SATURDAY, - - SEPTEMBER 3, 1892.

FOR PRESIDENT
BENJAMIN HARRISON,
OF INDIANA.

FOR VICE-PRESIDENT
WHITELAW REID,
OF NEW YORK.

FOR CONGRESS.
GEORGE M. RUSSUM,
OF CAROLINE COUNTY.

GRANDFATHER AND GRANDSON.

CHOLERA reached New York harbor Wednesday.

WHEN Senator Carlisle and Labor Commissioner Peck got down to a basis of facts, both had to concede that the new tariff raised wages, increased production, and was for the general good in every way.

ANOTHER man has been acquitted of the charge of stealing electricity by tapping the wire of an electric light company in St. Louis and getting his illumination free. The judge would not concede that the offense was petit larceny, and the grand jury would not allow that it was fraud. It looks as if the progress the world has been making in electricity demanded a special legal code.

"THE present seems to be an era of low prices, says the Chicago *Journal of Commerce*. "Manufactured articles of all kinds are selling at figures which a few years ago were far below actual cost of production. What has brought about this state of affairs? The reason must be found in the beneficent working of our tariff system, which has encouraged the building of factories and the use of home-made goods." It would appear that the occupation of the calamityite is no longer remunerative.

SAYS the New Orleans *Times Democrat*, a democratic Free-Trade paper: "The attack made on sugar, and particularly on the sugar bounty, by some crank Democrats in Congress has met with a complete failure. The attack was a piece of pure demagogism. The bounty may be considered as safe this session from the attacks of all demagogues; and it is scarcely likely that we will have another Congress with so large a demagogic element in it as the present one." If the tariff "reformers" themselves should not know the worth of the Tariff "reform" Congress, who should?

THE time is almost here when the idea of a public school system without its kindergartens will seem as absurd as the idea of a postal system in which none of the mail carriers should be able to read. Our educational fabric has been built in large part, from the top downward; and some of the broadest and most necessary foundation stones are now being placed in position beneath it, in the general adoption of kindergarten and manual training work. That this is not in response to any theory, but in harmony with the views of broad-minded and public-spirited people everywhere is shown by the general interest.

THE labor agitation and riots in Tennessee is not really a war between capital and labor. It is the policy of that State, as of others, to compel convicts to work and so far as possible maintain themselves. This policy is right and unobjectionable for it is better that a convict should work and support himself. But this convict labor was driving certain miners out of employment, and to this they objected and at this they revolted.—While the State should have adjusted things in such a way to, at least, not interfere with the free laborers of the commonwealth, yet it was persuing a wise course in making its criminals work for their own maintainance.

IN the period of the greatest Grecian glory there was no profession more honorable, none more inviting, than the profession of teaching. To enter it men made the most careful preparations and greatest sacrifices. That nothing might divert their attention from the work to which they devoted their lives it was no uncommon thing for the teacher, before entering upon his profession, to give up all his property. This was in striking contrast to the modern vocation of training young ideas. Indeed teaching is now in many sections of our country, scarcely recognized as among the professions. It is apt to be more of a make-shift calling, a convenient stepping stone to something better. Is a young man fitting himself for a college course and obliged to depend upon his own efforts for the necessary funds? With a possible ability to repeat the multiplication table and tell that grammar is not "a description of the earth's surface," he hires himself out as a teacher. But times are improving and Maryland is taking rapid strides in lifting the profession to a rank among professions, and no county is more alive in this respect than Talbot.

Pennsylvania Railroad to the G. A. R. Encampment at Washington during September.

Undoubtedly the most interesting encampment of G. A. R. men ever held will convene at Washington during September. The interest manifested in the encampment has been national, and the Government and local authorities in the National City are making elaborate preparations for entertaining the old soldiers.

The Pennsylvania Railroad Company will sell excursion tickets from all stations on its lines to Washington, from September 12th to 20th, valid for return until October 10th, inclusive, at a rate of a single fare for the round trip. These tickets will be valid to stop off at Baltimore and Philadelphia in each direction within limit. A stop-over privilege will also be allowed at Harrisburg and other points south of Washington on foreign roads' issue tickets from the West.

