A FATAL CUTTING AFFRAY.

FRANK WARE KILLED BY JOSEPH THOMAS MONDAY MORNING.

Both Baltimore Negroes—Row over a Game of Cards—Ware Slashed with a Razor—Thomas Held for Trial.

For a long time disturbances, more or less serious, among the colored population of Easton have been of weekly occurrence, and sometimes even more frequent, and this week furnishes the most serious affair yet, a murder case.

Joseph Thomas and Frank Ware, from Baltimore, and another negro named Robert Lemmons were playing cards in the second story of Lewis K. Edgell's livery stable on East Dover street at an early hour Monday morning. Lemmons withdrew from the game, whereupon Ware challenged Thomas. The latter proved a poor player, and Ware ridiculed him.

Hot words passed between them, and Thomas dared Ware to go outside. The latter attempted to do so, but another man held him back. Thomas then picked up a keg and threw it at Ware, who seized a board to defend himself. Thomas slashed his right arm with a razor, cutting the arteries and muscles from the shoulder to the middle of the forearm. Dr. James B. Merritt was summoned, but medical aid was vain, and the unfortunate man died that afternoon.

Thomas was arrested by Constable White upon a warrant issued by Justice Nicols. He had made no attompt to escape, and offered no resistance.

Drs. Councell and Merritt made a post-mortem examination of the body and found that Ware had bled to death.

A jury of inquest was impaneled by Justice Nicols, acting coroner, as follows: Joseph H. White, foreman, Harry G. Councell, Charles A. Stoops, J. L. Walker, Robert M. Coulby, William T. Carpenter, Lewis K. Edgell, A. D. Cook, William Flowers, J. S. Staton, Albert H. Shannahan, Solomon Covey. They rendered a verdict that "Frank Ware came to his death from wounds inflicted by a sharp instrument, supposed to be a razor, in the hands of Joseph Thomas," and the latter was held for the November term of court.

Ware came to Easton at the time of the Fair. Little is known of him, but his reputation is bad. The prisoner had been employed in Wrightson's cannery. He will be defended by George W. Wilson and R. Rastall Walker.

With murder cases pending in Talbot, Queen Anne's and Charles counties, and criminal assaults committed in Cecil and Frederick, in addition to the lynching in Montgomery, Maryland is getting a rather unsavory reputation.

ARE YOU A THINKER?

Do You Honestly Desire to Solve the Financial Problem?

If so, "The Boomerang, or Bryan's Speech with the Wind Knocked Out," will enable you to do it.

This fascinating dialogue includes the full text of Bryan's famous Madison Square Garden Speech, together with complete answers to each argument by various significant characters. Its style is emphatically popular, and at the same time the arguments controverting the claims of Free Silver are invincible and conclusive.

It has been officially endorsed by the Secretary of the Republican National Committee and by other distinguished Republicans. Price 50 cents.

Many patriotic Sound Money men, as well as Sound Money clubs, are ordering this book in large quantities to distribute among their "Doubting Thomas" friends. You cannot do better missionary work for sound money, sound sense and the nation's honor and prosperity than to help scatter this volume. J. S. Barcus & Co., Publishers, 111 Fifth Avenue, New York.

The Best For Children.

"I believe Chamberlain's Cough Remedy is the best for children I ever used. For croup it is unequalled. It is a splendid seller with us. T. M. ECKLES, Ph. G., Manager Wampum Pharmacy, Wampum, Pa." When used as soon as the first symptoms appear, that is as soon as the child becomes hoarse or even after the croupy cough has appeared, it will prevent the attack. The mothers of croupy children should bear this in mind and always keep the remedy at hand. It is also the best medicine in the world for colds and whooping cough. "I had chronic diarrhoea for ten years," says L. W. Kichlein, a justic of the peace at South Easton, Pa. "No remedy afforded me real relief until I was induced by Chas. T. Killen, the druggist to try Chamberlain's Colic, Cholera and Diarrhoea Remedy. It cured me and for a year I have had no return of the trouble. It has also cured many many others, among them old soldiers who had contracted the disease in the army and given up all hope of recovery. For sale by P. M. LITTLE NEWS NOTES.

