THE YOUNGER SET

The Younger Set

Whenever you see the Finder girls from Queenstown, they are always alone or with their brother. "Well, girls is that the best you can do?"

Maybe the Quimby boys should buy a a station wagon. Really four couples make it quite crowded in one car.

Carville Nelson seems to be walking around with his head held high. He is one proud boy these days. Why? He gets the '46 Crysler at Bill Denny's. You'd be proud too.

Word has been received from Pvt. Raymond J. Barker, originally from Grasonville, has arrived at Furstenfeldbruck, Germany. He is detail Sergeant of U. S. Air Corps. "Good Luck, Ray."

Billy Schultz and Donald Wyatt sure look lost without Johhny Courtney. Too bad. Miss him already.

Would like to know if N. P. is having any trouble persuading her parents to move into town so she can have more dates.

Does S. C. still carry the torch for a certain Jones from Grasonville?

Saddler Clevenger talks too much. He has all the girls marrying too—no dates—!! Since you've already bought your hat you can try harder. What happened to you during the hour and one half you told the lady you'd be shopping but—didn't?

If a certain fellow from Grasonville, doesn't have his money, in his pants any tighter—it might prove embarrassing again!

It is funny how a heart-breaking little queen of Queenstown has reservations in "Scott's car" in the movies. She tries to make sure that no queen of Grasonville may takes her "back" seat. Nice loving Miss J. R.

It seems that each little group has its special place to sit. At the next dance. Why not change around a little and each pick a different place so it won't get you all in a rut?

Mary Catherine Bryan is beginning to hear bells. Wouldn't be "Wedding Bells" would it, Mary Catherine?

Here's a few things concerning the dance.

Would like to know who that group of "Ramons" were, who attended the dance.

Everyone was wondering why Eunice Hunter was so over joyed Friday night. Understand that you received word from the one and only—"Lucky Girl"!

We believe there has been a slight break up between "Bernie and Jimmy Courtney." Tell us Jimmy, did someone cut you out or something?

We think it's wonderful the way the boys now adays are learning to dance. It looks so much nicer now that there are so many boys on the floor as girls. "Keep it up, fellows!

Well, kids that's all for this week.

Bye Now.

ORDER OF PUBLICATION

WESLEY H. WILSON, Plaintiff
versus
MARY MADELINE McGRATH WILSON, Defendant

IN THE CIRCUIT COURT FOR
QUEEN ANNE'S COUNTY
IN EQUITY
Chancery No. [illegible]

The object of this suit is to procure a decree of divorce A Vinculo Matrimonii by the Plaintiff, Wesley H. Wilson, from the Defendant, Mary Madeline McGrath Wilson.

This Bill of Complaint recites that the parties were married on October 19, 1942 at Centreville, Queen Anne's County, Maryland, while he was in the armed forces of the United States and that they saw each other as man and wife until sometime in the month of April 1943; that though the conduct of the Plaintiff towards his wife, the Defendant, was always kind, affectionate and above reproach, the Defendant without any just cause or reason abandoned and deserted him, and has declared her intention to live with him no longer, and that such abandonment has continued uninterruptedly for at least 18 months, prior to the filing of this Bill, and said abandonment is deliberate and final, and the separation of the parties beyond any reasonable expectation of reconciliation; that no children were born as a result of the said marriage; that the Plaintiff is a resident of Queen Anne's County, Maryland, where he has resided for 2 years immediately preceding the filing of this Bill, and that the Defendant is a resident of Pittsburg, Pa.

IT IS THEREUPON, ORDERED by the Circuit Court for Queen Anne's County, in Equity, and by the authority thereof on this 28th day of January, 1946, that the Plaintiff Wesley H. Wilson, by causing a copy of this order to be inserted in some newspaper printed and published in Queen Anne's County, Maryland, once in each of 4 successive weeks before the 1st day of March, 1946 next, give notice to the said absent Defendant, Mary Madeline McGrath Wilson of the object and substance of the Bill of Complaint, warning her to be and appear in this Court, in person or by Solicitor, before the 18th day of March, 1946, next to show cause, if any she has, why a decree should not be as prayed.

Quiz For Marylanders

[illegible]

Answer to Question 1:

Nowhere in America are there more colorful racing traditions than in Maryland. The Maryland Jockey Club traces back to 1743, over 200 years ago. Maryland racing and The Maryland Jockey Club are older than the State of Maryland. Traditions still prevail in Maryland racing, [illegible] an old Colonial law declaring [illegible] of The Maryland Jockey [illegible] shall wear in their badge of office a White Rose. Tradition is a part of Maryland life, [illegible] Preakness Day, tilting tournaments at the county churches, [illegible] and the old yellow and green club house at Pimlico.