The Pennsylvania Railroad Company has also issued one of the most comprenensive guides as yet compiled of the National Capital.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

For Sale By J. S. GRIFFITH, and Leading Grocers of Easton.

Protection and Invention.

Free-traders tell us that our wonderful industrial growth is due to our inventions and labor-saving machinery.

As usual, they put the cart before the horse.

It is our American system of protection that creates and develops industries, giving our masses work and wages, comforts and homes, education and ambition.

This stimulates inventive genius, and when new devices are planned and perfected there is use for them at once.

Thousands of pairs of boots and shoes are daily made in Massachusets by machinery, giving employment to thousands of workmen at good wages.

We export largely to England, where labor is much cheaper than in this country.

The United States leads in inventions, three times as many patents being granted here as in England.

During our free trade period, from 1846 to 1860, the total number of patents granted was 26,234.

From 1861 to 1875 the number granted was 127,345, and from 1875 to 1889 the number was 236,955.

The greatest number issued in any one year prior to 1862 was 4819, while now we issue annually from 25,000 to 30,000.

The result is a cheapening of the product, increased consumption and greater demand for labor at good wages.

Protection does not make geniuses, but it does make the opportunity, it improves the mind, stimulates the intellect and rewards the inventor.

Wherever the influence of a Protective Tariff has been greatest, there invention has progressed most rapidly. The result is saving in cost of production and greater prosperity for the masses of the people.—*American Economist.*

Important Typewriter Decision.

Judge Lacombe, sitting in the U. S. Circuit Court, has, on the motion of the Remington Typewriter Company, granted an injunction against the agents of the Franklin, restraining the sale of that machine on account of infringement of Remington patents. The decision is an important one, as it proves the control of the fundamental patents, and may affect other makers of typewriters. The Remington people have heretofore been quite passive, but it is stated on good authority that they are now likely to proceed against all other typewriter manufacturing companies. In some cases purchasers of machines which infringe Remington patents may also be proceeded against for infringement.—*N. Y. Tribune.* tf

Free Trade and Protective Tariff Distinguished.

Now, there are two methods of levying duties upon imports. Our democratic friends wish us to follow the English method, which is to levy them for one purpose only—namely, to raise revenue.

The Republican party would collect duties upon imports for two purposes, first to raise revenue for the support of the Government, and also at the same time to protect the industries and labor of our country from ruinous competition with the poorly paid labor of foreign countries.

And herein is found the issue which the two parties join upon the tariff question.

The Democratic or English method is to lay duties upon those articles which we cannot produce. They would restore the duty upon sugar, which we produce but little of, on account of the character of our soil and climate; and they propose by this bill to take it from wool, leaving our farmers who raise sheep to compete in our market with the wool growers of Australia, Asia and the Argentine Republic.

They would restore the duty upon tea and take it from lumber, building stone, farm products and manufacturers. They would levy a purely revenue duty, which is always a tax upon the consumer, while a Protective duty is paid almost entirely by the foreign importer.

The Republicans, on the contrary, would levy duties upon such articles as we can produce in our own land, making the amount of duty equal to the difference between the price of labor in our own and foreign countries, And they would utilize our own raw material rather than buy raw material abroad.

Thus would we raise revenue to carry on our Government and at the same time maintain our industries and keep up the wages of American workingmen.

We do not say to the foreign merchant, You shall not sell your goods in our market. But we do say to him, You do not fight our battles, pay our taxes nor help to develop and enrich our country. You therefore, deserve no advantage over our own countrymen in our market.

You pay 60 cents for labor where our employers pay 100 cents. You can consequently lay your product down in our market at 60 per cent. of what the American who pays good wages must receive.

Therefore, to put him on an equal footing with you, it is necessary that you should drop 40 cents on every dollar's you sell to us into the United States Treasury to help us pay our debts and support our Government as an equivalent for the privilege of exposing your goods here for sale.

