FOR COMPTROLLER:
JAMES P. PERKINS,
Of Prince George's Co.

FOR STATE SENATOR:
ISAAC A. BARBER.

FOR HOUSE OF DELEGATES:
HENRY CLAY DODSON,
CHARLES F. STEWART,

FOR SHERIFF:

VOTE the winning ticket on Tuesday, Issac A. Barber & Co.

IT is doubtful, brother *Comet*, that the delegation will be "an unit" after election.

So long as the lamp holds out to burn,
The vilest sinner may return
From Baltimore on Election Day
To show how men vote as they pray.

LAST Wednesday was celebrated as the opening of the gunning season and large quantities of powder were burned and many pounds of lead sown over the fields.

LAST week's democratic jubilee at Oxford ended as has many another preceeding it, in a grand rough and tumble free fight. It is curious how democratic politics affect some people.

VOTE the solid temperance ticket on Tuesday, from Barber to Hand inclusive.

VOTE for men of principle and back bone on Tuesday. Vote the republican ticket.

OUR friends who are in arrears are especially urged to send a remittance, if not all, something. We have need for more than we ask, but have enough scattered over the country in small amounts to satisfy us if the same were only paid. Please settle.

VOTE for men who stand as men among men on Tuesday next, vote the ticket at the head of this paper.

As a prominent business man and democrat of this county remarked the other day: "The Democratic party is evidently not a business man's party, and as a business man I can no longer consistently support it."—*Montgomery Press.*

BE sure to make your X next Tuesday in the right place.

COUNT Tuesday lost, if at descending sun
The ballots say the democrats have won.

EVERY man should make a study of the Australian ballot law that he may be prepared to vote on election day. There is nothing mysterious about it but in order to avoid errors it is necessary that the matter be given some previous attention.

VOTER, go to the BARBER next Tuesday and you will come away looking clean and decent.

HAS some diabolical power bewitched all railroad management and all railroad employes so that they cannot run their trains without a daily accident? Enough railroad accidents for twenty years have been crowded into as many weeks.

So vast are the ruins of Pompeii that they cannot all be excavated, at the ordinary rate of progress, before the middle of the next century—on the European plan that is. Chicago would have the whole place cleared up, and choice corner lots for sale, in just about four weeks from the time when the first cartful of ashes was taken away.

VOTER mix some CLAY in your next legislature soil, it will not wash out as easily as some other stuff you have been using.

We need men. The country needs men. Next Tuesday show your manhood by going early to the polls and casting an honest, manly ballot, untarnished with corruption, one that the fumes of liquor has not saturated nor the love of gold debased. Listen to no Siren voice that will induce you to vote against your honest and sure convictions.

THERE is no doubt in the minds of the best judges that the election will prove a great republican victory in Talbot. The democrats put on a bold front but beneath it all there is that fear and trembling which completely gives them away. The *Ledger* is especially full of anti-victory notes, and by its tone one can easily read between the lines, "while we hope for success, we are most certain of defeat."

THE art of making a good oyster stew is not equal to the making of a good oyster STEW ART for the next House.

MR. WILLIAM H. WITHGOTT of Easton, has sent in his application and letters of recommendation to the department at Washington, and has also had some flattering words from Mr. Gibson in his behalf. Mr. Withgott wishes to be Assistant Inspector of Steam Boilers for the district of Baltimore, and is well qualified for the position. He has numerous and strong letters, and is well known in this town as a master mechanic and steam engineer. We hope he will be successful.

OYSTERMEN, make for yourselves a good HALL next Tuesday, it will pay you handsomely.

A GERMAN Egyptologist endeavors to prove that Benjamin Franklin was not the deviser, but merely the rediscoverer of the lightning conductor, as he claims that he has abundant testimony that the ancient Egyptians used a form of this useful instrument for protecting their temples against discharges of atmospheric electricity.

YOUNG man, do not be afraid to show your HAND on election day, it is a good one.

UNFIT TO GOVERN.

