ONE of the most unique and valuable little books on the resources and statistics of Maryland has recently been published by the Baltimore *Sun* and given to its patrons. This book will find a welcome wherever sent and is especially interesting to Marylanders. Illustrated with handsome plates and a good map of Maryland in the back part. The book was distributed at the World's Fair on Maryland Day and showed all nations that the Baltimore *Sun* was no ordinary paper but ranked high among the great dailies of the World.

THE Centreville *Observer* is on the right track in making a personal appeal to the papers of the Eastern Chesapeake counties to urge upon the people the necessity of having the B. & O. Railroad build a branch from Elkton through Chestertown and Centreville to Easton and possibly farther. Anyone will see at a glance the advantage this would not only give the counties through which the road passed, but the large opportunity for resource to the builders. It is thought the coal trade alone would support the road, to say nothing of the travel to and from the cities. It would tie all these towns to Baltimore and Philadelphia so closely they would be looked upon as suburbs to those great centres, while it would be but a few years before the climatic advantages of the Eastern Shore would be made known to city residents who would have their country seats dotted all up and down our beautiful Shore.

We second the motion of the *Observer* to have prominent people from the counties meet in Easton at some convenient time to discuss the subject.

THE Republican Nominating Convention recently held in Talbot county adopted the following resolutions; which set forth the attidue of the party in this county on the questions most urgent, and with which every voter should acquaint himself.

Believing that the lease or sale of the oyster grounds of the Chesapeake Bay and its tributaries is an infringement of the rights of the citizens of the tidewater counties, therefore, be it

Resolved, 1st That we, the Republican party of Talbot county, in convention assembled, do pledge ourselves to oppose the lease or sale of the whole or any party thereof to any person or corporation.

2nd. That we condemn the course of the Democratic representatives from Talbot county in the last session of the legislature for their advocacy of the bill which shortened the oyster season from the first to the fifteenth of September, and we pledge ourselves to use all honorable means to secure the repeal of the measure.

3d. That we favor such legislation on the oyster question as shall be interpreted to mean the same thing in Talbot county as in the other tidewater counties of the State, and that will secure to the oystermen the utmost liberty compatible with the proper development and propagation of the oyster.

4th. That we favor the election by the people of our county School Commissioners and District School Trustees, and for a free school system that will fit the children of the State for the practical duties of life, and we are heartily in favor of free schoolbooks in the public schools, and we pledge ourselves to support any honorable effort in this direction.

5th. That we favor a new assessment, so framed that all individuals or corporations holding property in the State shall pay their just proportion of taxes for the support of the State and local government according to their means.

WASHINGTON LETTER.

FROM OUR REGULAR CORRESPONDENT.

Washington, Sept. 25, 1893.

Senator Stewart, in one of the most remarkable—for its subject matter—speeches ever delivered in the Senate unmercifully scored Mr. Cleveland for his attempts to interfere with the legislative branch of the government. The speech, which was delivered to-day, was made in advocacy of the following resolution offered by Mr. Stewart on Saturday:—

Resolved, that the independence of the co-ordinate departments of the government, the legislative, the executive and the judiciary, must be maintained, and that the use of the power and influence of one department to control the action of another is a violation of the Constitution and destructive of our form of government. There can be no question about the truthfulness of the assertion made in this resolution; it has been talked about for weeks among Senators of both parties, and the only reason it has not come before the public in an official way is that many Senators who disapprove of the manifest encroachment of the executive upon the prerogatives of the legislative branch of the government were willing to appear to condone it because they approved of the end sought—the repeal of the purchasing clause of the silver law—and the same feeling may prevent the adoption of Mr. Stewart's resolution, but it should not. The resolution involves a great principle and not alone refer to pending legislation, but to all future legislation. If Congress does not stand up for its constitutional rights and rebuke the executive for trying to usurp them it cannot expect that the usurpation will cease when the pending legislation shall have been disposed of. It will continually grow, if allowed to; so long as Mr. Cleveland with his dictatorial disposition is President, and the example will certainly be followed in the future by his successors in the executive chair. The cause of the usurpation should be regarded as immaterial; the usurpation is dangerous and should be promptly rebuked.

Senator Chandler has introduced a resolution that may stir up the administration considerably, to say nothing of adding to the hard feelings already existing in both factions of the New York democracy. The resolution calls upon the Secretary of the Treasury for his authority to appoint the Fairchild commission now engaged in examining the appraisor's office of the port of New York; what has been done and what it is intended to do; how much money has been paid out, and what is agreed to be paid, together with all correspondence on the subject or relating thereto.—When the resolution is called up it is not probable that either Senator Hill or Murphy will attempt to defend Secretary Carlisle. It is suspected that some of the correspondence will be especially interesting to the New York Senators.

Representative Wilson, chairman of the House Ways and Means committee, talks in paradoxes about the new tariff bill. He starts out by saying that the new bill will be exactly what was promised by the Chicago platform—a tariff for revenue only, without any incidental protection, and then winds up with the assertion that no established American industry will be injured by the bill. Now any school boy knows that one or the other of these statements is wrong A tariff for revenue only is a tariff that will the most largely increase the importation of foreign goods, and the more foreign goods consumed in the United States the less demand there will be for domestic goods of the same kind, and the natural consequence will be closing of American factories. The only theory upon which Mr. Wilson's statements can be reconciled is that he does not consider "established" those American industries that require protection from foreign competition. There is going to be a big fight in the democratic party on this question—the number of democratic protectionists is larger than many suppose and events are making daily additions thereto.

The Senate will, by agreement, make set speeches on the Voorhees bill two weeks or more and then—there will probably be an indefinite period of filibustering, if the attempt is seriously made to force a vote on the bill. Mr. Cleveland is very much offended because of this defiance of his wishes, but no credence is placed in current rumors to the effect that the administration will try to bring on another period of financial stringency in order to force a vote. One "object lesson" of that kind is probably quick enough for even a democratic administration.

