S. ELLIOTT SHANNAHAN, Local Reporter and Foreman

Easton, Maryland, August 13th, 1898.

IT is probably a weakness of human nature for one to think himself capable of attending to the other fellow's affairs better than that other fellow can attend to them himself. Editors have that element of mind to contend with about as much as do those of other professions and therefore we hesitate to critise the action of those whose line of work has its peculiar difficulties, and who have doubtless wrestled with all the problems connected therewith.

And yet it is considerable of a puzzle to Eastonians to understand why the management of the excursion trains to the Rehoboth Camp should tantalize the patrons who have to connect with said excursion trains by use of the D. & C. railroad. The Queen Annes R. R. is advertised in our papers and posters are placed under the noses of our citizens stating that on certain days excursion trains will run to Rehoboth, giving the time of departure of train at each station on the going trips and merely stating that the excurtion train will leave Rehoboth at 5 p. m., on the returning trips. In the absence of other information the passenger is left to assume that the excursion train will make as good time returning as going and that it will make the same time as the regular train leaving Rehoboth at 5 p. m., as scheduled. This time will give him six minutes ahead of the train over the B. & C. from Queen Anne's to Easton.

With this argument before them, coupled with the supposition that even railroad men would not be such logger heads as to miss making connections of trains when it was in their power so to do, a party of Eastonians went to Rehoboth on last Tuesday. The excursion train went and returned on time—to the minute, but side tracked at Hillsborough to allow the east bound train to pass while the passengers saw the D. & C. train go before them just out of reach, and in spite of their return tickets, had to leave the station at night fall, and find their way to Easton over fourteen miles of wet roads amid rain and lightening as best they could.

So it remains a question of doubt whether the Queen Annes road is trying to accomodate the people it is bidding for or not. Why it could not have left five or ten minutes sooner and dumped its passengers at the crossing and backed to the siding is not easily explained by the laiety. Perhaps the railroad men could explain it.

PAY your taxes this month and get the benefit of the greatest discount. This is good business management even if one has to borrow the money at 6 per cent. to do it. In the first place it gives one the record of promptness—not a bad record to have. In the second place it actually lightens the burden which is of necessity a preferred judgment upon the property, and instead of being charged six per cent. for delinquence, you will only be paying two per cent. additional for a year—that is the difference between the discount gained and the interest paid on the borrowed sum. Prompt payment of taxes places funds in the hands of the county to be immediately circulated again. There is absolutely no gain by delay, but on the other hand something to lose.

Pay your taxes, both county, State and town, this month.

TURKEY has refused to pay the $100,000 that we justly demand for the destruction of the property of American missions at Harpoot. The Sultan, evidently believing that we have about as much as we can attend to at present, has so informed our retiring Minister. Turkey, he says, cannot hold herself responsible for the outrages of turbulent brigands and infuriated mobs in the less protected portions of her territory. This is merely a polite way of marking "N. G." on the back of our bill.

It is reported that Sampson may be ordered to take his fleet to Turkish waters and collect it. An American squadron at Smyrna or Salonica would have more effect upon the Porte than a thousand courteous and unassuming diplomats. The trouble with Turkey is that she believes she can refuse with impunity. Sampson's fleet in Turkish waters would undeceive the Sultan.

THE republican primaries will be held to-day from three to five o'clock in the various precincts of the county. Four delegates will be chosen at County Convention next Tuesday to represent the county in the Republican Convention to be held at Ocean City Sept. 15th. We have heard of no opposition to Barber and are of the opinion he will be nominated on the first ballot, if not by acclamation.

IT is curious to note if it is true, that the Americans killed in battle in the war number 266, just the number that perished with the Maine.

SPAIN'S message of peace seems to be, "You've licked us, now we must do as you wish, but make it as easy as you can."

NOW look out for the war heroes who never smelled powder.

GENERAL HUMIDITY will please move into winter quarters.

HENCE THE AUGUST TRADE SALE

OVERPRODUCTION IN FURNITURE.

Mechanical power in furniture-making produces too great a quantity of everything. There are times in the year that the factories are obliged to stop until the excess of stocks is turned into bread and meat, or its equivalent, to feed the workmen.

Even the shrewdest calculators among manufacturers come to dull periods in the year when they must "shut down their works," much as they dislike it. Then merchants may become philanthropists, if they choose to assist in converting the wood and labor into weekly wages to keep the workmen's market basket going and the rent paid up until brisk times come around again.

A PLAN NINE YEARS OLD.

Ten years ago we made this discovery, and nine years ago we made some plans, which we have worked upon successfully each year. It is an entirely different thing from an August sale of the odds and ends of the stock, to galvanize business in mid-summer.

The real thing is a novel thing—a worthy thing—a fine thing for our customers, as well as the manufacturers—this gathering from selected workers in wood of their best well-proven manufactures—such pieces and sets, made by their best workmen, between seasons, when their travelers could not get orders on the road, and putting them into an August sale, rated to cover the cost of wood and wages.

AT THE PRICE OF WOOD AND WAGES

You see the idea. It keeps together and gives wages to the good workmen, and is a benefit, without a profit, to the furniture makers. Nobody, so far as we know, does the same thing with furniture that we do, and our August Trade Sale is arranged for months ahead.

The MASSACHUSETTS MUTUAL LIFE INSURANCE Company, of Springfield, Mass.

The following lelter from Mr. N. M. Tabor, the well known Colorado millionaire is well worth your consideration:

Denver, Col., January 28, 1890.

GENTLEMEN:

In reply to your favor of the 25th asking for my estimate of the value of life insurance, I beg to say that I carry a large line for two reasons:

First, No man is infallible. Some misfortune that he cannot ward off may take from him his accumulated fortune, whether it be large or small; and a policy, such as I have, would afford a competence for old age.

Second, I consider that one dollar of cash to an estate in event of death will usually save two dollars to the estate.

Yours truly,

N. M. TABER.