Excepting during the Administration of James Buchanan it may be doubted if at any time in the history of this country a political party charged with the direction of the government manifested such imbecility as is now displayed at Washington. When Mr. Cleveland came into office only eight months ago the business of the nation was in a sound condition; the revenues were more than adequate to the expenditures; there was no panic or sign of panic in the money market, and all the industries were in full and profitable operation, employing more people and paying to them higher wages than in any preceeding time. To day mills are idle all over the country; business is depressed; uneasiness with respect to the future has replaced confidence; hundreds of thousands of men have no work; the revenues of the government have so fallen off that a deficiency of sixty or seventy millions is within sight, and the shrinkage of values because of the distrust of the predominant party has involved the nations in losses running far into thousands of millions.

In the presence of these calamities, which could not have been foretold one year ago without, in that happy period, provoking derisive expressions of incredulity, we find the party that was summoned to the task of governing the Republic unequal to the duty of performing ordinary acts of legislation. It has a large majority in both houses of Congress; but repeal, which was demanded by its own platform, could not pass the House of Representatives without the help of Republican votes, and only passed the Senate because a majority of the Republicans voted for it. The party, having no fixed principles, has no cohesiveness and no power of united and decisive action.

THE British insinuation, that "the Valkyrie has crossed the ocean, which the Vigilant will never do," isn't in the best of taste. When it becomes necessary to send an American yacht across the ocean to bring back the cup the yacht will go, but it doesn't look now as if it would be necessary for a while.

Two men in New York had a duel with sickles and one was harvested. It was not an affray growing from a trifle. It seems that the aggressor had first lent a pipeful of tobacco to the aggressee, and had been requested to augment the loan by a match.—There are times when the revival of the code cannot be wholly condemned.

WHEN you vote, be not as the democrats, for they love to vote hanging around the booths and on the corners of the streets that they may be seen of democrats. And when you vote use not repeating ballots as the democrats do, for they think they will win by their much voting. They will have their reward and that will be utter destruction of their party and in its place will stand a party for truth and honesty, for good government and equitable laws, for less expenditures and better taxing, for the good of the laborer as well as the oysterman, for the farmer and tradesmen, for all mankind will the republican party stand as sponsor to the people. Vote the republican ticket, this time it is sure to win.

THE Baltimore *News* says: "While Collector of Internal Revenue Murray Vandiver has resigned the position of secretary and treasurer of the Democratic State Central Committee, he is still taking an active interest in the campaign.

Yesterday Mr. Vandiver visited Washington and held a conference with Senators Gorman and Gibson and the Maryland members of the House of Representatives in regard to the condition of affairs in several of the close counties.

It appears that funds for campaign purposes are especially needed in St. Mary's, Calvert, Charles, Somerset, Dorchester, Caroline, Talbot, Cecil and Montgomery conties. The Republicans in these counties are said to be united and aggressive, while the Democrats are torn with internal dissensions and taking no interest in the tickets nominated under ring influence.

THE Columbian Exposition, now closed, has proven itself the greatest, most unique and comprehensive undertaking of its kind ever conceived in the brain of man. Besides it, every previous exhibition of its kind pales into comparative insignificance, leaving it stand as the high water mark of attainment in this line of endeavor. Every American can feel a just pride in this great colossal show, and being the product of the youngest nation, the more glory is ours at its complete success.

In wealth of exhibits, in superb beauty of architectural perspective, and in varid opportunities for diversion and study, we have shown the world the comprehensive mission of an international show, and have laid down a precept that other nations must follow in the future. The Chicago fair has more than duplicated the crowning features of other similar expositions, and has distanced them all in the general magnitude of the whole undertaking.

The Chicago fair has shown us to the world as a progressive people, determined to lead in every undertaking; patriotic, proud of our country and its resources; of our government and its institutions. It has given foreigners who came here, a much better idea of Americans and of America than they have entertained for us in the past, and has brought us in closer contact with the world in general,—We all have abundant cause to be proud of our great exposition achievement, the success of which along every line has been so marked as to leave no room for doubt or conjecture as to its right to be given first place in recounting the achievements of mankind.