The House, having gone far beyond anything in the shape of curtailing the rights of the minority which was contained in the rules of the House of the Fifty-first Congress, will tomorrow take up the bill for the perpetuation of the power of the democratic party, otherwise known as the bill for the repeal of the federal election laws. Two whole weeks—think of what magnanimity to the minority that is—will be allowed for the discussion of the bill. Unless there is a change of rules in the Senate this bill will never pass that body, let the House railroad it as fast as it may.

Half Rate Excursions to the World's Fair via Washington and the B. & O.

The Baltimore and Ohio R. R. will run a series of special excursions from Baltimore and Washington to the World's Fair at rate of $17.00 for the round trip The trains will consist of first class day coaches, equipped with lavatories and toilet conveniences.—The trains will start from Camden Station, Baltimore, 9.30 a. m. and leave Washington, D. C. 10.35 a. m. September 28th, October 4th, 10th and 17th, running via Grafton and Bellaire, and will reach Chicago at 1.15 p. m. the following day. Tickets will be valid for outward journey only on the special trains, but will be good returning from Chicago in day coaches on any regular train within ten days, including day of sale. Stops will be made for meals at the dining stations on the line. A tourist Agent and a train porter will accompany each train to look after the comfort of passengers. For more detailed information as to rates, etc., apply to Chas. O. Scull, Gen. Pass. Agt. Baltimore, Md. toct17

To World's Fair via B. & O.

The B. & O. R. R. offers a more complete and varied train service to Chicago than is offered by any other line. It has two daily express trains running via Cumberland and Pittsburg, two running via Deer Park, Oakland and Bellaire and two running via Cincinnati and Indianapolis. Round trip excursion tickets at $26 are sold for all these trains, and passengers can go one way and return the other. Tickets at the same rate are good going via Niagara Falls.—These excursion tickets will be honored on all B. & O. trains, without exception and without extra fare, until the close of the Exposition and they are good for stop over privileges at Deer Park, Oakland, Cincinnati, Indianapolis and Niagara Falls.

He was at once taken to the prisoner. Now what relation was the prisoner to the visitor?

The Agriculturist Publishing Company will give $50 a year for life to the person sending the first correct answer; $5 00 to the second third, $2 50; fourth, $1.00; fifth, $ 50, and over 10,000 rewards, consisting of pianos, organs, ladies and gents gold and silver watches, silver services, diamond rings, etc.

The Lowest Rate of the Year to Chicago via Pennsylvania Railroad.

A FURTHER REDUCTION IN FARE FOR THE COACH EXCURSIONS.

The rapidly approaching termination of the Columbian Exposition and the enormous travel now directing itself to Chicago prompt the Pennsylvania Railroad Company to still further reduce its round trip rate on the popular World's Fair Coach Excursions. The rate from Philadelphia will be $17, and a proportionate reduction from other points along the main line and branches. These rates apply only to special trains leaving on September 28th, October 2d and an additional one just arranged for October 6th. The tickets will as before, be good for return passage within ten days on trains leaving Chicago at 3.15 and 11 30 P. M.

The rate has now reached the lowest possible point, and is in the means of almost every one, which end the railroad company has long been endeavoring to attain. Early application for tickets is urged, in view of the increased demand which will undoubtedly follow this liberal announcement.

The service for this travel will be maintained at the same standard for which the Pennsylvania Railroad Company is justly world-wide famous.

Harvest Excursion.—The next and last Harvest Excursion will be October 10th, over the Great Rock Island Route, to all points in Kansas, Nebraska, Colorado, Indian Territory and Texas. Go on this excursion and see the new land occupied, or select your point in Kansas Colorada or Texas where you want to buy a piece of land for a home. One fare for the round trip over The Great Rock Island Route.

ATTENTION FARMERS.

WE ARE IN THE FIELD THIS SEASON with the best and most complete assortment of Implements and Machinery ever offered on the Eastern Shore. First come Plows, and the "Bissell" leads them all in lightness of draft and best work in all conditions of land. Next comes the "Oliver" pattern plow manufactured by Bissell, which is, we claim, superior to any Oliver sold; this plow we have sold a great many of during the past and present seasons and can give a host of references supporting our claim. Lastly comes the "Advance," which is too well known to need any comments. Of the Harrows we are selling the complete line made by D. M. Osborne & Co., including Spring Tooth, Spike Tooth; and Disc—the Spring Tooth especially being the grandest thing of its kind ever put on the market. One of them last winter sold at a sale for $16 which was within $2 of what it cost originally, the bidding having commenced at $10.

In Corn Planters we have the U. S. Combined Check Row Corn Planter. This Planter uses a plunger direct from the check row rod to the rotary seed plates and does away with all the shakebar and center irons between the seed boxes. A single pin spring anchor is furnished with the U. S., and with their use the wire can be drawn the same tension at each end of the field, thereby insuring great accuracy in planting.

Our Sulky Cultivator is the "Akron," which is already at the top of the heap both as a cultivator and as a fallow worker.

We are still selling the Osborne Binders and Mowers, which are most reliable, and also the Empire Binders and Mowers, which are new to this section, but have more good points than any machine ever sold.

Farm Wagons—We are handling the "Jackson" and "Auburn." The Jackson is the old Webster ver much improved and no one should think of buying a wagon without seeing them. To continue to enumerate all the good things that we have would take up so much of your time that we will cease with the assurance that no matter what you may want we believe we can suit you from a shoe peg to a traction engine.

P. S.—Barb Wire is lower than ever before. Do you need some? We have a large supply.
