NEW IDEAS
For Home-makers
By RUTH WYETH SPEARS

DO YOU remember how old-fashioned comforters used to be tufted? They were made of two layers of fabric with cotton between and every four inches or so in rows the three layers of material were caught together with a stitch of wool yarn double which was then tied twice and clipped to make a tufted tuft. Well, that is exactly the way many of today's smartest chair covers are made. A cover of this sort re-

deemed this old rocker and revealed its hidden charms. The cover is plain, medium green glazed chintz tufted with dark green yarn and three inch dark green fringe is used around the bottom. A long zipper makes a center back closing. Each section of the cover was fitted on the chair in the muslin lining first and these pieces were used as patterns for cutting the chintz, also the cotton which was trimmed to be 1/2-inch smaller all around. After the pieces were tufted, as shown at the upper right, the seams were stitched up. Long stitches were then made on the inside to catch the edges of the cotton in place.

NOTE: Are you planning to make slip covers this Spring? Mrs. Spears' Books 1 and 3 tell you exactly how. Book 1 gives directions for fitting and finishing slip covers for chairs and davenport. Book 3 shows you how to make a pattern first; also how to arrange openings in covers for chairs of unusual types, and how to anchor slip covers so they will stay neatly in place. Books are 10 cents each. Send order to:
