Dear Sir:

I desire to acknowledge receipt of check No. 54481 for $7588 in full settlement of policy 30622 for $5000 on life of my late husband R P Gillingham. The additions on this policy amount to more than all premiums paid and also more than 50 per cent. in excess of the original policy. The settlement is eminently satisfactory.

Respectfully,
MRS. EDITH D. GILLINGHAM.

John W. Jump Deceased.—As announced in last issue. Mr. Jump continued to sink until he died on Saturday morning Aug. 6. The funeral, a very large one, was on Monday afternoon from Cavlary M. P. Church which Mr. Jump was a member. Rev. J. M. Sheridan officiated. The pall bearers were: Honorary—N. E. Nicols, R. H. T. Councell, J. B. Bennett, F. G Wright Thos. F. Cox, John T, Rathell; active—J. R. Jarrell, C. H. Leonard, J. J. Wright, M. P. Flowers, Wm. G. Ball, M, B. Nichols. Mr. Jump selected the active pall bearers himself, With the exception of Mr. Flowers they were all young men who had been clerks in the store.

Mr. Jump was one of those few citizens to be found in any community whose long life was, what the world knows as a successful one. If he had enemies they were not out spoken, he had friends in whom he cherished the fondest ties. He was mild in manner, but decided in his convictions of right. When he once fe t a thing right, no force could wrench from him his purpose to follow it. An ardent Prohibitionist and lover of all good. Mr. Jump was one of Easton's oldest citizens, a retired merchant, active in mind, infirm in body and leaves behind him much that will respond to the thought "well done good and faithful servant."

How They Take It.—The following interesting tale of statistics is believed to possess a true scientific accuracy. It appears to be the record of a drummer, and may be considered authentic. He gave it the title which we retained, meaning, apparently, what each girl said:

New York girl: Thanks, awfully, don't you know.
Providence girl: Oh, mamma!
Philadelphia girl: Are you sure nobody saw us?
Baltimore girl: Dear George!

The Mutual Life in Talbot County.—During the last sixty days two of the policy holders of this great corporation have passed away, respectively—

Robert P. Gillingham Esq. late a prominent business man of Philadelphia holding a life contract for $5.000, and D. N. Carrington late of New York also holding a similar contract for $5,000. These gentlemen for a number of years have both resided in this county and were widely and favorably known. The first (Mr. Gillingham) allowed all his dividends to accumulate and be added to his policy, and on Thursday last Mr. W. M. Coney, special agent for the Mutual Life handed to Mrs. Gillingham, as executrix, the Company's check for $7,588, being a return of over 300 per cent on Mr. Gillingham's investment and an addition of more than 50 per cent to face of the policy. Mr. Carrington for a number of years has been drawing his dividends in cash thus securing an annuity from his investments, but allowed a partial dividend accumulation. His policy settles for $6 80, an addition of $1,800, or 36 per ct. to original amount.

Among the policy holders of prominence in this county of the Mutual Life are:

Col. Thomas Hughlett, Preston B. Spring, Edward Spring, Leonard Swartz, W. P. Chaffinch, H. Avery Tuthill, Edward Shannahan, Alfred Garey, W. J. H. Wooters, Wilson M. Tylor, John Y. Todd, C. H. Rose, H. Clay Dodson, James M. Covey, G. K. Benson John I. Hambleton.

The accumulated assets of this Company to Jan. 1st 1892 were 160 millions of dollars, all of which belong to its policy holders and are a source of profit to them as instanced in these settlements.

Sixty Million Bushels of Wheat—A Bushel for Every Inhabitant of the United States. The Kansas Crop of '92.

Never in the history of Kansas has that state had such bountiful crops as this year. The farmers cannot get enough hands to harvest the great crop, and the Santa Fe Railroad has made special rates from Kansas City and other Missouri River towns, to induce harvest hands to go into the state. The wheat crop of the state will be from sixty to sixty-five million bushels, and the quality is high. The grass crop is made and is a very large one; the early potatoes, rye, barley and oat crops are made, and are all large. The weather has been propitious for corn, and it is the cleanest, best looking corn to be found in the country to-day. Cheap rates will be made from Chicago, St. Louis and all points on the Santa Fe east of the Missouri River, to all Kansas points, on August 30 and September 27, and these excursions will give a chance for the eastern farmers to see what the great Sunflower State can do. A good map of Kansas will be mailed free upon application to Jno. J. Byrne, 723 Monadnock Block, Chicago Ill., together with reliable statistics and information about Kansas lands.