This is certainly fair to you and it is only justice to our own people. It is what our country's prosperity demands.

Now, what kind of Tariff shall we have? Will he have a duty levied upon the sugar which he buys, which he cannot produce, which duty he actually pays as a tax, because no amount of Protection can so stimulate its production in our country as to create competition which might lower its price, or will he have a protective duty upon hay, potatoes, wool, grain, eggs, cattle and other things which he does produce, and desires to sell at a reasonably good price?

Willie Tillbrook
Son of
Mayor Tillbrook
of McKeesport, Pa., had a Scrofula bunch under one ear which the physican lanced and then it became a running sore, and was followed by erysipelas. Mrs. Tillbrook gave him
Hood's Sarsaparilla
the sore healed up, he became perfectly well and is now a lively, robust boy. Other parents whose children suffer from impure blood should profit by this example.

HOOD'S PILLS cure Habitual Constipation by restoring peristaltic action of the alimentary canal.

Much regret is expressed here at the report that Senator Dawes, of Massachusets, whose term expires on March 4, 1893, will not be a candidate for re-election. Mr. Dawes has been one of the wheel horses of the republican party for so many years that his absence cannot fail to be felt; but there is consolation in the fact that Massachusetts has many able republicans and that his successor is certain to be a good man.

The most troublesome problem that the citizens committee in charge of the G. A. R. encampment had to deal with has been satisfactorily solved.—That was to arrange for a plentiful supply of good wholesome food, well cooked, and at a reasonable price, in close proximity to the barracks in which free sleeping accomodations will be furnished all veterans who do not engage their own quarters. A contract has been made with a caterer who has had wide experience in feeding large crowds by which he agrees to furnish those of the visitors who desire regular meals with three good meals for $1 a day, and to supply at all times during the night or day cold lunches with hot coffee and tea and milk at the usual city prices. The barracks have been named, those on the monument lot, Alger, in honor of Gen. Alger; those in Garfield park, Farragut, after the gallant old Admiral, long since gone where all good sailors go.

The addresses of sixteen of the surviving war governors have been obtained by the committee and this week invitations to attend the encampment as special guests of honor of the committee will be forwarded to each of them. It is hoped that all of them may be able to attend, as it is the purpose of the committee to make their reunion a memorable occasion. H.

A Sunset,

on Great Salt Lake is but one of the matchless spectacles to be seen in Utah. The new book "Utah, a peep into a mountain walled treasury of the Gods," is now issued an can be had postpaid by sending 25 cents to J. H. Bennett, Salt Lake City.

It is expected that the Knights Templar and others visiting Colorado the coming season will extend their trip to Utah via the Rio Grande Western Railway in both directions. That road affords choice of three distinct routes and the most magnificent scenery in the world. Equipment unequalled in the west. Two trains daily across the continent. 31dec

WASHINGTON LETTER.

[FROM OUR REGULAR CORRESPONDENT.]

Washington, D. C., Aug. 29, '92.

Senator Vorhees has been "talking out in meeting" about his recent visit to the democratic national headquarters, in New York city, and his talk is far from complimentary to those in charge. He is credited with saying that Harrity and Dickinson are both idiots, as far as national polities are concerned, and that the entire democratic campaign as far as it has gone has been a batch of errors, for which Whitney is as much responsible as Harrity and Dickinson. Mr. Vorhees tells his democratic friends that if the election were to be held now, Cleveland could not carry New York to save his life, and that he saw nothing when there to base any hopes for an improvemont in the situation.

This information from Senator Vorhees is, so far as it refers to New York State, in accord with that received through republican sources. Senator Perkins, of Kansas, who has also been in New York; says he found the republicans in good shape all around, and that the campaign is being vigorously and intelligently pushed, and that he has not the slightest doubt of the election of Harrison and Reid by a larger electorial vote than that cast for Harrison and Morton. Of his own State Mr. Perkins says: "We have a hot fight on our hands, with the democratic party swallowed up by the so-called people's party, but you may put it down as certain that we are going to redeem Kansas this year. The campaign has progressed far enough to make it absolutely certain that the republican State ticket and at least five Congressmen will be elected, and before November we expect to be certain of the rest of the Congressmen and all of the electoral ticket. The prosperity of the farmers of our State is leaving the demagogues, whose stock in trade is woe, without argument.

