Blakeford Guernsey Gives 11,062 Pounds of Milk

A registered Guernsey cow, Blakeford Lady Revelaina, owned by Blakeford Farms, Inc., Queenstown, put 11,062 pounds of milk and 643 pounds of fat into the country's bread basket. This production represents approximately 5,349 quarts of high quality milk. This is according to the official Advanced Registry record released by the American Guernsey Cattle Club. "Revelaina" was a senior three-year-old and was milked three times daily for 365 days, and met calving requirements. Guernsey cows on officil test have steadily increased roduction over the years. The average cow in the United States produces only about one-half as much as the average pure-bred Guernsey on official test. The sire of "Revelaina" is Blakeford Formidable. 34 sons and tested daughters of this bull are listed in the Performing Register of the American Guernsey Cattle Club.

This record was supervised by the University of Maryland.

From where I sit ... *by* Joe Marsh

A Winner Every Time!

Last Friday at our big basketball game with Centerville I sat next to a fine-looking old man. Centerville had things their way the first half — and he cheered every score they made.

But our boys began to catch up. Then Stretch Brown put us in the lead with a long set shot, —and I noticed that the old fellow was now rooting for *our* side. "What team are you for, anyway?" I demanded.

"Neither," he replied. "I've got my own team. I figure *any* kid that does a good job out there is on my team. Root for the individual like I do — and you'll always back a winner!"

From where I sit, maybe it is a good idea to keep our eye on the individual, instead of automatically grouping him on teams you're "for" or "against." We're all individuals at heart, with our likes and dislikes — our right to prefer tea to coffee or beer to buttermilk ... our right to "blow the whistle" when anyone tries to regiment us.

Save $4.00 per ton

on Southern States
FORMULA FEEDS
During February
On Purchases of ½ Ton or More

Southern States Cooperative has again taken the lead in helping farmers ease the squeeze between dwindling farm income and continued high costs of producing milk, meat, and eggs. Southern States and Cooperative Service Agencies have joined in arbitrarily slashing prices on formula feeds during February at the rate of $4.00 per ton under current bag-lot prices, on orders of one-half ton or more at one time (one or more feeds may be included in total order). This reduction applies on all feeds except (1) Southern States Drought Emergency Dairy Feeds; (2) Southern States feeds supplied under contract feeding programs; (3) scratch grains; (4) grain goods; and (5) ingredients.

Though prices have been cut sharply, there has been no reduction in the usual high quality of Southern States feeds. They will continue to give you the most for your feed dollar.

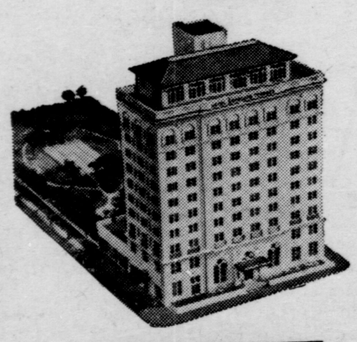

Look What This Means to You

- 20 cents saving on every bag of feed you buy
- $20.00 more profit in raising 1,000 broilers
- About 1 cent more profit in producing eggs (about 25 cents a case)
- $30.00 more profit per month in feeding a herd of 50 dairy cows
- $1.75 more profit for each 200 pounds of weight gain in hogs
- $45.00 more profit in raising 1,000 Beltsville White turkeys
- $125.00 more profit in raising 1,000 Bronze turkeys
