THE HOME FOR FRIENDLESS CHILDREN.

THE ONLY CHARITABLE INSTITUTION IN EASTON.

Will Complete a Quarter of a Century of Wise Philanthropic Work in January Next.

THIS worthy and well ordered Institution under the care of the Diocese of Easton, has during the past week been the happy recipient of many valuable and substantial gifts. Those in charge wish the fact be known that both press and pulpit have been filled by the many friends throughout the Diocese with those good things that make cold and hunger a thing unknown to the little waifs who enjoy the fruits of those generous contributors. A short visit to that "Home" will convince even the most thoughtless of the blessedness of giving, and of the untold benefit that such institutions play in society by supplying to capable children the means and methods of self-support, and of creating in them the desire and ambition to lead such lives, even though humble, that that greatest of possessions, good character may be known and cultivated. Cultivation and character are largely the results of environment, and as habits form in childhood, they will last through life. At this "Home" these habits of cleanliness, neatness, promptness and accuracy are instilled in the children during their daily work and life. The Dormitories are scrupulously clean, and while intentionally plain, they possess every comfort necessary for the maintenance of health and development. Through the generosity of several parishes and individuals, new iron bedsteads, neatly enamelled and furnished with every appointment have supplanted those in former use, and present an appearance that would gladen the heart of any weary one. A bright sunny room set apart for the purpose, has been furnished as an Infirmary, which, it is said, is rarely used, so good is the health of the children. Here single cots stand ready for the needs of any child who may ever be sick, completely isolated from the rest of the house.

In the kitchen, laundry and sewing room the children are taugh to cook, wash and iron, and sew. These useful occupations form an Industrial School, which in after years will be the means whereby these future women can earn an honest living. Under competent instruction, they are taught the common school branches, and receive that religious training without which all work and effort are vain. The condition and order of the work in progress reflect credit on those responsible for the "Home," and it would be well were such institutions multiplied on our Shore, where industry could be cultivated, and made to bear fruits of happiness. Such interest is manifested that various parishes and individuals have made these generous donations. Through the courtesy of MissDryden, the matron, the following list of Thanksgiving donations is appended, and grateful acknowledgment is made to those who have heeded the command "Feed my Lambs."

$3000. Worth of Talbot Turkeys.

Editor GAZETTE:—Last week being rather warm, the weather was very unfavorable for dressed poultry, nevertheless we sold over $3000 worth from Talbot County. Turkeys sold from 15 to 16 cents a lb. Geese—the weather was not cold enough for them to sell well, as they were not in good condition. They sold from 10 to 12c. Good poultry will sell right along now when the weather is favorable. It takes good cold weather for geese to sell to advantage. Yours truly,

J. W. MELONEY, New York.

Death of Miss Fennell

Last Tuesday morning Miss Marie Fennell, the sister of Mrs. J. G. Morris, of Miles River Neck, was buried from Christ Church, Easton. Miss Fennell was living with her aged mother at Atlantic City, where she was convalescing from typhoid fever. While reading to her mother, she became suddenly ill, and died shortly after her attack. Her mother is now with Mrs. Morris.

Fine Stationery at Wheatleys.

Prof. Wheatley has just put in a very handsome line of stationery which he thinks should please the most fastidious. He has all kinds and colors and shapes of rag and linen papers and has marked them at a very reasonable price. He also can receive monogram paper at moderate prices.

TOLD IN BRIEF.

Happenings of the Week in Condensed Form.

Improvements in the Easton Post office, as foretold exclusively in the GAZETTE last week, are completed with the exception of one or two minor details. The change seems to have met with general approval from all the office patrons, and the increased number of lock boxes proves that the demand for these conveniences was great, as many of the new ones have been taken up.

The Young Friends Association met last Monday evening at the residence of Dr. I. A. Barber, Henry Shreve in the chair. Miss Laura Shinn, Secretary. A highly entertaining program was before the Association. The article on Christian Martyrdom in Russia, read by Mrs. Helen C.Shreve,was exceedingly instructive.