The News of a Week Told in Brief Form. Local News Field.

A visiting photographer says the scenery around King's Creek bridge is the prettiest in Talbot county.

The colored schools of Talbot county opened on Thursday, October 1st. The white schools opened last Monday.

The shirt factory of M. T. G. Earle on Aurora street extended, is again in full operation. It started up last week.

Easton is soon to have a brass band. It is now under the instruction of Prof. Bowman, who is well known in Easton.

J. B. Morrow & Co., of Oxford, started up their oyster packing establishment last week with a large force of men at work.

Wm. B. Shannahan and Charles M. Wrightson made a century run on their wheels last Friday. They made the 100 miles in about 8 hours.

Rail shooting is in high favor among local sportsmen. Several gentlemen shot over two hundred birds on Wednesday on Tuckahoe River.

The new addition on the school building at Oxford is about completed. The commissioners were in Oxford last week on an inspection tour.

Egyptian darkness reigned over the streets of Easton Tuesday evening owing to an accident at the electric light station. The large belt on the dynamo broke.

All who attended the Easton Fair were highly pleased. From reports in the local papers it was the most successful fair ever held there.—Federalsburg Courier.

The wind storm Tuesday night blew down a big tree in front of Dr. Bateman's, and in falling it broke the electric light wires. Several poles were blown down and much damage done to houses.

Capt. W. H. H. Perry, of the new steamer Easton, of the Wheeler Line, will soon begin the building of a commodious dwelling on the Marsh farm near Choptank. The Captain's family will occupy it.

The farm buildings on the farm of W. M. Armstrong, near Wye Mills, were burned last week. Loss, $2,000. Insured for $1100 through Charles F. Rich, Centreville, and R. B. Dixon & Co., Easton.

On Thursday morning of last week we had the first frost of the season. It was not a "killing frost" but it showed plainly on planks and chips out from under cover. The thermometer registered 35°—within one degree of the freezing point.

Deputy Clerk of the Court Hollyday announces that no scrapers' licenses will be issued at the Clerk's office on October 12th and 14th, but that he will be at Oxford on the 12th and at Tilghman's on the 14th, for the purpose of issuing licenses.

The populist paper, the *Eastern Shore*, which has been issued in Easton for the past five months, suspended publication last Saturday. The editor will shortly move to Cumberland where he will publish a paper to be called "Uncle Sam."

At a meeting of the School Board this week the contracts and appointments of the following teachers wrre confirmed: Miss Sallie Brindle, Neavitts; Miss Willie Hardcastle, Chapel; Miss Minnie Fleckenstein, Dover Road; Miss Anna Crouse, Royal Oak; Miss Mary L. Norris, Matthews; Miss M. C. Reynolds, Hillsboro; James B. Gibson, Bar Neck.

It seems that some of our voters have been learning some new geography. In the second precinct of this district a man was asked, "Were you born in Maryland?" "No, sah," he replied, "I was bo'n at Easton P'int." In the third precint a man replied to the same question, "No, sah, in Tuckahoe Neck." We have not, however, heard of any more voters trying to read by proxy.

One of our young Democrats, who always knows in advance how a town election is going, denounced the new registration as a Republican dodge. He is evidently not aware of the fact that the bill had to pass a Democratic Senate, nor that the act removed the great partisan advantage that the Republicans would have enjoyed under the act of 1892.

HE WAS TOO TRUTHFUL.

Sad Fate of an Editor That Followed the Example of Washington.

We learn that editor Kurtz was knocked down and raw-hided by Minnie Kibby and a Miss Creel at Augusta Monday morning in the *Press* office. We presume that the girls were angry because of the following news item which appeared in the last issue of the *Press*. It does speak lightly of a very serious matter, but it also speaks in praise and sympathy for him. The girls will probably be very sorry for their rash and violent action:

A BROKEN SKULL AND LOST EYE.

