AMONG OUR CHURCHES.

EARLY PIETY and OPPORTUNITY.

A few Brief Notes Regarding the doings in some of our Churches.

The increased number of children who attend divine worship in the churches of various denominations in Easton is very noticeable. A few years ago—indeed within the memory of your correspondent—the Sunday School was, in too many families, allowed to take the place of the church, and it was felt necessary that something must be done to right the matter. A five minute sermon, addressed directly to the children, was used to good advantage. The little ones have shown great appreciation of these brief, pointed discourses. Usually the children's sermon with its short words and apt illustrations, is much enjoyed by the older people. Rev. C. D. Harris is very happy in his adaptation of Bible truth to the children in brief sermons. He does not preach down to the young folks, but present truth in such a clear and graphic way that juvenile interest is awakened. The services at the M. E. Church, South, to-morrow will be of special interest. Communion tomorrow morning,

The remarks in the last issue concerning the complications in the choir of the Catholic Church seemed to create quite a sensation in the circles of that church. Further investigation on my part brought to light the fact that the choir was perfectly justified in taking the course it did. I make this statement to correct the wrong impression which I fear was made by my remarks last week. However, the trouble has been settled and the choir will continue as usual. These little disturbances will happen, and in the majority of cases I think it will be found that the church machinery runs more evenly because of such eruptions. The service last Sunday morning was very well attended and was replete with interest. It was the opening of the May devotions to the Holy Mother.—The evening service was, figuratively, a continuance of that of the morning. Father Waldron corrected the impression which non Catholics have formed concerning their devotion to the mother of Christ. The music was of a high standard of excellence and was thoroughly enjoyed.

* * *

"Early Piety," the subject of Rev. Mr. Sheridan's sermon Sunday morning was a means of attracting an unusually large number of people to the M. P. Church. This subject, a well-chosen one, was placed before the congregation in plain, comprehensive pictures, apt illustrations and thoughtful arguments, and truth in its strongest form was used. I doubt not that every parent present felt grateful to Mr. Sheridan for this sermon. In my opinion, it is a subject upon which too much cannot be said, and such sermons at frequent intervals will be a great help to parents, to "train up a child in the fear of God, and when it is old it will not depart from thence." A feature of the service that was ludicrous as it was unexpeced, developed itself when Prof. Buys began to play the pipe organ. He ran his fingers over the keys and was surprised, and I might say horrified, to hear a loud, plaintive wail issuing from the depths of the organ, completely distroying the melody of the organ. The Prof. stopped, but not the wail, on the contrary it grew louder and at last ended in what seemed to be a heart-rending sigh. The Prof. began again, so did the noise, but it was soon apparent that a member of the feline tribe had some how gotten inside the organ, and was (perhaps) impressed with the sancity of the day, and endeavored to "break forth into joy." So much for the cat. The evening service was made pleasant by a discourse on "Opportunity," which was in every particular as meritous as the subject of the morning. I congratulate Mr. Sheridan on the excellence of his sermons. Communion in the morning. "My Father's God" will be the subject of the evening sermon.

* * *

I have often heard the question asked "Is a church paper appreciated?" The answer is clearly "Yes" and "No." Whether such a paper is to succeed depends entirely upon how it is conducted. So many of these papers have been started and suspend after two or three issues. A paper devoted to a church is of great value, it extends the influence of the church, and will reach more people than the voice of the pastor. It keeps posted those members who live at a distance and are often unable to attend church, these and many other benefits may be mention. There is a little paper published in Easton and devoted to the M. E. Church, South, called the *Circuit Rider*, which is all that can be desired in a church paper. Always neatly printed, with bright and interesting contents, all of which are attractively written. It is three years old and I wish it many years of prosperity and usefulness.

