

**Quiz Shows More Popular Than Ever**

In spite of an increase in Quiz shows, the radio fans have not tired of them. On the contrary, Gunther's Quiz of Two Cities, a battle between Washington and Baltimore people, is drawing such large audience that the Broadcasting studio had to be moved to the large Maryland Casualty Auditorium. Here fifteen hundred people jammed the auditorium for the last three performances. And this particular Quiz show is now completing its third year.

**CRYSTALLIZED ROSE PETALS:** Select highly scented fresh roses, dark red, such as "Rome Glory" preferably, and wash well. Remove petals and drain. Remove white, pulpy base of petals as this has bitter flavor. Beat the white of one egg to a foam. Dip small pastry brush (or use fingers) in egg white and brush both sides of rose petal well. Be certain that no surplus egg white remains on petal but that both sides are moist. Shake granulated sugar on both sides of the petal and place on a tray to dry in the ice box. Use same process for mint leaves. These may be used for trimmings, or curled as a rose bud for decorating, combined with mint leaf on a cup cake. This gives that French pastry decorator's touch. These are perfect with tea. Delicious.

**PRICE & SON, CHESTER, MD.**

**EVEN** before there was a telephone, there was a laboratory—that of Alexander Graham Bell in Boston, where the telephone was born. That was 64 years ago, but the telephone is still being invented.

Telephone service is what it is today because engineers have never stopped working to learn more about speech and hearing. In the Bell Telephone Laboratories hundreds of scientists engage in constant research. The results? You can talk more easily and be heard more clearly today over the telephone because of these men of science.

From these Laboratories, among a thousand and one other things, have come new types of telephones, cables no thicker than your wrist carrying 4200 wires, even the wire networks over which nation-wide broadcasts come to you.

The Chesapeake and Potomac Telephone Company—YOUR company—shares with the other twenty-three regional companies of the Bell System in the benefits of the Laboratories' research. And every telephone user benefits in the better service it makes possible.

\* LISTEN to "The Telephone Hour," N.B.C. Red Network—Monday Nights at 8.