If the cholera gets into the United States it will not be because of any lack of effort on the part of the Marine Hospital Service to keep it out, although it is absolutely necessary that the various State and city health authorities should intelligently cooperate with this bureau to make the quarantine actually preventive. The Marine Hospital Service, which is a bureau of the Treasury department, has control of the Congressional appropriation known as the epidemic fund, which will be used to keep out this dreaded disease. Collectors of customs at all ports of entry will act in conjunction with the Marine Hospital Service, and while there may be isolated cases of the cholera which will evade the vigilance of the quarantine authorities and get into some of our seaboard cities, it is believed that the precautions taken will make it impossible for it to become epidemic.

A local democrat of prominence says that Whitney told him that Mr. Cleveland would try in his letter of acceptance to tone down the effect of the plain spoken free trade plank in the national platform, which is doing his party so much harm in New York, New Jersey and Connecticut, States which he must carry to be elected. It is too late for any toning down process, and nothing that Mr. Cleveland can say in his letter can change the issue of this campaign—protection vs. free trade.

ATTORNEY'S SALE
OF
HOUSE AND LOT
IN
St. Michaels District, Talbot co.

By virtue of power contained in a mortgage from Chas. H. Thomas, Sarah J. Thomas and M. Louis Thomas to Spedden O. Easton Md. Druggists.

MID-SUMMER THOUGHTS.

We hear, you were thinking about making some purchases, and money to be saved is the thought "on top" in your mind. We won't be officious, but if you will let us, we will lend our assistance, in your effort to buy at bottom figures. We have just taken from their cases

FINELY FINISHED ROAD CARTS AND HANDSOME CARRIAGES.

They are made by the most reliable manufacturers in this country and are offered on their merit. They are full Leather, and when you examine them,—you will find the price both captivating and catching. We have also just received the largest stock of

FINE CARRIAGE HARNESS, LEATHER FLY NETS, AND LAP DUSTERS,

ever brought to Easton by this house at one time. If you ask the price, and really want,—you will be captured,—but released with something sayed. Try it. We are selling a

TWO HORSE, FULL CHILLED PLOW

Complete for $7.00—the work of which can't be beat. Large numbers sold. See it. We lay claim to the best

GRAIN DRILL

On the market. You can be the judge, after examining all the points. Don't buy a

FARM WAGON,

Because of its cheapness. It will finally make wrinkles on your face, spoil your disposition, and make you a kicker. Buy the other kind. We have them, and they satisfy. More of them on the road than all others combined. Why? We still sell

OBER'S STANDARD & HIGH GRADE FERTILIZERS.

Have customers that have found nothing better on the market, and they continue to plant cash in that "gold dust." Come and see us.

YOUR FRIENDS,
SHANNAHAN & WRIGHTSON HARDWARE COMPANY,

☞ Also a full supply of Repairs of Champion Binders and Mowers. ☜

E. T. NICOLS.

Perfect clothing at manufacturer's prices

There's extravagance in spending money with anybody but the manufacturers—in Clothing, the worst extravagance of all. Direct dealing is the only road to economy—the only road, as truly, to good clothing. Inferior quality, inferior manufacture—these are the only ways to cheapen clothing—and who suffers? Isn't it you? All the time? In all ways?

In planning for the greater business of this Fall, we want to make this clear to every wearer of clothing: our stock is home-made—and the best-made.

All Wool Suits you can get for $10, $12.
Fine Suits for $15 to $25.
Dress Suits, the same.
Fall Overcoats, handsome as flowers.

Best of cloth, best of trimmings, best of fashioning and fitting, made by the best of work-people to sell to the best of people. Our hearts are in the winning this season of a more generous business than we ever had.

The prices are down now to bed-rock.