* * *

A large number of people were in attendance at all the services last Sunday at the M. E. Church. The pastor had themes of absorbing interest which he discussed in his usual impressive manner. At the meeting of the teachers of the Sunday School committees were appointed who will have in charge the preparations for Children's Day. Services will be held as usual, communion service in the morning and in the evening the pastor will not preach, but the congregation will be favored with an address by Miss Fletcher, of New York. Her subject will be "Fruitage." Probationary members will be received in the morning. All are welcome.

A meeting of the Eastern Shore preachers of the M. E. Church, South, will be held at the Southern Church, Easton, on Wednesday evening and Thursday, May 10 and 11. A program of pleasing variety has been arranged and the occasion will be one of great interest. A full report will be found in these columns next week. S. E. SHANNAHAN.

Bozman is not in for the World's Fair this time, but who can tell what the next 400 years may bring forth.

The latest at Bozman was testing the strength of breeches. A young gent walked in the post-office with a pair of mole-skins on which were the admiration of the crowd, but the boast of the owner was their strength and durability. He had two dollars in his pocket that they would not rip nor run down at the heel; the bet was taken by two stalwart young men, the pants were handed over and a leg was grasped by each man, the word was given, ready, pull; they separated, it was called a draw and bets were off. Hereafter we will not depend too much on cotton and thread.

The wedding of Miss Edith Grace, daughter of Wm. S. Grace, Esq., took place on Wednesday 27th ult. The happy groom was Mr. Charles D. Fairbank, a popular druggist of Baltimore. They took the early train for their future home in the city. Rev. J. F. Prouse tied the knot.

Ladies' Summer Styles Are Nearly Facsimiles of Those of our Grandmothers.—Leading designers of fashions are already discussing the revival of the styles of the Louis thirteenth period, and believe also that Elizabethan ruffles and stomachers will come into fashion for the summer casino toiletts. In making the new skirts dressmakers perform a real stroke of magic For while the amateur modiste finds herself at a loss to reproduce one of these new models, the experienced professional knows how to fit the hips in front gore or pleat and cause the skirt to suddenly expand and flare outward at the feet, where it measures many yards in circumference. And this simply because she wisely takes her knowledge from the Fashion Magazines published both in Paris and New York, by A Mc Dowell & Co. These Illustrated magazines are an invaluable guide to any one who seeks information in the latest fashions. "La Mode de Paris" and "Paris Album of Fashion" each cost $3.50 a year, or 35cts. a copy, and contain a cyclopædia of knowledge on this subject. "The French Dressmaker," which costs only $3.00 per annum, or 30 cents a copy, is without a peer for practical dressmaking. They also contain lessons on current styles which alone place them above competition. "La Mode" with its low subscription price of $1.50 a year or 15cts a copy, is the home journal "par excellence." If unable to find any of these magazines at your Newsdealers do not accept any substitute, but apply directly to Messrs. A Mc Dowell & Co., 4 West 14th St., N. Y.

Go to Siegel & Co., and see the newest styles. 1t

Sixty Million Bushels of Wheat—A Bushel for Every Inhabitant of the United States, The Kansas Crop of '92

Never in the history of Kansas has that state had such bountiful crops as this year. The farmers cannot get enough hands to harvest the great crop, and the Santa Fe Railroad has made special rates from Kansas City and other Missouri River towns, to induce harvest hands to go into the state. The wheat crop of the state will be from sixty to sixty-five million bushels, and the quality is high. The grass crop is made and is a very large one; the early potatoes, rye, barley and oat crops are made, and are all large. The weather has been propitious for corn, and it is the cleanest, best looking corn to be found in the country to-day. Cheap rates will be made from Chicago, St. Louis and all points on the Santa Fe east of the Missouri River to all Kansas points, on August 30 and September 27, and these excursions will give a chance for the eastern farmers to see what the great Sunflower State can do. A good map of Kansas will be mailed free upon application to Jno. J. Byrne, 723 Monadnock Block, Chicago Ill., together with reliable statistics and information about Kansas lands.
