Charles Murray Dead.—Chas. Murray, colored, aged 60 years, Easton's oldest barber, died suddenly of paralysis on Thursday evening last at his home. He had been on duty at his shop regularly and seemed as well as usual when he retired. Charles was highly esteemed as a citizen and had many friends and perhaps no enemies. He has conducted a barber shop on Railroad Ave. for many years and was seldom absent from his chair. He was intelligent and kept up with the questions of the day. All who knew him will learn of his demise with regret.

CHILDREN'S DAY LAST SUNDAY.

Services at old Ebenezer.—Church Directory for tomorrow.—Other Items of Local Interest.

The Children's Day exercises at the M. E. Church last Sabbath were very pretty, and so far as the children are concerned they performed their parts with a precision and promptness that was truly admirable. The evening service was given over entirely to the children, while in the morning Rev. L. E. Barrett, P. E. of the Wilmington district, delivered a sermon appropriate to the day. It was broad in its scope, strong in argument, clear in illustration, and keen in its denunciations of all that is contrary to the law of God. In the whole his sermon was a good one, and it was thoroughly enjoyed. Eloquence always finds a lodging place in the hearts of this people. The church was decorated with flowers, evergreens, etc., prominent among which was a huge rainbow extending from one side of the room to the other. Scarcity of flowers prevented the decorations from being elaborate. They were very pretty but when compared to former occasions they were certainly poor. However, a brilliant program fully atoned for what lacked in the decorations. The singing by the school was a feature of no little beauty. Every scholar sang and the result was beautiful. R. Harry Paichett was the musical director and he is to be congratulated on the success of his efforts. The recitations were nicely spoken; no embarrassing error or break occurred, and every selection denoted careful practice and training. The little tots did splendidly and particularly little Misses Small and Chaffinch, who are ever pleasing and cute in speaking. The program entire was a good one and there was but one fault to find with it—it was too short. The financial result of the day was flattering, about $120 being contributed.

The Women of the Bible

have furnished subjects for a series of Sunday evening sermons by Rev. W. E. Avery. This has proved to be a wise selection on the part of Mr. Avery, as is indicated by the large attendance at the Sunday evening services.—Let no one stay away because of the heat, for at the beginning of the sermon the gas is turned low, and this considerably lessens the heat. The choir lends pleasure to the evening by singing several beautiful selections.—Come and you will find it an hour well spent. The subjects for tomorrow are as follows: Morning subject, "Paul's revelation and affliction." Evening topic, "Martha the domestic woman."

Children's Day Tomorrow.

Tomorrow will be a red-letter day in the history of the M. E. Church, South. Particularly so as it will be the first Sunday service held out of the old church building, which is now being demolished. The bell was rung for the last time on Thursday. The services will be held in the meantime at the Court House tomorrow morning. Rev. C. D. Harris will deliver a sermon upon Children's Day and in the evening the Children's Day exercises will be given. It will be a delightful service. All are welcome.

Children's Day services will also be held at Calvary M. P. Church tomorrow. Great preparations have been made and the occasion bids fair to out-rival all previous efforts. The music will be exceptionally fine, consisting of vocal and instrumental music of a high order. An orchestra will be present at the evening service. Those desiring an evening of pleasure and profit will do well to attend the service. You are welcome.

Literary Entertainment.

The Epworth League of the M. E. Church will give a Literary Entertainment in the lecture room of the church on the evening of July 11th. This will be the first of a series of such entertainments given by the League.—The program will be carefully arranged and will consist of brief sketches and essays on noted literary personages and their works, a sort of "evening with the poets." Music will be indulged in slightly. For ther particulars will appear in due time.

Smithson's Chapel

is progressing finely under the pastorage of Rev. J. T. Kesler, and it is said that the outlook was never brighter. I was talking with a member of Mr. Kesler's congregation one day this week, and in the course of conversation I enquired as to how Mr. Kesler preached; the answer was "He preaches with his whole heart and soul." It must be flattering to him to know that his work is so much appreciated. There is nothing which encourages a pastor so much as the hearty co-operation of his people. S S

A Carpenter Falls.—Mr. Enoch Covey, working on a new house on Harrison St. fell about twelve feet to the ground on Thursday evening. No bones were broken but the fall was very painful. Mr. Covey being past 70 years of age has made a very escape from being badly injured, as it is he will probably be all right in a few days

Died.—Mrs. Mary Jones Dawson, wife of William P. Dawson, of Baltimore, died June 12, 1893, at the residence of her son, Thomas Matthews Dawson, in Charlotte, North Carolina, whither she had gone hoping the climate would benefit her, as she had been an invalid for some time. William P. Dawson is the brother of the late M. M. Dawson and Elias O. Dawson, of Easton. Mrs. Dawson was Miss Matthews, of Baltimore county. She leaves, besides the son, one daughter, Miss Edith Dawson.—*Ledger.*

The funeral was from her late residence in Baltimore Thursday. Several of the relatives in Easton were present.

