

Hunters and Fishermen Fees Set a Record

Boatmen from the state of hunters and anglers license for the fiscal year 1946 were the greatest in the history of Maryland, according to the annual report of the State Game and Inland Fish Commission made public yesterday.

The sale of hunting license totaled \$200,000, a \$40,000 increase over 1945, and the sale of anglers license brought in \$100,000, an increase of \$12,000 over the previous year.

These returns, the principal source of income of the department, which is self-supporting, represent sales of \$1,150 hunting license and \$1,100 anglers license.

It is expected that these figures will be topped during the current fiscal year by possibly \$100,000 or more, yet not according to Harold E. Kuhn, commission secretary.

The annual report was the twenty-eighth and final report of E. Lee LaCombe, who served last year from the post of State Game warden.

It stated that at the time of Mr. LaCombe's appointment in 1935, there was \$500 in the State Game warden's fund, the result of the game warden's division over \$200,000.00 and the fish division \$20,000.00, or a total of \$220,000.00.

The unexpected balance in the State Game Protection Fund was \$100,000.00 and the Angler's License Fund \$100,000.00—a total of \$200,000.00 credited to the commission.

Universal Training To Continue in State

Army plans for a postwar National Guard with initial strength of 62,000 called into new divisions yesterday by House Military Committee members.

The plans were announced at a secret meeting last week of a subcommittee appointed by Chairman May to draft a new National Defense Act.

Although the initial objective of the Guard has been set at 62,000, members of subcommittee said the Army hoped eventually to build the personnel to 70,000.

The Army's detailed plan outlines no mention of universal training, but members said that many youths trained under a universal military training law would join National Guard units.

The long-range program contemplates one of the National Guard as "an integral part and a first-line reserve component of the postwar military establishment... capable of immediate expansion to war strength, able to furnish units for service anywhere in the world trained and equipped."

WATCH OUT, GIRLS—MEN ARE GETTING SCARCE

The supply of marriageable young men simply won't meet the demand, say the experts, and those available are not looking for the chicks. The pin-ups or men the chicks read what a noted research authority has to say on the important subject. NOW! You Get a Full Size Complete Edition OF THE BALTIMORE NEWS-POST and SUNDAY AMERICAN

ONCE again The Baltimore News-Post and the Baltimore Sunday American combine to give you a FULL-SIZE, COMPLETE newspaper, just like the editors read in Baltimore.

Under wartime newspaper rationing it was necessary to curtail the number of pages of our papers, particularly those editions sold out of Baltimore.

We are happy to announce that effective at once you will find in each copy of The News-Post or Sunday American ALL THE NEWS—ALL THE ADVERTISEMENTS—ALL THE GREAT FEATURES that for years have made these newspapers so popular with Maryland readers. We are grateful for your intelligence during the trying days of the war when newspaper rationing prevented us from always giving you the kind of newspaper we would like you to have.