WASHINGTON LETTER.

FROM OUR REGULAR CORRESPONDENT,
Washington, Oct. 30, 1893.

The silver question is about to be settled, at last. And the settlement is to be very different from the compromise which a week ago seemed to have been determined upon by the democratic Senators. Voorhees bill is to be passed without any amendment, although Mr. Cleveland endeavored to have it dropped on account of its declaration in favor of bimetallism and to have the Senate pass the Wilson bill just as it came from the House. Ever since the opponents of unconditional repeal announced that they would no longer throw any obstacle in the way of taking a vote on the Voorhees bill one story has followed another in rapid succession, each pretending to give the reason for the unexpected change. Some of these stories were interesting but so absurd that it was easy to see that their only foundation was guess work. It is enough to know that the Voorhees bill will certainly become a law during the present week, without speculating upon the cause of the accomplishment of a seeming impossibility that of getting a vote upon it in the Senate; the inside history of the whole business will gradually leak out. But Senator Garman's statement of the reason is being much talked about. He said, in effect, that Senator Sherman, as the leader of the republicans, and of a majority of those Senators who represented the repeal sentiment, held the key to the situation and dictated terms to the administration and the Senate. This was certainly a remarkable statement to come from a man who is regarded as one of the democratic leaders of the Senate, and if the democrats can get any comfort out of it surely no republican will object.

The Senate is now disposing of the various amendments to the Voorhees bill, allowing Senators to square themselves as best they may with their constituents by remarks on each of them as they are taken up, but it is the general belief that they will all be disposed of and the main bill be passed unamended and sent back to the House by Wednesday at the latest and possibly before then. No delay is looked for in the House, although there may be some trouble about getting a quorum, if the silver men carry out their threat of not voting.

Senator Sherman made a very interesting speech on the financial condition of the government in which he stated that he had concluded to introduce later on as a separate measure his proposition authorizing the issuing of $200,000,000 in five year three per cent bonds in denominations of $50 and multiples thereof instead of offering it as an amendment to the Vorhees bill, as he had at first intended. He sharply criticised the the democrats for not having provided for an issue of bonds in the pending bill and said that the gold reserve fund was now being illegally encroached upon by the administration to pay the current expenses of the government. He also positively stated that the Secretary of the Treasury had no authority under the act of 1875 to issue bonds for any other purpose than to mantain the parity of United States notes with gold. He said in conclusion: "If you leave the Secretary in the present condition of affairs unarmed with the authority to borrow money on the credit of the United States, you neglect your perfect duty when it is plainly called to your attention. Under existing law there is no power to sell any of those bonds except for the purpose of having gold enough to redeem U.S. notes. And no Secretary of the Treasury will dare issue either of these species of bonds (4, 4½ and 5 per cent.) even if the law permitted him to do so." A sensation followed Senator Butler's asking Senator Sherman if the Secretary of the Treasury had asked for bonds and the latter's intimation that he believed he had. It staggered the democratic Senators who are kept in the dark as to the intentions of the administration.

The news from Virginia is very disquieting to the democratic managers. It seemed that O'Ferrall had made his whole campaign on the basis that the silver question would be settled in Congress by a compromise, and now, according to his own frantic telegrams to his democratic friends, the prospect of unconditional repeal has knocked the bottom out of every speech he has made in the campaign and he regards his defeat as probable unless the final vote on the Voorhes bill can be put off until after election. The populists say the Vorhees bill has made it certain that they will carry Virginia, because of the preponderance of the silver sentiment in the rural sections of the State Republicans in Congress are as a rule perfectly indifferent to the result in Virginia. They say that it will not in the end be of any benefit to the republican party to have the populists carry Virginia. They are, however, enjoying the fright of the democratic brethren.

YOUR FUTURE

IS IN YOUR OWN HAND.

