Railroad Excursion Fare from Easton if you purchase $10 wothr.

NOW FOR CLOVER SEED.

FREE CRAYON PORTRAITS AND FRAMES

To all our Subscribers for 1892.

We, the publishers of "North American Homes," in order to increase the circulation of our journal throughout the United States and Canada, will spend this year over **one hundred thousand dollars** among our new subscribers in the form of an artistic Crayon Portrait and a handsome frame (as per cut below), to be made **free of charge** for every new subscriber to "**North American Homes.**" Our family journal is a monthly publication consisting of 16 pages, filled with the best literature of the day, by some of the best authors, and is worthy of the great expense we are doing for it. Eight years ago the *New York World* had only about 15,000 daily circulation; to-day it has over 200,000. This was obtained by judicious advertisement and a lavish expenditure of money. What the proprietor of the *N. Y. World* has accomplished we feel confident of doing ourselves. We have a large capital to draw upon, and the **handsome premium** we are giving you will certainly give us the largest circulation of any paper in the world. The money we are spending now among our subscribers will soon come back to us in increased circulation and advertisements. The Crayon Portrait we will have made for you will be executed by the largest association of artists in this city. Their work is among the finest made, and we **guarantee** you an artistic Portrait and a perfect likeness to the original. There is nothing more useful as well as ornamental than a handsome framed Crayon Portrait of yourself or any member of your family; therefore this is a chance in a lifetime to get one already framed and ready to hang in your parlor absolutely free of charge.

READ THE FOLLOWING GRAND 30 DAYS' OFFER:

Send us $1.50, price for one year subscription to "North American Homes," and send us also a photograph, tintype or daguerrotype of yourself or any member of your family, living or dead, and we will make you from same an artistic half **life size Crayon Portrait**, and put the Portrait in a good substantial **gilt or bronze frame of 2 inch moulding absolutely free of charge**; will also furnish you a genuine French glass, boxing and packing same **free of expense.** Cut this out and send it with your photograph at once, also your subscription, which you can remit by Draft, P. O. Money Order, Express Money Order, or Postal Note, made payable to

NORTH AMERICAN HOMES PUBLISHING CO.,
World Building, New York.

$50 SAVED
IN BUYING THE
"NEW YORK BICYCLE."

WE are making this Bicycle in the Demorest Sewing Machine Factory and are putting in the very best of sewing machine work into every part of it, while many other makers are only aiming to put in a high grade of carriage work. The test of time will prove which will stand the wear and give the satisfaction, but mechanics know that our principle is the proper one and the only safe one.

Having made a thorough test of all the high grade Safety wheels made in 1891 we have given to the public as a result of those tests a "Safety" that is not only adapted to smooth pavements, but that will absolutely stand the wear and tear of the roughest country roads, and over which the rider can go, owing to our Perfect Spring, with as much ease and comfort as other Wheels give upon smooth floors. We have made the "New York Bicycle" to sell upon its merits, and we challenge comparison with any other Wheel made, both as to workmanship, strength, durability, ease of riding, etc.

IT IS THE HIGHEST GRADE WHEEL MADE.
BALL BEARINGS USED IN EVERY WORKING PART.

No Castings are used in it, but every piece where strength is required is made of Drop Forgings. Every Nut and Screw is hardened to prevent being marred by Wrench or Screw Driver.

⁂

SPECIAL FEATURES.—The 'New York Bicycle' has adjustable Springs, back and front. The Wheel cannot possibly flinch when going over a rail or other projections obliquely. We use none but the best Weldless Steel Tube. The "New York Bicycle" is the only one made which can be POSITIVELY adjusted to any weight of person.

Our Gent's Road Wheel is made with Thirty Inch Wheels. Every joint is hardened and ground to a perfect fit. No possibility for rattle in joints or springs. The best wrought iron chain ever made; strong and light.

DUST PROOF BEARINGS—Every Spring guaranteed not to break. As it moves but one-quarter as much as the wheel raises we can safely warrant it. This is one of the strongest points in favor of our Wheel.

No pains or expense have been spared to make this Wheel the very best ever put on the market. It is (as before stated) sold on its merits.

Order a sample and you will surely endorse every claim we make. Our Spring is so perfect that no cushion or pneumatic tire is needed, but we furnish them when ordered at usual extra prices.

Price of Bicycle, with solid tire, $125.
With Cushion Tire, $130. With Pneumatic Tire, $150.

Address all orders to THE GAZETTE, Easton, Md.