Special Notice.—The B. & E. S. R. R. Co will have on sale special low rate round trip tickets from all points on its line to "Ennalls and Hebron" during the continuance of the Camp Meeting near those points, August 5th to 15th. A. J. BENJAMIN, G. P. A.

Summer Smiles.

The maiden is in tears to-day,
And great is her distress;
She went too near the wavelet's spray
And wet her bathing dress.

In suummer 'twill be found the wisest plan
To keep away from alcoholic drinks.
He is not always the most cheerful man
Who at the druggist slyly smiles and winks.

Back from the country to the town,
Back from the farm where a week we spent
With our faces tanned to a deep rich brown
And our pockets drained to their last red cent.

Discontented Man.

When fiercely beat the solar rays,
And moisture flows from all our pores,
We wish we had winter days,
When chilling winds howled round our doors.

Then comes the winter's days austere,
And snow drifts round our dwelling lie,
And frost severe nip nose and ear,
And then we wish it were July.

Thus man through his existence frets;
Dame Nature ever is his debtor.
The thing he wants he never gets,
There's something else would suit him better.

W. C. T. U.

Women's Christian Temperance Union meets every Sabbath afternoon at 3.30 o'clock in its hall (second floor) corner of Washington and Dover streets; entrance on Dover St. An invitation is extended to all who wish to attend these meetings.

An account of a recent trip to several of the Eastern Shore Counties may serve to answer in part at least, the oft repeated question, what work is being done by the W. C. T. U. of Maryland? Of course this letter will by no means answer the question for the State Organization, but may bring to those interested some tidings of the work being done by the White Ribboners in certain portions of the State. On the evening of Wednesday, June 22, I went to St. Michaels, where had been arranged my first work in Talbot County. The pastor of the M. P. Church and his wife, who is the live President of the Union, made me very welcome, and contributed much to the success of the evening meeting.

This pretty town has enterprise enough to publish two papers, both of which are giving space that the White Ribboners are wisely filling with temperance reading. Original articles for these columns, a loyal legion and other work keep the members of this Union thinking and working for the end at which we all aim, the complete prohibition of the liquor traffic. A short ride by the B. & E. S. R. R. brought me next morning to Royal Oak. My home here was in the M. E. parsonage, whose inmates, left somewhat lonely, since the changes of life have taken all their children to distant homes, gave me almost a daughter's welcome. The meeting at this place was especially interesting because of the presence and exercises of the loyal legion. The Union may well rejoice over its juvenile work. Saturday afternoon it was my privilege to meet the workers and some of the members of the loyal legion in Easton. There is a strong Union here, and among other good works, they hold on every Sunday afternoon a Gospel Temperance Meeting in their own headquarters. Our public meeting here was held in the M. E. Church South, on Sunday afternoon, and we were encouraged by the interest manifested in the work by the presence of three resident pastors, and a very good audience, though the afternoon was intensely warm. Tuesday evening found me in Oxford, a pretty, shady, homelike town, where no liquor is sold, and where perhaps for that reason the people are not fully awake to the importance of the work as we could wish. But they have a loyal legion that will doubtless develope earnest workers. The next point and the last one visited in Talbot County was Cordova. The Union there, less than a year old, has earnest and aggressive workers and promises good work along several lines. The trip through this county has been so thoroughly and systematically arranged by the County President, Mrs. A. T. Bush, as to merit my heart-felt thanks. Caroline County was next on our programme, and thither I went. Mrs. Chandler, the wife of the M. E. Pastor at Marydel, was at the station to welcome to the town and to her home the W. C. T. U. organizer. She was chosen President of the Union organized there that evening, and with God's blessing and the co-operation of those about her, will accomplish much. Templeville, just across the line in Queen Anne's opened a door to us and so we stepped over the border-line and spent the next day there, organizing a very promising Union with more than the average number of honorary members. On Sunday our meeting was held in the M. E. Church at Greensborough at the hour for morning services, the pastor helping us in every possible way. Here too a union was organized that we think will do good work. July 4th was spent very pleasantly with the White Ribboners of Ridgely, some of whom are well known to your readers, A meeting held there in the evening was well attended, and gained four active members for the Union, The next day, a drive of twenty-two miles and I was in Federalsburg. Mrs. Messenger, the acting President of Caroline County lives here, and took part in the exercises of the evening meeting, where a few names were added to the roll of membership. Sharptown, in Wicomico Co., was the next point to be visited, and by means of the Cambridge and Seaford R. R, and with the steamer Choptank, I reached the town in time to see a number before the evening meeting. A good audience including the two pastors, seemed much interested in our work. It was a real pleasure to meet with this Union and to hear of the faithful work already done by them. But other work compelled a short stay, and by half-past seven the next morning I was on the way to Mt. Vernon, in Somerset County. Here I had the pleasure of organizing a strong Union, with Mrs. Prouse, late of of Hopewell, as its President. I spent a part of the next day in the home of kind and hospitable friends, greatly interested in the work, and in the afternoon noon took the boat for home, a very tired but a very grateful woman. Yes, deeply grateful to be permitted to help, even a very little in the Master's vineyard.