It is reported that in the spring Turner's Addition will take on a building boom, as a number of parties are contemplating building in that newly opened section. The town commissioners have under consideration the opening up of a new street through the addition.

On Thursday evening from seven until ten, Mrs. T. J. Smithers gave at her home on Washington Street, a handsome tea which was largely attended by her many friends. This is one of a series given by the ladies of Christ Church for the benefit of the Parish Building.

The new combination electric and gas chandelier of Ebenezer M. E. Church, containing over 500 different pieces, was put together by Mr. A. A. Hughes. It contains 110 lights, and a smaller one in the organ loft has 15 lights, making a total of 125 lights in the room.

Mr. Frank Fish has completed a most artistic piece of decorative work on the show pipes of the M.E.Church. He has made them to correspond with the general decoration of the church. The figures are in gilt, sea green and red and are very graceful in design.

The bell for the town clock has been shipped from Troy, N. Y., and is expected to arrive in Easton today. Mr. Flowers expects to hang it in the tower at once. The founders of the bell claim that on a clear, calm day the bell may be heard six miles.

The Queen Anne's Railroad will run an excursion to Baltimore next Thursday, the fare from Queen Anne being $1.30. The steamer will arrive in Baltimore at 11 A. M. and leave at 3.20 P. M. Tickets good to return the same or following day.

Mrs. Chas. Comegys entertained the Young Ladies Euchre Club at her home on Thursday afternoon. The membership is large, and the meetings are highly enjoyed by all who attend.

Work on the Court House has been considerably delayed by bad weather of late. The slate roof is now nearly on, and will be completed in a day or so. The interior work is being pushed rapidly.

Dr. Barber's new flour mill is about completed, and he now has double the capacity of the old mill, besides greater conveniences in handling and storing grain and flour.

Low mass will be said at SS. Peter and Paul's Church to-morow at 8 A. M., and high mass with sermon at 11; rosary and benediction with sermon at 7.30 P. M.

The moon will enter last quarter on the 6th, be new on the 13th, first quarter on 19th and full on the 27th.

The stores of Easton are assuming their holiday attire. None prettier on the Peninsula.

As soon as the Grand Jury were discharged the Magistrate's Court began.

Two Pointed Questions Answered.

What is the use of making a better article than your competitor if you cannot get a better price for it?

Ans.—As there is no difference in the price the public will buy only the better, so that while our profits may be smaller on a single sale, they will be much greater in the aggregate.

How can you get the public to know your make is the best?

If both articles are brought prominently before the public both are certain to be tried, and the public will very quickly pass judgment on them and use only the better one.

This explains the large sale on Chamberlain's Cough Remedy. The people have been using it for years and have found that it can always be depended upon. They may occassionally take up with some fashionable novelty put forth with exaggerated claims, but are certain to return to the one remedy that they know to be reliable, and for coughs colds and croup there is nothing equal to Chamberlain's Cough Remedy. ADMINISTERING THE LAWS.

MANY OFFENDERS CONVICTED AND SENTENCED.

A Great Number of Liquor Cases—An Interesting Suit from Kent—Chapel Very "Wet."

THE present session of the Circuit Court for Talbot County has been one of the busiest in the history of the county. Fifty-seven presentments were made by the Grand Jury, which completed its labors on Tuesday. Offenders, old and new, have been made to feel the heavy hand of the law, and the "Cut" will have a large Talbot population for the next few months. The following is the record up to the hour of going to press:

John Carl Fountain was presented for forgery, an account of the crime was given in our last issue. He was convicted by a jury, Chas. E. Scotten foreman, and sentenced to five years in the penitentiary. The charge of obtaining money under false pretenses was stetted. Mullikin for State, Tharp and Seth for prisoner.

Luther and Fannie Wilson, Addison and Annie Newnam were presented for rioting and Addison Newnam for resisting an officer; tried before jury, Martin M. Higgins foreman; Luther Wilson and Annie Newnam not guilty, Fannie Wilson and Addison Newnam guilty in both cases.