To Mathematicians.—The following questions have entertained some of the brainy thinkers of Easton who discuss curbstone politics, for the question arose from the discussion of Civil Service matters. They are given the readers of the Gazette to try, and answers received thereto will be published.

How many board feet in a piece of sawn timber 40 ft. long, 2ft. square at one end and tapering uniformly to one foot square at smaller end?

A piece of lumber is 40 ft. long by 30 inches square at one end and 12 inches square at the other, tapering uniformly. How far from one end must it be sawed to make pieces of equal amount?

Easton High School Commencement.—The Commencement Exercises of the High School were held in Music Hall last night before a crowded house, judging from the tickets of admission given out. The program was carried out substantially as follows:

Chorus rendered by the full school, Mighty Jehovah—Donizetti, followed by concert recitation of the One Hundred and Third Psalm, and Chant of the Lord's Prayer. Reginald Mobray had the Salutatory, while the Valedictory was rendered by Miss Laura Sullivan, both being pronounced especially fine productions. The choruses were beautiful selections and happily rendered. Prof. Chaplain made the presentations of diplomas. Elaborate preparations had been made for flowers and the graduates appreciated these tokens of esteem from their friends.

Prof. Murdaugh and his assistants have as usual worked untiringly and take just pride in this class of 1893. The class address was made by a former graduate, Mr. Clayland Mullikin, a promising young orator, and also a graduate of the Johns Hopkins University. He did himself great credit.

A Launch at Cambridge.—The largest schooner ever built at Cambridge was launched from the shipyards of Barkley & Co., last Tuesday. The new vessel measures 100 feet on the keel, and will register about 300 tons. She will be rigged at Cambridge. The vessel is of a pretty model and sits gracefully on the water. She was christened Venus, and was built under the supervision of Capt. Thomas Johnson. She will be used in the coasting and West India trade.

County Commissioners.

County Commissioners met on Tuesday.

Receipts were:
W. T. H. Lee, collector, 1893, $200 00

New road on Tilghman's Island to wharf of the Maryland Steamboat Company was accepted,

A large amount of unpaid bills have accumulated. The Commissioners have no money and it is useless to present or urge the payment of bills now.

The Board fixed the county tax rate at 83 cents on the $100—an increase of 5 cents over 1892, and making the total State and county tax rate 100 cents on the $100.

Fatal Accident to a Horse.—On last Friday evening about nine o'clock there came tearing through Easton at full speed, a runaway team to an omnibus. It had come all the way from the Point where it had been waiting at the steamboat wharf. Efforts were unsuccessful in attempting to stop the horses, but the streets being practically deserted there was no damage done in town nor to the bus when they arrived at the stables. The excitement was all the observers got out of the affair. But a moment later it was learned that a horse had been collided with on the road and had received fatal injuries. This was proved the case, and now a suit at law is pending between one Mark New of Baltimore and the owner of the bus, Mr. Cook, to decide who is responsible for the loss of the horse. The animal was valued at $200 and was that day bought from Samuel A. Harper of St. Michaels.

B. & E. S. R. R. Change of Time.—The Baltimore and Eastern Shore Rail Road Co. will make slight change in schedule in effect from Saturday 17th inst. (noon).

Express train going East, will run an hour earlier, and Express going West, about thirty minutes later than the Present schedule, arriving in Baltimore 11:50 A. M., and leaving Baltimore same as at present. Steamer "B. S. Ford" will be in the transfer service from that date.

The regular summer schedule will go in effect June 29th, and two express trains will be put on each way as also one accomodation each way, similar to last year's schedule except that express trains between Baltimore and Ocean City, will have different Schedule on Saturdays than on other week days. There will be a Sunday evening train from Ocean City through to Baltimore, but not on Saturday.

The Baltimore and Eastern Shore Railroad Company will have special low rate tickets on sale beginning July 1st, round trip from Baltimore to all points west of Easton, good for two days, or from Saturday until Sunday or Monday. There will also be on sale, between Baltimore and Ocean City, tickets every Wednesday, good for the day only at $2.00 or good for two days, go down Wednesday and return Thursday at $3.00, or on Saturday good for return Sunday or Monday at $3.00.

A. J. Benjamin, Gen. Pass. Agent.

Caroline County Court.—The work of the special term of the circuit court of Caroline county is finished. Lucinda Spry was sent to House of Correction for six months for giving poison to an infant. James Thomas, colored, was sentenced to the penitentiary for three years for robbing the store of A. T. Porter at Burrsville. Willis Flemming, a lunatic, was sent to Spring Grove Asylum. The grand jury submitted the following report before adjourning:

After being in session three days and working with due diligence, we find we have examined 45 witnesses and found nine presentments. We especially recommend that the county commissioners make some move toward building a new courthouse with sufficient fire proof vaults that the county records may be well secured, as the county stands in need of such improvement.

