ISAAC A. BARBER, H. CLAY DODSON, GEO. H TRAX, PERCIVAL MULLIKIN, } State Central Committee for Talbot County

THE *Ledger* has adopted the 16 to 1 standard. Many of its readers interpret that to mean it will deviate from the truth 16 times, now where heretofore it won an unenviable reputation in deviating but once.

ALL the great metropolitan dailies with a possible exception of the *Atlanta Constitution* stand by sound money. This shows that newspapers are, as a rule, above the rulings of political tricksters and hoodlums. Common sense and the general interest in the welfare of the Government shapes the course of a great newspaper.

THE coming primaries and convention should cause every republican to consider carefully what responsibility devolves upon him.

We want our representatives in Congress to be men of calibre, not merely boy orators of the "You-scarce-expect-one-of-my-age" sort. Men of brains, who can see through a mill stone, men of voice who can say what they know, men of character who can be trusted. Is there a man in this congressional district yet spoken of who answers to those conditions and requirements better than Isaac A. Barber? We not only want men sent to the district convention from Talbot who can support Barber, but who can lead others to support him.

FROM STRONG DEMOCRATIC SOURCE.

Baltimore *News:* It is unnecessary to decide whether you are going to vote for McKinley or not; but it is necessary to decide beyond a peradventure that you are not going to vote for Bryan. A vote for Bryan means a vote for the abandonment of the gold standard. The very moment he is elected the dollar that passes from hand to hand will cease to be the equivalent of a gold dollar. Any man who is firmly opposed to the deliberate debasement of the money of the country is in duty bound to declare himself against the election of Bryan, and to do what he can to make his opposition effective.

N. Y. Evening Post: A barber in this city handed a bullion dealer who happened to [illegible] his shop on Saturday a Mexican silver dollar, and asked him what he would give him for it. He replied that the bullion value was 53 cents and that he would take the dollar from him at that price, to which the barber replied, "You can have it. I gave my customer a hair-cut, shampoo and shave, equal to 75 cents; he handed me this dollar; I gave him a quarter change; so I am out 47 cents on the transaction." The bullion dealer answered: "That is just what will happen every day if we go on a silver basis." The shop was full of people, who all loudly declared that they would vote for McKinley and sound money.

From N. Y. Sun.

WHAT IS A POPULIST?

One who believes in the Government loaning money on farms to parties without intention of repaying it. After the farms are fully plastered with this form of green goods then repudiate the whole business.

WHAT IS AN ANARCHIST?

One who believes in knocking everything into confusion, with dynamite or anything else, with the hope of getting more than his share in the scramble. A quick and complete form of repudiation.

WHAT IS A SOCIALIST?

One who believes in a paternal form of Government, forcing those who have managed to save something by thrift to give it up for the benefit of those who have nothing—the dullard, the spendthrift, the lazy.

WHAT IS A SILVERITE?

One who believes in fiat money, differing from the Anarchist, Socialist and Populist only in the per cent. of repudiation, they repudiating all, while the Silverite repudiates fifty per cent. at the present stage of events.

THE "VOICE" MISREPRESENTS HOBART.

THE *Voice* is an organ of the Prohibition party, published in New York City. In its weekly issue of June 25, the first number after the nomination of McKinley and Hobart, it charges in one of the bold headlines of an article that "Hobart is related to a Paterson (N. J.) beer trust," and in the article itself has this paragraph which is especially mean as coming from a paper making such high religious professions. It says:

"Five years ago an English syndicate had its eye on all the breweries in the city of Paterson, and proposed to gobble them all up if possible. Mr. Hobart then appeared upon the scene with a scheme involving the consolidation of all the breweries of the city under one management. He went to work, and the result was the organization of the Consolidated Brewing Company, of Paterson. For manipulating the preliminaries and perfecting this brewing trust, Mr. Hobart is said to have received $50,000. The company was capitalized at $1,000,000. Two trustees look after the interests of the company's bondholders. Mr. Hobart is one of these trustees. Many people believe that he is a stockholder in the concern."

