TIPS to Gardeners

BULB SUBSTITUTES

WITH the supply of many popular spring-flowering bulbs cut off because of the war in Europe, gardeners are seeking certain substitutes.

The color and form of many annual flowers makes them excellent choices for replacing the bulb favorites. As in the case of bulbs, the seed of these annuals may be planted in the early fall, for blossoming early the following summer.

The fresh yellow color of Daffodils, for instance, may be captured nearly as well in the petals of Sunshine Calendula, or in the rich hues of California Poppy (Extra Golden).

The soft colors associated with the Tulip may be replaced best by Larkspur, with its tints of white, blue, pink, rose, lilac, and carmine. The newer, tall-growing Super Majestic Larkspurs are most desirable.

The blossom-crowded spikes of Snapdragons are likened by many to the Hyacinth. It is best to grow the dwarf rust-resistant strains of Snapdragons, with attractive varieties such as Compact Bedding Bronze, and Salmon Pink adaptable also because of their suitability for massed bedding, as Tulips are so often used.

That Nagging Backache

May Warn of Disordered Kidney Action

Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strains on the workings of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!