Using Dynamite.—Messrs. Chas. A. Busteed and John M. Perry, having a piece of land to clear up on the farm, purchased by them last year from the trustees of Mr. Edward B. Emory, have employed a gentleman to blow out the stumps with dynamite. The work is now in progress, and it is said is being done very satisfactory. The stumps not only lifted from their position, but are so split up as to be easily handled and carted away.—*Observer.*

Consumption Cured.

An old physician, retired from practice, having had placed in his hands by an East India Missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma and all throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by his motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this recipe, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper. W. A. NOYES, 820 *Powers' Block, Rochester, N. Y.* 25julty

Too much enterprise sometimes defeats itself. The craze for advertising by means of a big set scene in a show window doubtless has its uses, but it would shock the great merchants who pay the bills if they could see exactly how the scheme sometimes worked. Such a window had been decked out the other day—whether in the capital or the metropolis makes no difference—and before it were gathered representatives, both small and great, of the public who were to be captured by the free show. What did they see? Not one detail of the elaborate display prepared for their benefit, but instead four huge sandwich boards advertising the similar wares of a rival.

It was not a deep laid scheme on the part of the rival either. He had simply sent out a brigade of such irresponsible citizens as are willing to be employed as peripatetic business announcements, with instructions to keep where the largest crowd was to be found. Attracted both by the throng and by the scene in the window they had placed themselves in the front rank of spectators, and by leaning their boards in a row against the glass, had transformed the costly advertisement of the wealthier house into a free boom for the cheap one.—Kate Field's Washington.

There is no doubt that inventors do not, as a rule, make good lovers. The man whose brain is full of some great mechanical project, whose heart and soul are centered on the achievement of some wonder of wheels or pulleys, or fire or steam, has not much room for the softer feelings which supply so much of the poetry of common humanity. His love is given to his invention. Of it he dreams by day as well as by night; for it he makes his sacrifices, undergoes privations and waits and labors with such patient endurance.

He will often woo and marry, after the manner of men, but he will never become the "moonstruck," lovelorn individual which more purposeless men are capable of becoming. He will be a businesslike rather than an ardent lover, and will make a dutiful rather than an affectionate husband; the romance of his life is his life's work, his invention, and as that goes well or ill so will his heart be light or heavy.

WONDERFUL

The cures which are being effected by Drs. Starkey & Palen, 1529 Arch St., Philadelphia, Pa., in Consumption, Catarrh, Neuralgia, Bronchitis, Rheumatism, and all chronic diseases, by their Compound Oxygen Treatment, are indeed marvelous.