The headline and paragraph above quoted were seen by Mr. David A. Bell, whose articles have frequently appeared in these columns and who has just been visiting in Easton. He was born in the same county in New Jersey with Mr. Hobart and was with him in the New Jersey Legislature. Mr. Bell wrote Mr. Hobart the substance of the above imputation from the *Voice* and has received a reply from which we are permitted to print the following. Mr. Hobart writes:

"I am not connected, directly or indirectly, nor have I ever been, with the beer manufacturing or selling business, in Paterson or elsewhere, in my whole life. Five years ago I was employed to effect a consolidation of four beer concerns, which I did and ended my engagement with the same. I never even professionally represented them, or any of them since, and have no interest whatever, and never have had except to collect my fee."

This should be conclusive proof that Mr. Hobart, the Republican nominee for Vice President, has been unfairly aspersed by the Prohibition paper, the *Voice*, whose zeal has made it to overreach itself. Whatever service he has rendered has been simply in the line of his legal profession and because of his ability, and for that service he has received the fee which it was his right to ask and the disposition of his clients to pay.

Some time ago the one-year old child of Mr. M E. Lindsley, of Franklin Forks, Pa. had a very severe attack of colic. She suffered great pain. Mr. Lindsley gave her a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy and in ten minutes her distress was gone. This is the best medicine in the world for children when troubled with colic or diarrhoea. It never fails to effect a prompt cure. When reduced with water and sweetened it is pleasant for them to take. It should be kept in every home, especially during the summer months. For sale by Harry Roberts Easton, A. D. A FEW POINTS.

These are truths to which it is proper at this time to refer:

This is the first political campaign since 1864 in which the business interests of the country are all arrayed on one side.

The boy orator business has stampeded Conventions before, but the whole country never. High office in the United States is not at the disposal of emotionalism and a glib tongue.

The only persons who would benefit by the free silver coinage would be those who were in debt, by their ability to pay their debts at fifty cents on the dollar. Neither that nor any such scheme of repudiation will wash with the people.

The theory of the silver men that there is less money now in circulation than formerly is a delusion if they know nothing about it, and if they know the facts it is a falsehood. Since 1860 the population of the country has somewhat more than doubled, while the money in the country has almost quadrupled.

The man who bets that the good sense and honor of the American Republic will fail at this crisis, bets that seed time and harvest will not come again. The honest money candidate, McKinley of Ohio, must and will be elected.—*N. Y. Sun*, Democrat.

A BILLION DOLLARS AT STAKE.

N. Y Tribune: There are now in the savings banks of the United States deposits amounting to nearly $2,000,000,000, the property of nearly 5,000,000 depositors, the individual accounts averaging a little under $400 each. Every dollar of that stupendous sum was, when deposited, worth 100 cents. Every dollar of it is today worth 100 cents. But the moment free coinage of silver at 16 to 1 should go into force every dollar would be reduced in value to about 50 cents, and nearly a billion dollars of the common people's money would be lost. The man who had deposited $100 worth 100 cents each would be able to draw out only 100 so-called dollars worth 50 cents each. The average deposit will still nominally be $400; actually it would be only $200. The aggregate for the whole country would still be $2,000,000,000 in name; in practical value and purchasing power it would be only $1,000,000,000.

This would effect all parts of the country. The majority of depositors are in the East, but there are myriads in the West and South. Iowa has nearly 80,000 depositors, with accounts aggregating nearly $30,000,000; Minnesota 43,000 with $10,000,000; South Carolina, 17,500, with $4,600,000; California 169,000, with $127,000,000. What do these depositors think of the scheme for scaling down their accounts one-half? How do they propose to vote upon it? A billion dollars are at stake. Not the money of the "gold bugs," of millionaires, of national banks; but the hard-earned savings of the common people. Is such a sum to be sacrificed in order that a ring of gold-contract-making silver speculators may be enriched?
