AN AMERICAN PRESIDENT

IS WILLIAM M'KINLEY IN EVERY PARTICULAR.

He Will Act in the Maine Matter for the Best Interests of thi Great Nation. Foreigners, Take Notice.

There is no cooler man in Washington than President McKinley. Says a epecial Washington letter to the GAZETTE, though his is the greatest individual responsibility in deciding what action shall be taken upon the report of the Naval Court of Inquiry. Senator Chandler, whose relations with the President are such that his opinion is as good as that of any other man, said: "It is barely possible that the character of the document may be such as to render it inexpedient to give it out until Congress can be gradually made aware of its contents. If, for instance, it indicates beyond doubt the official culpability of the Spaniards in connection with the Maine disaster, it would not be wise to place Congress in immediate possession of the facts officially, for fear that war would be declared instantaneously, and without due regard for all the conditions." One thing is certain, Congress and the public will have the report at the earliest moment it can be given out without detriment to public interest.

Another certainty is, that President McKinley will not allow himself to be influenced by any of the numerous stories as to what European nations may think that he should do, but will act solely in the interest of the national honor of the U. S., without regard to the probable approval or disapproval of his action by any European power or powers. The Maine was our ship, the Court that made the investigation and report was composed of our Naval officers, and it is our affair to take what action we please upon that report, and we are going to do it. This isn't spreadeagleism, but plain everyday patriotism, which is shared by every American whose heart is in the right place.

The gun shop in the Washington Navy Yard reminds oldtimers of the war time activity in the same yard, but upon a different class of work. During the war this was strictly a Navy Yard; now it is only a Navy Yard in name, its principal work being the making of guns, some of the finest in the world have been and are being made here, mountings, and ammunition for the Navy. Not a minute is now being lost in the Yard, one of three eight-hour shifts of men being continuously at work.

I have found the Cough syrup specially useful in croup and the Diarrhoea Remedy acts like a charm in all disorders of the bowels." For sale by H. Roberts, Easton, Md.

KLONDIKE GOLD FOR EVERYBODY.

You Can Stay at Home and Make a Sure Hit, Or You Can Go to the Fields and Chance It.

If you go, we can sell you a partnership interest to work on one of our claims and you can prospect for more.

THE STAY-AT-HOMES,

however, are likely to do better than those who do go who expect to find something. To do this is simple. For the past four months we have been straining every energy to get good properties, and we now have about 3000 acres of proven values (equal to 150 full United States Government claims.)

The season will open about April 1 to operate the same, and we will need some moneys for these purposes, and for this reason we are selling stock still at the ground-floor price, 50 cents per share, par value $1.00. The price will be largely advanced in April. You can invest $5.00 and upward. This is your last chance to get in at low rates—on a sure thing—where, according to reliable expert report, each $1 invested now will, in a reasonable time, return from 25 to 50 fold.

Remember, we are the leading company in all that goes to make up a desirable investment. Further particulars by mail or at office.