⁂

If you are a sufferer from any disease which your physician has failed to cure, write for information about this treatment, and their book of 200 pages, giving a history of Compound Oxygen, its nature and effects, with numerous testimonials from patients, to whom you may refer for still further information, will be promptly sent, without charge.

⁂

This book, aside from its great merit as a medical work, giving, as it does, the result of years of study and experience, you will find a very interesting one.

BRUSHES.—Hair Brushes, Nail Brushes, Tooth Brushes, and any other kind you may need. W. C. HUGHES.

$50 SAVED
IN BUYING THE
"NEW YORK BICYCLE."

WE are making this Bicycle in the Demorest Sewing Machine Factory and are putting in the very best of sewing machine work into every part of it, while many other makers are only aiming to put in a high grade of carriage work. The test of time will prove which will stand the wear and give the satisfaction, but mechanics know that our principle is the proper one and the only safe one.

Having made a thorough test of all the high grade Safety wheels made in 1891 we have given to the public as a result of those tests a "Safety" that is not only adapted to smooth pavements, but that will absolutely stand the wear and tear of the roughest country roads, and over which the rider can go, owing to our Perfect Spring, with as much ease and comfort as other Wheels give upon smooth floors. We have made the "New York Bicycle" to sell upon its merits, and we challenge comparison with any other Wheel made, both as to workmanship, strength, durability, ease of riding, etc.

IT IS THE HIGHEST GRADE WHEEL MADE.
BALL BEARINGS USED IN EVERY WORKING PART.

No Castings are used in it, but every piece where strength is required is made of Drop Forgings. Every Nut and Screw is hardened to prevent being marred by Wrench or Screw Driver.

⁂

SPECIAL FEATURES.—The 'New York Bicycle' has adjustable Springs, back and front. The Wheel cannot possibly flinch when going over a rail or other projections obliquely. We use none but the best Weldless Steel Tube. The "New York Bicycle" is the only one made which can be POSITIVELY adjusted to any weight of person.

Our Gent's Road Wheel is made with Thirty Inch Wheels. Every joint is hardened and ground to a perfect fit. No possibility for rattle in joints or springs. The best wrought iron chain ever made; strong and light.

DUST PROOF BEARINGS—Every Spring guaranteed not to break. As it moves but one-quarter as much as the wheel raises we can safely warrant it. This is one of the strongest points in favor of our Wheel.

No pains or expense have been spared to make this Wheel the very best ever put on the market. It is (as before stated) sold on its merits.

Order a sample and you will surely endorse every claim we make. Our Spring is so perfect that no cushion or pneumatic tire is needed, but we furnish them when ordered at usual extra prices.

Price of Bicycle, with solid tire, $125.
With Cushion Tire, $130. With Pneumatic Tire, $150.

HE Missed his Opportunity! DON'T Miss Yours, Reader. The majority neglect their opportunities, and from that cause live in poverty and die in obscurity! Harrowing despair is the lot of many, as they look back on lost, forever lost, opportunity. Life is passing! Reach out. Be up and doing. Improve your opportunity, and secure prosperity, prominence, peace. It was said by a philosopher, that "the Goddess of Fortune offers a golden opportunity to each person at some period of life; embrace the chance, and she pours out her riches; fail to do so and she departs, *never* to return." How shall you find the GOLDEN opportunity? Investigate every chance that appears worthy, and of fair promise; that is what all successful men do. Here is an opportunity, such as is not often within the reach of laboring people. Improved, it will give, at least, a grand start in life. The GOLDEN opportunity for many is here. Money to be made rapidly and honorably by any industrious person of either sex. All ages. You can do the work and live at home, wherever you are. Even beginners are easily earning from $5 to $10 per day. You can do as well if you will work, not too hard, but industriously; and you can increase your income as you go on. You can give spare time only, or all your time to the work. Easy to learn. Capital not required. We start you. All is comparatively new and really wonderful. We instruct and show you how, free. Failure unknown among our workers. No room to explain here. Write and learn all free, by return mail. Unwise to delay. Address at once, H. Hallett & Co., Box 880, Portland, Maine.