One of the most interesting cases was that of Miss Lilly Crew vs. Dr. Charles W. Reid, removed from Kent county. The suit was for $5000 damages for injuries resulting from being thrown from a carriage, it being alleged that the horse was frightened by Dr. Reid's bicycle. The case was en, George W. Parker, J. Hackett Morgan, L. A. Callahan, Henry M. Ziegler, Charles M. Larrimore, James Ahern, John W. Anthony and W. H. Warner. The new dealers will be Messrs. Walls, Reed and Larrimore, tried before a jury, J.H. Caulk Kemp foreman. Richard D. Hynson and Harrison W. Vickers appeared for Miss Crew, Marion deKalb Smith and Edwin H. Brown for Dr. Reid.

Fifteen persons were recommended for license to sell liquor in Chapel District, a larger number than ever before, it is said. The number recommended last year was fourteen. The list consists of William A. Walls, James T. Whitby, James E. Reed, John A. Morgan, William E. Turner, Spencer W. Calloway, John M. Beavwhile Daniel G. Barber and Charles Rhodes are dropped.

The number of convictions for violating the local option law has been uncommonly large. Six persons have been found guilty and one acquitted. Strange to say, this one was the notorious offender of other days, Roxie Hicks.

Improved His Dwelling.

Mr. J. J. Wright has just completed some very handsome improvements in the interior of his residence on Goldsborough street, which probably entitles him to having as comfortably an arranged home as there is in Easton. A graceful bay window was built on the west side, which on the lower floor lights the hallway and forms a cosy alcove. A vestibule was built inside the hall and wainscoted and floored with colored tiles. The walls are in plastic relief work. The hallway is also beautified with a tile mantle, topped with carved oak, ond French beveled plate glass. Cheviot wall paper of Roman design in relief is used in the hall, and in the drawing room the wood work is white enameled with embossed ivory wall paper, and with a beautiful tiled mantle. The dining room is finished with burlap on the walls to a height of four feet, the remainder being in tinted felt paper. The entire house is heated with hot water radiators, and is indeed a beautiful home—beautifully furnished and arranged.

Convocation at Centreville.

The winter session of the Middle Convocation of the Diocese of Easton was held on Monday, Tuesday and Wednesday of this week in St. Paul's Church, Centreville. On Monday at 7.30 P. M., Evening Prayer was read, and addresses delivered on the Apostolic Commission: 1. "Go Ye into All the World;" 2. "Preach the Gospel;" 3. "Baptize."

On Tuesday at 11 A. M. Morning Prayer was read, with sermon, and in the evening, addresses were delivered upon the Parables of the Advent: 1. The Foolish Virgins; 2. The Talents; 3. The Judgment.

Wednesday being St. Andrew's Day, the service consisted of Morning Prayer with sermon and a celebration of the Holy Communion. The addresses at the evening service were upon the Work and Working Organizations of the Church: 1. Needs of the Age; 2. Brotherhood of St. Andrew; 3. The Woman's Auxiliary.

The Middle Convocation, of which the Rev. James A. Mitchell is Dean, comprises the counties of Talbot, Caroline and Queen Anne's. The next meeting will be held in May, at St. Andrew's Church, Sudlersville.

Annual Almanac and monthly paper, Word and Works, are now known from sea to sea. We are pleased to call the attention of our readers to the Almanac for 1899, now ready. It is a splendidly printed and illustrated book of 116 pages and the storm forecasts and diagrams and astronomical and scientific matter are superior to anything that has ever been seen before in a 25 cent book. His monthly journal, Word and Works, is one of the best literary, home and scientific magazines in the country, besides containing his monthly storm forecasts with explanations. The subscription price of Word and Works is $1 per year and a copy of the Hick's Almanac is sent as a premium to ever yearly subscriber. Single copies of Word and Works, 10 cents. Price of Almanac alone, 25 cents. Send your order to Word and Works Pub. Co., 2201 Locust St., St. Louis, Mo. t-12-17

Will Strike Christmas Day.

