☞ ADVERTISING RATES FURNISHED UPON APPLICATION AT THE OFFICE.

SATURDAY, - - NOVEMBER 18, 1893.

AFTER an honest and fearless Court has had an opportunity to show its opinion of the infamous frauds of last Tuesday week, we shall expect John Y. to display quite a number of sick roosters to keep company with the one of last Saturday.

EXTRACT from the Commissions o the Election Supervisors:

"Reposing great trust and confidence in your knowledge, integrity and love of Justice, you are hereby," etc. "to do equal right and justice, according to law, in every case in which you shall act under the commission, freely without sale, fully without denial and speedily without delay, and to hold and execute the said office justly, honestly and faithfully," etc.

THE tenor of the letter in this issue from Mr. Preston B. Spring, (than whom none higher stand for honor, integrity, true to convictions and all that makes up desirable citizenship,) has the true ring. We welcome all communications of such standing to these columns.

THE editorial of the *Ledger* of last Thursday was characteristic. When Mr. Tarbutton, in '81, contested the seat of Mr. Woodall on the ground of mistakes in the count, that paper did not think it "preposterous." When Messrs. James E. McDaniel and Jos. B. Harrington contested the election of Messrs. Ed. T. Roe and William P. Benson, and Jerome B. Bennett the election of Jas. L. Hand in 1887, the *Ledger* did not think it "preposterous" although the Court dismissed the contests without even hearing the evidence on the other side. But when Messrs. James H. Willis and J. Harold Wheeler, election supervisors, men seclected for their supposed integrity, conspire with John Y. Todd, printer, to perpetrate a fraud on the good people of the county and deceive the voters, the *Ledger* thinks it "preposterous" that any person should object or think of making a contest. Isn't it monstrous that the very men who were appointed to see the law carried out and to secure to the people of our county a fair and honest election, should be the very men who used their office and opportunities their position afforded, to concoct and carry out the most disgraceful fraud that the people of Talbot have ever witnessed?

There is one gratifying feature connected with this infamous transaction, and that is, that up to the present time we have not heard of any sympathizers for the fraud among the most reptable citizens.

THE Democratic papers on the peninsula and in other parts of the State do not give as much glory to Talbot democracy as they did before the facts came out. They are in many cases ashamed of their brethren in this county. Talbot Democratic journals are for ridiculing the republicans and upholding the 'right' of their own conduct, but with it all they are intensely mortified. We have copied in full in another part of the paper an editorial from the Centreville *Observer*. This is well and correctly said, and shows the feeling of honest Democrats where there is no personal interest at stake.

WE are offering the best list of premiums that have ever been put out by any of the papers in Talbot. We would like some of the active young men or girls who want to obtain some of these articles to work for a club. Remember the club price of the paper is all that need be charged—$1.00 strictly in advance. These articles will appear from week to week and if there is nothing you care to work for, get up a club any how before Christmas and you will not be disappointed in the result of your earnings.

THERE is a society in this town that has not had as yet much public notice. It is the Avon Cycle Club. While the active members are wheelmen of not less than eighteen years, yet there are honorary members who are not wheelmen. These have the opportunity to take part in and be improved by the other features of the association. They have long since held a room which they have fitted up in a substantial manner as a reading and meeting room. It is large enough for public entertainments and will be so used. These young men are actuated by the right spirit, and deserve praise and encouragement. The tendency is to elevate and improve in more ways than by the use of the wheel. Such an organization may attract many who might find time for far worse employment.

AS MUCH ridicule may be made of the coming election contest in the Circuit Court as they want, but the fact remains that if there was fraud the honest citizens of the county, irrespective of party, want to know it. Neither does Mr. Dukes or would the others who were on the ticket want to have the stigma of being elected through fraud. They want their positions by the honest verdict of honest voters. They are the ones to demand of the Court that satisfaction be given the Republicans, that is, that an honest investigation be made. Democrats of the right stripe are not in sympathy with deception. And as to the ticket being defeated through the ignorant votes of the colored people, it is no special credit to be elected by those votes. Right is right and must prevail. If the fraud claimed by the Republicans can be sustained those so-called elected will not be the men to accept at the hand of tricksters their positions. If the so-called frauds cannot be sustained the Republicans and Democrats who now think they are deceived by men sworn to discharge their duties fairly honestly and fearlessly, want to be convinced of their error. So for all parties it would be better that imputations of such a grave character be investigated.

EDITOR GAZETTE.—The statement in your last issue that the *Ledger* offered to print the election tickets for $150 is not true. I made no bid nor did any one for me.

G. E. HADDAWAY,
Proprietor Easton *Ledger*,
Easton, Nov. 17, '93.

NOT MUCH GLORY.

SOME of our county papers call the so-called election of Nov. 7th "A Glorious Victory." With the Registration lists tampered with, the judges of election disregarding the law, the election supervisors perpetrating a fraud and $25000 corruption fund we fail to see the "Glory." The truth of the first three propositions is not disputed and we have the authority of Maj. Stewart for the last. On the hustings at Cordova, Trappe and Oxford, we learn that he made this statement. The Major is in the confidence of those who manage the Democratic party and we therefore presume he knew the facts in the case and being a member of church and a Sunday School teacher we assume he would not lie about them. WASHINGTON LETTER.

FROM OUR REGULAR CORRESPONDENT.

Washington, Nov. 13, 1893.