Berry, the ten-year-old son of J. W. Kibby, of this city, tickled the hind legs of a pony with a switch Sunday evening, because he would not stand up to the rack and eat; the pony retaliated by planting one of his feet between the boy's eyes, with the result that the nose was badly broken, the forehead badly crushed and one eye wholly destroyed. The boy will recover; he will not be as handsome as he was, but he will know a great deal more. He was a bright little fellow, and we are sorry for him; experience is a dear teacher, and he has had a lesson that he will remember through life.—*Tribune, Douglass, Kan.*

It is surprising to many that foot-ball players and other athletes regard a sprain or bruise of so little consequence. One reason of this is, they know how to treat such injuries so as to recover from them in a few days, while others would be laid up for two or three weeks, if not longer. Writing from Central State Normal School, Lock Haven, Pa., Mr. W. H. Losch, captain of the base ball club and gymnasium says: "I take pleasure in stating, that members of our base ball club and myself have used Chamberlain's Pain Balm with most excellent results. I unhesitatingly recommend it as the best remedy for sprains, swellings, cuts and bruises, of any that I know." For sale by Harry Roberts, Easton; P. M. Pastorfield, Royal Oak.

TALBOT COUNTY'S HEALTH.

FIRST SEMI-ANNUAL REPORT OF DR. THOMAS ATKINSON COUNCELL.

St. Michaels is the Cleanest Town In the County—Easton's Poor Showing. Report from Other Towns.

Dr. T. A. Councell, Health Officer of Talbot county, has issued his semi-annual report of the conditions of Talbot county and its towns to the Health Board, consisting of the county commissioners.

The Board will hold its semi-annual meeting next Tuesday, when a consideration of the report will be entered into.

So far as contagious diseases are concerned we have cause for particular gratification as but very few have been reported to the health officer.

In his report on the sanitary condition of the different towns he concedes the honor to St. Michaels as the cleanest town in the county. Easton is the dirtiest. The report is as follows:

Easton, Md., Oct. 1st.

THE BOARD OF HEALTH OF TALBOT COUNTY.
—Gentlemen—According to the laws of the State Board of Health, I herewith hand you my first semi-annual report. The statistics are far from satisfactory, as the physicians of Easton and Talbot county, with three exceptions, have not reported any cases of contagious disease. The State law on this point is very weak, and in no case does it require the physician in attendance to report a case of contagion; we can only request that they do so. In every case when the Department has been notified the greatest precaution has been taken; the houses have been quarantined as far as possible, and disinfectants used freely. In some cases we have been compelled to furnish food, as they were not permitted to go out of the house to make their living.

But five cases of scarlet fever have been reported since May 4, 1896, and we have not had a single death. No other contagious diseases have come under our notice.

Every town in Talbot has been visited by your representative, and their sanitary condition inspected. St. Michaels stands far ahead of any of her sister towns and is a model for our other towns to imitate. Trappe, Tunis Mills and Royal Oak follow next from a sanitary standpoint. Oxford, owing to its fine location, would perhaps lead but for the crab and oyster industry, from which many unpleasant consequences result. Easton, our county town, brings up the rear. In many places the premises are not kept as they should be, and the gutters in some parts of the town are a menace to public health. The Commissioners are willing to do all they can, but they complain of no money to push the work.

The Board has always promptly responded to any call for aid, and I most gratefully thank you for your assistance.

Trusting we may be able to render a more exhaustive report at the next meeting, I am very truly yours,

THOMAS ATKINSON COUNCELL,
Secretary and Executive Officer.

The Crop Report.

The crop report for this section, given out by the Maryland State Weather service, is as follows:

All farm work has gone rapidly forward during the past week. The recent rains have put the ground in excellent condition for seeding, and this work is rapidly going forward. Pastures have improved considerably. Late planted potatoes have turned out rather poorly, and the tomato crop is also short on account of the dry season recently terminated. Tomatoes of rather an inferior quality are being shipped to canneries. Some corn remains to be cut, but the main portion of the crop has been harvested with good results.

Royal Oak Items.