The town clock will strike the hour of twelve on Christmas day for the first time, it is thought, but if it shall be found impossible to complete it by that time then it will usher in the New Year. The committee are considering some plan for a demonstration when the clock strikes for the first time.

Late Literary News.

Much interest has been excited in America by the telegraphic accounts of Hooley's apparently wholesale purchase of British noblemen for use as decoy ducks to his various stock schemes; and his connection with the highest political officials of the Empire. Thereon C. Crawford, who has been in England for The Cosmopolitan, takes up the subject in the November issue of that magazine, and under the title of "Hooley and His Guinea Pigs," gives a connected story of the derivation of Hooley and his rise to the control of millions through unlimited cheek and the opportune willingness of distinguished British aristocrats to lend their name for a financial consideration to any sort of a shady transaction.

TO CHANGE THE COURT HOUSE

BY PROVIDING A STORAGE ROOM ON THE GROUND FLOOR

For the School Commissioners' Books—A Widely Signed Petition for this Improvement.

M. B. NICHOLS is interested in the circulation of a petition to the Board of County Commissioners which has for its object the alteration somewhat of the ground floor of the Court House other than the plans submitted by the architect.

Mr. Nichols and the some sixty signers of the petition think that the big lobby is a waste of space and that part of on either side should be utilized in making two new rooms, one on the North side to be used as book storage room for the School Board, and on the South side as a private consulting room for the County Commissioners or for the tax collectors, or both.

If these changes were made it would still have a hallway of about 9½ feet wide, which in the opinion of the petitioners is a great sufficiency, when the convenience of having the two additional rooms is considered.

It was the intention of the Commissioners to fix up a book room in the cellar with shelves, but it is feared by the School Board that dampness would affect the books stored there, and offer as another reason the great inconvenience of getting books into the cellar and in having to go up and down the stairs so manytimes a day.

The gentlemen interested have pushed the matter and it is expected that the petition will be presented to the Commissioners on Tuesday as there is but little time left in which to make the changes, if in the wisdom of the board they see fit to do so.

A HANDSOME CHURCH.

Re-opening of Ebenezer M. E. Church, Tomorrow—Special Services.

The Ebenezer M. E. Church, which for several weeks has been in the hands of skilled workmen undergoing thorough repair, will be re-opened tomorrow, Sunday, Dec. 4th. A general testimony meeting will be held at 10 A. M. in charge of Mr. Walter H. Thompson; preaching at 11 A. M. by Rev. T. E. Terry, of Harrington, Del. Mr. Terry is a systematic thinker, fluent speaker, and instructive in all of his pulpit ministrations. Special services for the Sunday School will be held at 2.30 closing promptly at the usual hour. The Epworth League Meeting, in charge of Mr. F. A. Shannahan, the League president, at 6.30 P. M., and preaching by Rev. T. E. Terry at 7.30. The Church has never looked so neat and really beautiful as now. The blunders so often made in repairing churches have been avoid

mittee superintending the work. The congregation and friends are manifesting their appreciation of these improvements by promptly subscribing the amounts asked for, and there is every indication that all the money needed will be available.

Church Notes.

The announcement was made last Sunday that the Rt. Rev. W. F. Adams, Bishop of the Diocese of Easton, has taken under his personal supervison All Faith Protestant Episcopal Church, Tunis Mills, and has appointed as its rector the Rev. W. Y. Beaven. This church has been without a rector since the departure of the Rev. C. T. Denroche some years ago, and the people of that parish have been deprived of church services. That regular services will now be inaugurated is a bit of gratifying news to the large congregation of that neighborhood. Mr. Denroche is now doing splendid work in Kent county.

The Christmas basket of the Woman's guild of the Cathedral is on exhibition at the Saturday market, corner of Dover and Harrison streets today.

TWO GOOD MEN AND TRUE

ARE THOSE IN THE CHARACTER SKETCHES BELOW.

Mr. Shreve's High Standing in Business, Political and Religious Circles—Mr. Mitchell's Silver Anniversary.

Splendid Type of American.