Palmistry assumes to tell what the lines in your hand indicate. It will amuse you, if nothing more. The above diagram almost explains itself. The length of the LINE OF LIFE indicates probable age to which you will live. Each BRACELET gives you thirty years. Well-marked LINE OF HEAD denotes brain power; clear LINE OF FORTUNE, fame or riches. Both combined mean success in life; but you must keep up with modern ideas to win it. You will find plenty of these in Demorest's Family Magazine, so attractively presented that every member of the family is entertained. It is a dozen magazines in one. A CLEAR LINE OF HEART bespeaks tenderness; a straight LINE OF FATE, peaceful life; the reverse if crooked. A well-defined LINE OF HEALTH spares you doctors' bills; so will the health hints in Demorest's. No other magazine publishes so many stories to interest the home circle. You will be subject to extremes of high spirits or despondency if you have the GIRDLE OF VENUS well marked; keep up your spirits by having Demorest's Magazine to read. By subscribing to it for 1894 you will receive a gallery of exquisite works of art of great value, besides the superb premium picture, 17x22 inches, "I'm a Daisy!" which is almost a real baby, and equal to the original oil painting which cost $300; and you will have a magazine that cannot be equaled by any in the world for its beautiful illustrations and subject matter, that will keep you posted on all the topics of the day, and all the fads, and different items of interest about the household, besides furnishing interesting reading matter, both grave and gay, for the whole family; and while Demorest's is not a fashion magazine, its fashion pages are perfect, and you get with it, free of cost, all the patterns you wish to use during the year, and in any size you choose. Send in your subscription at once, only $2.00, and you will really get over $25.00 in value. Address the publisher, W. Jennings Demorest, 15 East 14th St., New York. If you are unacquainted with the Magazine, send for a specimen copy. A large QUADRANGLE means honesty; a large TRIANGLE, generosity; long FIRST DIVISION OF THUMB, strong will; LONG SECOND DIVISION, reasoning faculty. The MOUNT OF JUPITER betokens ambition; that of SATURN, prudence; the SUN, love of splendor; MARS, courage; MOON, imagination; VENUS, love of pleasure; and MERCURY, intelligence. Take our advice as above and you will be sure to possess the last and most valuable quality.

ATTENTION FARMERS.

WE ARE IN THE FIELD THIS SEASON with the best and most complete assortment of Implements and Machinery ever offered on the Eastern Shore. First come Plows, and the "Bissell" leads them all in lightness of draft and best work in all conditions of land. Next comes the "Oliver" pattern plow manufactured by Bissell, which is, we claim, superior to any Oliver sold; this plow we have sold a great many of during the past and present seasons and can give a host of references supporting our claim. Lastly comes the "Advance," which is too well known to need any comments. Of the Harrows we are selling the complete line made by D. M. Osborne & Co., including Spring Tooth, Spike Tooth; and Disc—the Spring Tooth especially being the grandest thing of its kind ever put on the market. One of them last winter sold at a sale for $16 which was within $2 of what it cost originally, the bidding having commenced at $10.

In Corn Planters we have the U. S. Combined Check Row Corn Planter. This Planter uses a plunger direct from the check row rod to the rotary seed plates and does away with all the shakebar and center irons between the seed boxes. A single pin spring anchor is furnished with the U. S. and with their use the wire can be drawn the same tension at each end of the field, thereby insuring great accuracy in planting.

Our Sulky Cultivator is the "Akron," which is already at the top of the heap both as a cultivator and as a fallow worker.

We are still selling the Osborne Binders and Mowers, which are most reliable, and also the Empire Binders and Mowers, which are new to this section, but have more good points than any machine ever sold.

Farm Wagons—We are handling the "Jackson" and "Auburn." The Jackson is the old Webster very much improved and no one should think of buying a wagon without seeing them. To continue to enumerate all the good things that we have would take up so much of your time that we will cease with the assurance that no matter what you may want we believe we can suit you from a shoe peg to a traction engine.

P. S.—Barb Wire is lower than ever before. Do you need some? We have a large supply

E. T. NICOLS.