Things are very quiet in our vicinity.

Farmers are seeding wheat and putting away their corn crop. Very beneficial rains visited us on Tuesday.

The high winds since Tuesday have caused many of the winter apples to fall and of course bruising them much.

We gladly note the fact that the price of corn has advanced, and hope it is a sign of the times.

The Ladies' Mite Society of the M. E. Church met at the church Thursday afternoon and decided to hold an oyster supper October 21 and 22 at Pebble Beach.

Mrs. Elizabeth Lightbourne has this week been the guest of her sister, Mrs. A. M. C. Moore.

Miss Virgie Kirk, of Bloomfield, paid a visit to Mrs. Annie Seymour this week.

TEACHERS' SAVINGS BANK.

Warm Commendation from an Esteemed Contemporary.

The enterprising town of Easton has started a novelty in connection with its schools that might well be imitated in this city.

This year the teachers there will endeavor to instruct the scholars in a branch of learning that is not taught in any county of the State—that of saving money.

There was recently organized a Teachers' Savings Bank with the School Board as directors and Prof. Chaplain as the cashier. It is proposed to give scholars desiring one a bankbook, and every morning the teachers will collect such amounts as the scholars care to save, and the amounts will be registered in their books.

It is thought that the new bank will be quite a success, and it is hoped that its main object, that of teaching the young to save, will be accomplished.

The idea is a good one and commends itself to other schools who desire to teach a practical lesson in thrift and economy.—*Annapolis Capital.*

Avon Cycle Club Entertainment.

The Avon Cycle Club gave a very pleasant entertainment Thursday evening to the ladies of Easton who have assisted in its annual garden parties. There were present about a hundred visitors. Prof. Morris' orchestra rendered the music. The program included an address by Mr. S. Elliott Shannahan, president, solos by Prof. Wheatley, reading by Mr. Charles H. Hughes, addresses by Rev. Wm. M. Polsal and Dr. Councell, mandolin and autoharp duets by Prof. Carroll Edgar and Dr. T. A. Councell, banjo solos by Mr. Wm. L. Hull, violin solo by Prof. Morris and cornet solo by Mr. W. W. Spence. An oyster supper followed the conclusion of the program and was under the charge of Mr. S. A. Meintzer, caterer. The evening was a most delightful one and was enjoyed by everyone present. Messrs. W. Harry White, Thomas M. Bartlett and M. M. Wright were the reception committee.

Our New Assessment.

The Chestertown *Transcript* says: The assessors are progressing as rapidly as possible with the revaluation of property in the county. The outlook is that while the taxable basis of personalty may be slightly increased, the basis of realty will fall so decidedly short that the general result will be a decreased basis and an increased tax-rate. This condition of affairs is due almost entirely to the enormous depreciation of real estate values. Kent will hold her own with any county in the State, however, and there will be a uniformity in the result. All classes of property will be assessed at a valuation nearer its real worth. The shrinkage in Talbot county will be about 20 per cent. The tax-rate this year is the highest ever known, and the *Gazette* says that of next year promises to be higher still.

Populists in Convention.

The Populist Convention of the First District of Maryland assembled in Easton on Thursday. About 20 delegates were present, representing about 8 per cent. of the party's strength in the district. Dr. H. W. Hunt, of Federalsburg, was chairman of the meeting, and Hiram Vrooman, Esq., acted as secretary. The committee on resolutions recommended that the Populists indorse Joshua W. Miles, the Democratic candidate for Congress, provided that the Populists be conceded one elector on the Democratic ticket. If refused, they will indorse no one, but vote their individual preferences, but "under no circumstances to vote for a goldbug." The request will doubtless be granted, and Dr. Barber's defeat will surely (?) be accomplished.

The Assessors' Work.

The assessors of Talbot county are still in Bay Hundred and are pushing the work as rapidly as is possible, but numerous drawbacks have been met with, which prevents the work from proceeding as fast as they would like. It is doubtful if they will be able to finish in the time alloted.

County Commissioners' Meeting.