It seems to be a conceded fact from all quarters whose authority is worth considering that the American branch of the Anglo-Saxon people has surpassed in racial qualities all previous types of man. It is also a well-known fact that the American nation is a composite one, made up of a heterogeneous mass of people, whose origins have sprung from other nations, differing most widely in distinguishing characteristics, yet, although most mixed, are none the less distinctly Anglo-Saxon. It would seem that the great strength of this mighty race is in itself so strong that it possesses the power to absorb, nourish and replenish itself with the vitalities of other nations less strong, by amalgamating and assimilating them into its own fibre. How few generations are needful to efface the foreign tongue, manner, name and aye! even the very lineaments themselves from the German, Frenchman or other foreigner. A few years' residence in America makes him and his children Americans, and often of the strongest type. In studying individual Americans as we find them, it is necessary to untangle to some extent these intricate threads of mixed nationality in order to ascertain whence traits of individual worth spring, and what part they play in the composite entity of an American citizen. For this very reason ancestral analyses are difficult, as has been shown by shrewd investigators, and one thus wittily concludes his researches:

"English, Scotch, French and Spanish,
German, Italian, Dutch and Danish,
Crossing their veins until they vanish,
In one conglomeration!
So subtle a tangle of blood, indeed,
No modern Harvey will ever succeed
In finding the circulation."

In the present sketch, however, we find a fellow-townsman, Mr. Henry Shreve, who traces his ancestors directly to one of those good old English families, whose very name indicates the relationship sustained to both king and country. Mr. Shreve's family name is first found in the records of the reign of Edward II. (1307—1327), that unfortunate monarch of England who, on account of his gross misgovernment, paid his country's penalty by deposition from his throne and the sacrifice of his life. In those days the counsellor of the king was known as the "shereve," later as the "shrieve." From this word has been derived "sheriff," a very different officer but one sufficiently related to obviously [illegible] tors occupied this honorable position under the king, we infer, as was common then, that he assumed the name of his office.

The grandfather of Mr. Shreve was Lieut. John Shreve, who served at the age of 13 in the Revolutionary War as ensign or color bearer for the Second New Jersey Regiment in its expedition against Quebec. This position of such responsibility and labor is a silent proof that the boy was made of patriotic fibre, and his worth thus known and recognized. Another fact in his life displays his manly ambition and desire for culture. To obtain his education, he with a companion walked from Lake Champlain to Philadelphia, a task in those days more dangerous than romantic.

Later under Washington's command he was engaged at the battles of Monmouth and Brandywine, and suffered with his commander at Valley Forge. He also accompanied the expedition of General Sullivan that succeeded in breaking the alliance of the "Five Nations." It is from his grandfather's Revolutionary record that Mr. Shreve owes his eligibility to membership in the Society of the Cincinnati.

Another interesting ancestor was Henry Shreve, for whom our subject was named. At New Orleans, in 1815, during the battle when Jackson so signally defeated the unfortunate Packenham, he conveyed the noncombatants to Donaldsonville, on the first steamer that ever plied the Mississippi or Ohio rivers. He was the first to sail up the Red River to its farthest navigable point, where the now flourishing city of Shreveport is situated and named in his honor.

Mr. Henry Shreve was the son of Dr. Solomon Shreve of Ohio. He was born in 1844, and lived in his native State till 1877, when he came to Talbot County. For 8½ years he was postmaster at Alliance, and in 1882 was appointed to a similar position in Easton by President Arthur, succeeding in that office Mr. W. H. Councell. He married Miss Helen Coates of Philadelphia, whose ancestors founded the town of Coatesville, in the State of Pennsylvania. Her mother's family were Huguenots, and descendants of an ancestor who was distinguished by a blood relationship to Maria Theresa of Austria. Mr. Shreve has one son, Olen Forrest, who is now a student at the Johns Hopkins University. He has been a prominent member of the Republican party, and an active member in the Society of Friends. He is now in business with the Nickerson Fertiliz[illegible] Company of Easton, and occupies [illegible] position in the esteem of our pe[illegible] is an honor to himself and a[illegible] of his worth.