America's would-be Cæsar has taken a step that cannot fail to give his administration a very undesirable place in history. It was the outspoken sympathy and moral support of the government of the United States extended to those who belive in a republican form of government, by every President from Washington to Harrison, that drove monarchy and its trappings from our continent. It would be utterly impossible to portray the indignation felt in Washington when it was officially announced that Mr. Cleveland had ordered that the American sailors and marines, now in the harbor of Honolulu, should assist in destroying the republican form of government in Hawaii, and restoring that of the deposed Queen. At first it could scarcely be believed that the administration would dare take such a step, but it was soon found that it was all too true, and that the United States had a President willing to abuse the trust reposed in him by the people so far as to aid in restoring a deposed monarchy to power.

This is the way one of his apologists puts it: "The President has no idea that force of arms will be necessary. Had he anticipated such a necessity, instead of two American vessels in the harbor of Honolulu there would be half a dozen." In other words, the President was determined that the corrupt Hawaiian monarchy should be restored, if it took the whole strength of our navy to do it. Before these lines are read the infamous course began by hauling down of the American flag will probably have been completed by the wiping out of a republican government and the seating of a queen by force and under the personal orders of a President of the United States.

The indignation felt by republicans is fully shared by many democrats, and more than once the remark has been publicly made, "Cleveland ought to be impeached for this." Not a few people believe that the money of Claus Spreckles, the Hawaiian sugar king, has been an important factor in bringing about this disgraceful denouncement. Spreckles spent a week in Washington a short time ago and made no secret of his belief that the administration would restore the Queen, but everybody thought at that time that the idea was too preposterous to be even seriously considered.

Whether this matter is taken up by Congress will depend somewhat upon the news from Hawaii. Should the very unusual position taken by the administration result in bloodshed, as naval officers and others familiar with the situation on the islands predict, there will be some very plain talk in Congress and it will not all come from republicans, either.

Mr. Cleveland has long been subject to fits of the sulks when things did not go to suit him, and he is now in the midst of one of the worst he has ever had in Washington. He has been to the White House only once since the election and that was to attend a cabinet meeting. One of the cabinet was heard to remark after the meeting, "The old man is as cranky as a sick bear," and it is understood that he has snubbed nearly every man who has seen him since the great democratic defeats.

This administration is certainly contrary, if it is nothing else. It has been kept so busy finding fault with and trying to undo everything that was done by the Harrison administration that it has done nothing itself.—One of the latest cases of fault finding is contained in the annual report of the first Assistant Postmaster General which declares that the experiment of free mail delivery in small towns is a failure and recommend that it be suspended at the close of the year.—The report very graciously admits that the free mail delivery was when first established in the small towns received with satisfaction and delight but it then makes the remarkable statement that as soon as the novelty wore off the residents found it more convenient to call at the postoffice for their mail than to have it brought to their houses by the carriers. I have not the data to dispute the assertion that the village mail delivery is a failure, although I believe that the residents of the villages in which the experimental service now exists will, through their Congressmen, successfully do so.

The improvement in government finances which Mr. Cleveland and Secretary Carlisle were so positive would immediately follow the repeal of the purchasing clause of the silver law has not yet made its appearance. So far in the month of November the government's expenditures have averaged about $200,000 a day more than its receipts from all sources. However the heaviest payments for the month have been made, and the deficit will grow less from now until the first of the month when other large payments have to be made.

The Emerson Boomerang Gun.
THE ONE DOLLAR SIZE
is Guaranteed, even in the hands of a child to bring the boomerang back perfectly and harmlessly.
It Shoots a Crescent Shaped Arrow that Returns of Itself!!

It is the most wonderful gun in the world. Its strange action is based upon a law of nature but little understood by most people, but with an absolute certainty of result. The directions are so PLAIN, SIMPLE and EASY that a mere child in half an hour's practice with this gun can outdo the greatest Australian expert boomerang thrower in existence, though he may have spent a life time in acquiring his mysterious skill.

The American cyclopedia says of the Australian boomerang: "Its effective use requires a skill which Europeans find it next to impossible to acquire." But with the Emerson Boomerang gun which costs only one dollar, a mere boy can bring it back to the right or to the left, though of course the skilful boy can beat the clumsy one every time. In Woods Natural History of Man, it is stated that the making of a boomerang is so difficult that it often requires days of the utmost skill and patience to make a good one. Now they are turned out by machinery and every one warranted. Four are given with every gun and extra ones cost only 50 cts. a dozen, postage paid.

Its use is by no means confined to children or to lawn games.

It has a wonderful fascination for the old as well who seem to find intense delight in the beautiful and almost mysterious flight of the curved arrow that darts suddenly far away when the gun is sprung, and only to pause in its flight and turn about and come whistling swiftly home again as if pulled by some invisible thread, instead of going on and falling to the earth as any other missile would do. The greatest sport with it is when lawn parties are given and an open hoop target is placed behind the shooter, a prize being given to the one who brings the boomerang back through the hoop the most times. The arrow is very sensitive to any inclination given to the gun, and will return to the right or to the left according as the gun is inclined at the time of shooting, hence great chance for fine skill. The gun has spring action. No powder and no noise and *perfectly harmless*.

It takes a part to slip into a bag which is only about 4 inches wide and 30 inches long, and the whole thus weighs less than two lbs. Every gun in a neat bag with target complete. $100.

Given with a club of 4 new subscribers to GAZETTE at $1.00 each. Send all orders at GAZETTE.
