TIME TABLES ADJUSTED.

Managers of Pennsylvania Railroad and Connections Arrange Fall Schedule.

A schedule meeting of the Pennsylvania Railroad, Southern Railway, Florida East Coast Railway, Plant System, Atlantic Coast Line, Norfolk and Western and Chesapeake and Ohio Railways was held at the Pennsylvania Railroad Station in Washington, Thursday and remained in session until a late hour in the evening, important changes of schedules being determined upon.

The annual announcement of the operation of the New York and Florida Limited, leaving New York, Twenty-third street, over the Pennsylvania Railroad, at 12.40 P. M., and Washington over the Southern Railway at 6.35 P. M., arriving at Savannah 10.33 A. M., Jacksonville 2.35 P. M., St. Augustine 3.45 P. M. and Tampa 10.05 P. M. the following day, was made. It is thought that the hours of departure from Eastern cities and arrival at the palatial Florida hotels, as arranged by this schedule, are the most satisfactory to the large tourist travel that have yet been operated.

Other trains over the Pennsylvania Railroad and Southern Railway will leave New York at 12.05 A. M. and 2.55 P. M., the former carrying the United States fast mail and having through Pullman cars to Miami, Fla., connecting with steamer for Havana. The fast mail for Atlanta, Montgomery, Birmingham, Mobile and New Orleans will leave New York at 12.05 A. M., as at present. The Washington and Chattanooga Limited leaving New York at 2.25 P. M., and the Southwestern Limited leaving New York at 4.25 P. M. for New Orleans, Memphis and other points, remain upon their present fast schedule. New train service from Cincinnati, Ohio, and Louisville, Ky., for Florida points via the Southern Railway was also announced. The Cincinnati, Florida and Havana Limited leaving Cincinnati at 8.30 A. M., Louisville, Ky., 7.46 A. M. arrives at Jacksonville 8.30 A. M. the following day. Another train leaves Cincinnati at 8.00 P.M., Louisville 7.45 P. M., and arrives at Jacksonville 10,00 the following night and Tampa the following morning. The Pullman and dining car service was announced as more extensive and complete than heretofore, the New York and Florida Limited and the Southwestern Limited being equipped with library observation, drawing-room and compartment cars. —*Washington Post, Nov.* 4.

A Magnificent Publication Upon Th South.

The wonderful progress which the South has been making in all lines of industrial, commercial and intellectual development has been most fittingly set forth in a magnificent volume, which, after months of careful preparation, has just been issued by the Southern Railway.

This book, the title of which, The "Empire of the South," conveys an idea of its character, is beyond question one of the most comprehensive and at the same time artistic publications ever issued from the press. It contains nearly two hundred octavo pages, over four hundred exquisitely printed illustrations, and makes a presentation of Southern interests in all lines of human activity, which for thoroughness of treatment has never been approached.

The opening chapter of the book under the caption of "The South Yesterday, To-day and To-morrow," discussed in a broad and forcible manner the present and future of the Southern States, treating at considerable length the various interests, such as agriculture, cotton, tobacco, iron, coal, resorts, climate, etc. Following this are chapters devoted to each State south of the Ohio and Potomac, and east of the Mississippi rivers.

These give brief, interesting sketches of the early history of each State, and touch upon all its important activities, showing the progress being made not only by the state itself, but by the leading cities.

The author of the work, Mr. Frank Preshrey, is a close student of Southern progress, and in the collection and preparation of the immense amount of important information given in the book, has had the cooperation of the officials of the Southern Railway. The distribution of this magnificent volume will do an incalculable amount of practical good in calling the attention of the world to the South, and the Southern Railway has demonstrated its faith in the future of that section by the expenditure of the many thousands of dollars which this great work must have cost. This book can be obtained from Chas. L. Hopkins, District Passenger Agent, Southern Railway, 828 Chestnut St., Philadelphia, Pa., at fifteen cents per copy.