Answer to Question 2:

If Maryland's 23 counties divided one million dollars each year, each county would have $43,478 — more than enough to support a Free County Library System throughout the State. No activity in which Maryland engages pays so great a part of your taxes as the racing at Maryland's four racing associations. Racing's annual contribution could support the greatest Free County Library System in America.

IS IT TRUE THAT MEMBERS OF THE MARYLAND JOCKEY CLUB BY COLONIAL LAW MUST WEAR A WHITE ROSE?
RACING'S ANNUAL CONTRIBUTION TO THE STATE COULD SUPPORT A FREE LIBRARY SYSTEM IN EVERY COUNTY IN MARYLAND?
WHAT MARYLAND RACE COURSE IS KNOWN ALL OVER AMERICA AS "OLD HILLTOP"?

Answer to Question 3:

Sportswriters nicknamed the Pimlico race course "Old Hill Top" because of a rise in the infield obscuring racing on the far turn. The "Hill" has long since been removed but the old nickname survives. "Old Hill Top" or Pimlico is famous all over America for the fine racing conducted by the Maryland Jockey Club. High class racing benefits Maryland the most. (3)

EASTERN SHORE MEMORIAL CENTER.

In Buying a Memorial or Monument consider the following:

TRUSTWORTHY—have been in the business since 1897
Remember a monument is bought once in a lifetime.
Using the best materials obtainable
Suitable carving or ornamentation.
The concrete foundation for the memorials guaranteed.
Workmanship done by experienced stone men.
Our firm has erected thousands of memorials.
Reason—Satisfaction.
The largest selection (in our showyard) on the Shore.
Here your every wish is taken into consideration.
Your selection from our yard is the memorial that will be erected.

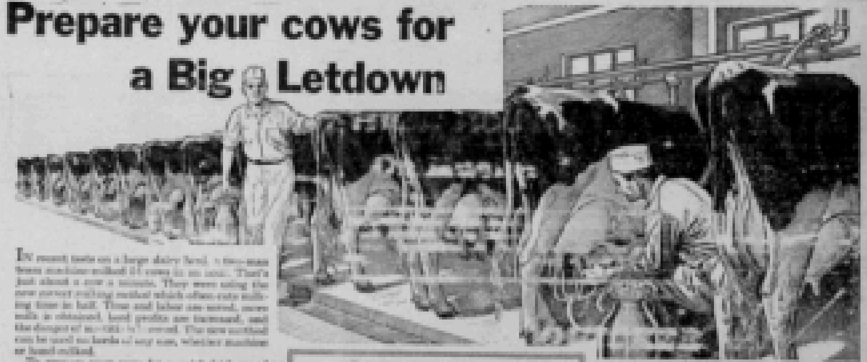
Prepare your cows for a Big Letdown



IN recent tests on a large dairy herd, a two-man team machine-milked 51 cows in an hour. That's just about a cow a minute. They were using the new correct milking method which often cuts milking time in half. Time and labor are saved, more milk is obtained, herd profits are increased, and the danger of mastitis is lowered. The new method can be used on herds of any size, whether machine or hand-milked.

To prepare your cows for a quick letdown of milk, first massage the udder vigorously for 20 seconds with a very warm cloth (130° F.), wrung out of a chlorine (250 parts per million) solution. Second, draw two or three streams from each quarter into a strip cup—which removes milk of high bacterial count and permits inspection for abnormal milk indicating mastitis. These two steps stimulate the cow's milk glands and cause her to let down in about 40 seconds. Milking should be started within a minute after udder massage and finished within four minutes, including brief stripping either by hand or machine. It is good practice to sterilize teat cups in a chlorine solution after each cow is milked.

Heifers respond to this correct milking method. Giving heifers an occasional udder massage before they freshen helps develop them into fast milkers. In the case of cows not previously trained for fast milking, most of them will respond to faster milking if milking time is shortened gradually to from three to four minutes.

An excellent illustrated circular which gives full details on this method of milking may be obtained from the University of Wisconsin, Madison, Wisconsin. Or inquiries may be made to your County agent or nearest Agricultural Experiment Station.

$400 IN CASH PRIZES

Write us a letter (not over 500 words) on "Methods Employed by Meat Packers in Marketing Meats, Poultry, Eggs, Butter, and Cheese."

For the best letter we will give prizes as follows: First, $75; Second, $50; Third, $25; Next ten, $10; Next thirty, $5. Duplicate prizes in case of ties. Contest closes May 1, 1946. We will gladly send you booklets giving information on marketing methods. Address Letter Contest, Department 128, Swift & Company, Union Stock Yards, Chicago 9, Illinois.