The Commissioners met on Tuesday and gave permission to use the court rooom by the following parties on the dates named: Democrats, Tuesday, Sept. 29th; Populists, Thursday, Oct. 1st; Prohibitionists, Tuesday, Oct. 6th. Accounts amounting to $3,474.67, including two school bonds of $500 each were paid. W. T. H. Lee, collector for 1895 paid in $440.

A LARGE DUTCH COLONY

TO BE ESTABLISHED ON CHOPTANK RIVER, IN CAROLINE COUNTY.

Desirable Immigrants from Missouri and Other Western States—More to Follow—Advantages of Maryland.

Maryland is soon to have a colony of thrifty Hollanders, and it is generally believed the arrival of about 40 persons who are expected in a few days will form the nucleus of a large and thriving community of these desirable foreigners.

It has often been a matter of wonderment to the average person why the better class of immigrants who came to this country departed at once for the far West, where the winters are more severe and the draughts more intense than here; where they suffered untold hardships and privations when they could have occupied some of the thousands of unoccupied acres of Maryland, with a good climate and easy access to market for their farm products.

The reason has been a simple one when understood. They went far West because they knew little or nothing of the attractions of Maryland and the advantages which exist here that are unknown in the bleak wilds of the western country. At last, however, they have begun to realize that Maryland is a paradise in comparison with the rough and rugged West and eastward the course of empire is taking its way.

The members of this colony are all prosperous and of the best class and are now located near Lebanon, Mo., the home of "Silver Dick" Bland, and in Iowa and Michigan. They will colonize a tract of land in Caroline county on the Choptank river. The settlement will include about 2500 acres of land, which was purchased for the purpose by the Prudential Land Company of Baltimore, which has considerable property in Talbot.

The settlement will be known as Wilhelmina, after the girl-queen of Holland, and it is believed that as soon as the first arrivals become settled and realize how much better it is in this State than West, large numbers of others will follow. Cars have already been engaged to transport the cows, horses, farm implements, household goods and other belongings of the newcomers. The idea of a Holland colony in Maryland is being advanced by the State Bureau of Immigration, and letters have been received by the Bureau from natives of Holland living in southwest Michigan, western Iowa, South Dakota and eastern Kansas, who desire to remove to the proposed settlement on the Eastern Shore.

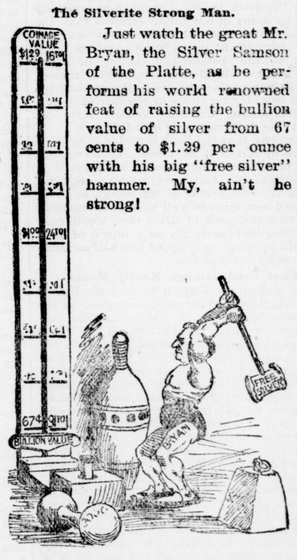

The first members of the proposed colony, Messrs. G. J. Westervelt and H. De Boer, are now on the site of the new settlement. A minister in Nebraska has written to Superintendent Dryden of the Bureau that he is preparing to bring 50 families to join the colony.

An appropriation of $500 has been made by the county authorities to shell the roads running through the settlement, and 25,000 bushels will be spread over them. The Hollanders are planning to organize a church, and hope to have a building erected for this purpose and secure a "dominee," as the pastor will be called, within the next six months. Arrangements are also being made to build substantial houses for the new settlers.

In speaking of the action of his people in determining to leave their present homes, Mr. Westervelt said that owing to the lack of markets and the high freight charges they could not make any headway at farming. The soil, he said, was not rich, and required unusual labor to till. It was hilly and rocky. The flat lands of the Eastern Shore and the proximity of large cities affording good markets, appealed to the Hollanders.

The colonists will engage in truck farming, and the land will be divided into farms averaging 50 acres each. Mr. H. J. Van Wanderberg of Iowa, who spent several days in Caroline county recently, returned home full of praise for the opportunities presented to thrifty immigrants in Maryland, and has written a number of letters to persons in Holland and in the West, urging them to come to this State.