State's Attorneys Meet.—The State's Attorneys of Maryland met Wednesday in Baltimore and took the initiatory steps in the movement which has for its object a change in the criminal law and practice of the State. The prosecutors of Maryland generally admit that a reform in this direction is desirable and they propose to prepare such amendments and laws for submission to the next General Assembly as will affect the object in view if they be adopted. The State's Attorneys from most of the counties were present and many happy speeches were made At the conclusion of the regular business Major Stewart of Easton, took the floor and urged that the office of State's Attorney be magnified. "I have been State's Attorney of Talbot county for nine years," he said, "and if I do not get to be U. S. District Attorney I will be State's Attorney for nine years longer.—There is one question in which I have a great interest. There are people who shirk their responsibility and throw it upon the State's Attorney. We are entitled to more consideration than we get from laymen and county commissioners. I come before the people of Talbot county despite judges, county commissioners and rum sellers and get elected every time. The State's Attorney sits up at night trying to make sense of jackass legislation of jackass legislators and he gets no credit for it. We demand that we be more recognized by laymen."

No. 136.—Enigma.

I am about 2 inches in length and so slight that a child might break me with the greatest ease. But I have such power that I could destroy towns and kill men, women and children. When I and my brothers and sisters are sent out to view the world, we travel all together in such a queer little house—a square sort of box—but there, I am going a little too fast. We have hardly room to breathe at first, but as we get taken out, one by one, we gradually get more room. When at last we are all gone, our houses are thrown away. We are always waiting till the time comes when we shall be of use, but when the time does come it costs us our lives. We are very sensitive to damp places. We don't like the wind at all, for if it should come upon us in the moment of action we are done for in a minute.

No. 141.—A Puzzle In Wood.

There is nothing novel about this little trick. In truth, it is one of the standard puzzles appearing from time to time in much the same form, whose excellence commends them to each rising generation. Golden Days recently gave the following illustrated directions for doing this puzzle

FIG. 1.

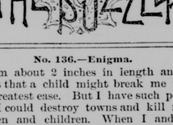

FIG. 2.

Take any piece of thin wood, say a quarter inch thick, 3 inches wide by 6 inches long, and mark out with the compasses a circle 1 inch in diameter, also a square with 1-inch sides and a triangle with 1-inch base, and the same perpendicular height as in Fig. 1. Cut these three forms out with the fret saw and sandpaper them smooth.

The puzzle now is to cut another piece of wood of such a shape and size that it may easily pass right through each of these holes and at the same time fill them up exactly.

One portion of the block must of course be a circle. So turn or cut out a cylinder exactly an inch in diameter, and make it also an inch deep. This can of course be easily passed through the central hole, and then, if held up on end, it will be found to exactly fit the square. Next draw a central line across the top of the cylinder and from that line saw off each side slanting to the base, as shown by the dotted lines in Fig 2, and it will now pass through the triangle, while its base is a circle and sideways forms a square.

Exchange Milling.—Geo. M. Wilson guarantees better flour in exchange for wheat than any other mill, as I put all the Best Patent, in with the exchange flour, which gives it a rich creamy color, and is all the life of good flour, every barrel is made to grade with sample, from one of the leading Mills of the world. je31t.

Sixty Million Bushels of Wheat—A Bushel for Every Inhabitant of the United States. The Kansas Crop of '92

Never in the history of Kansas has that state had such bountiful crops as this year. The farmers cannot get enough hands to harvest the great crop, and the Santa Fe Railroad has made special rates from Kansas City and other Missouri River towns, to induce harvest hands to go into the state. The wheat crop of the state will be from sixty to sixty-five million bushels, and the quality is high. The grass crop is made and is a very large one; the early potatoes, rye, barley and oat crops are made, and are all large. The weather has been propitious for corn, and it is the cleanest, best looking corn to be found in the country to day. Cheap rates will be made from Chicago, St. Louis and all points on the Santa Fe east of the Missouri River to all Kansas points, on August 30 and September 27, and these excursions will give a chance for the eastern farmers to see what the great Sunflower State can do. A good map of Kansas will be mailed free upon application to Jno. J. Byrne, 723 Monadnock Block, Chicago Ill., together with reliable statistics and information about Kansas lands.

La Grippe

During the prevalence of the Grippe the past seasons it was a noticeable fact that those who depended upon Dr. King's New Discovery, not only had a speedy recovery, but escaped all of the troublesome after effects of the malady. This remedy seems to have a peculiar power in effecting rapid cures not only in cases of La Grippe, but in all Diseases of the Throat, Chest and Lungs, and has cured cases of Asthma, Hay Fever of long standing. Try it and be convinced. It won't disappoint. Free Trial bottles at J. C. Henry & Bro.'s Drugstore.

SAMUEL PATCHETT & SON.

The Cheap Funeral Directors and Furniture Men of Dover Street.

We wish to inform the public in general that they can either do arterial embalming, cavity embalming or embalm by the new method, and do guarantee that they can keep a body as long as any one who only uses arterial embalming. I will guarantee and can prove that I am the oldest embalmer in Easton, and have never made a failure either. Embalming costs but little, and we wish to give the public the benefit of it. Come and get our prices.