THE EDITOR'S COLUMN

Profits Mean Progress

If someone offered you a deal which gave you a chance to make about 1% of the price you received for hogs, or lambs and so, we doubt if you'd get very enthused about it. The profit margin would be too small—about 1% on a $30 hog, or only $30 profit on 100 hogs.

Swift & Company makes thousands of such very low profit deals every day in the year. At the end of the year 1945, for instance, we came out with a profit of only 8/10 of a cent per dollar of sales on our total volume.

The meat packing industry is highly competitive, and many of its products are very perishable. But like you, or any other able businessman, we would be more proud if [illegible] more than that 8/10 of 1% on our business. Profits mean progress, and in order to progress, everyone—producers and meat packers alike—must make more than barely enough to meet expenses.

Producers of livestock and other farm products got 74¢ of each dollar we received from the sale of all our products, including hides, wool and all by-products. You may well ask, "Where did the remaining 26¢ of that dollar go?" The answer is: 13¢ went to all plant and office employes who prepare and market these farm and ranch products; transportation took another 2¢; supplies (fuel, barrels, boxes, salt, sugar, etc.) cost 5.1¢; taxes, 1.4¢; other necessary expenses 3.7¢. And that left just 8/10 of a cent out of the average sales dollar for the development and protection of the business and as a return to the people who have invested their savings in Swift & Company.

When the Going is Tough We Turn to Fundamentals

By Professor A. E. DARLOW, Oklahoma A. & M.

[illegible]

The importance of agriculture and agricultural production was certainly impressed on the average Briton during the war. Food and food production for fighting men and working women were items of first importance. The English farmer did a marvelous job of increasing and maintaining production.

Many have thought that all the effort was on crop production. This is not the fact. Despite the need for all the human food it was possible to produce, the farmers and breeders of Britain have maintained their herds and flocks. There were some shifts and changes in livestock production, but the importance of livestock to agriculture and the importance of livestock production to human welfare were never more fully realized.

Here is a lesson for us all. It isn't theory, but fact brought into sharp focus in a people's fight for existence: that nothing is more important to a nation's economy than its agriculture, and nothing is more necessary to good agriculture than a balanced livestock program.

MINERAL SUPPLEMENT FOR WINTER FEEDING CATTLE

It has long been known that minerals are necessary for the health of animals and even for life itself. Three minerals most likely to be lacking in winter feeds are calcium or lime, phosphorus, and common salt. Many of the roughages fed to cattle may be short in minerals or grown on soils of low fertility. When cattle are fed such feeds, they must be supplied with a mineral supplement containing salt, lime and phosphorus. Also valuable in the mineral supplement are small quantities of other so-called "trace elements" such as cobalt, iron, manganese, copper and iodine. Although only small amounts of these trace minerals are needed, each plays a part in building a strong, healthy animal.

WORTH THINKING ABOUT . . . The successful [illegible] businessman who works his land to produce [illegible] needs what is called capital. The capital which he uses comes from [illegible] savings of his own, or the savings of others that he has borrowed from a bank or elsewhere.

He invests these savings in land, buildings, machinery, and livestock and in other things necessary for himself and his family to produce crops and to live.

When he figures out his results at the end of the year, he, like all other businessmen, measures his success by the return he makes on his [illegible] invested savings. Without a fair return, [illegible] other businesses, [illegible] period of years, fail to average a [illegible] return [illegible] money invested—with the result that the savings are either withdrawn or lost.

Sodie Bill Sez:

. . . that agriculture is about like farming, only in farming you do it.

. . . that the hardest thing to [illegible] about farming is getting up at 5 a.m.

Martha Logan's Recipe for

HUNTER'S STYLE DINNER

Yield: 8 servings

- 2 large bunch celery (about 1 pound)
- 3 large onions (about 1½ pounds)
- ¼ cup lard
- 1½ pounds fresh pork shoulder
- 1 can canned mushrooms
- 7 ounces spaghetti
- 2 cups cooked or canned tomatoes
- 2 cups cooked or canned lima beans
- 1 tablespoon salt

Cut up celery and onions. Fry in half of the lard until transparent, in a heavy fry pan. Cut up the pork into small pieces. Brown well in remaining lard. Cover and cook over low heat for 30 minutes. Cook spaghetti in 2 quarts boiling salted water 15 to 20 minutes. Drain. Add tomatoes, lima beans, mushrooms, browned pork, onions and celery. Season well. Cook over low heat or in a slow oven (300° F.) for 30 minutes.

NOTE: This is excellent when warmed over.
