Here's a Simple Way To Make Slip Covers

THERE are a number of ways to make slip covers. This sketch shows the method of making a pattern from unbleached muslin, of an old sheet, if you do not have the confidence to fit the fabric right on the chair.

Fit the muslin accurately but do not overfit. Allow one-half inch seams and a hem-line tuck to accept the spring seam. 24 yd. 54 in. of 8. Most cost goes with an effort to make every one do a bit of the share-and-share-alike. The new is always done by gathering up the extra fabric under the cushion. Some will cover directions are free. Send a stamped self-addressed envelope for ideas for home with illustrations. Name. Address any 10 cents each. All three your request for.

How To Relieve Bronchitis

Persistent coughing necessarily has caused a great many to turn to creosote (one of the best helps known for coughs) and added other helpful elements in CREOMULSION. Each ingredient has a definite job to do. Together they make a most effective combination. Tell your druggist to sell you a bottle of CREOMULSION with the understanding you must like the way it relieves coughs or you are to have your money back.

The Once Over
By H.I. Phillips

Ideas for UNO

Elmer Twitchell, world famous architect, high-school bicycle and amateur astronomer, came out with a blueprint for complete buildings at the proposed UNO international peace city.

—o—

Mr. Twitchell himself has contributed the funds for two of the most important buildings: a Hall of Nervous Breakdowns and a Hospital for Overworked Interpreters.

—o—

The Twitchell Plan follows:

Drinking Hall:

Large and imposing, to be erected in the very center of UNO so it will be out of key to the whole business. All delegates would be required to visit it before each session.

Special exercises for the Russian nations whenever the Big Four are in a private huddle.

Ice Hockey Center:

Must be especially spacious. When meetings in the regular auditoriums become too rough, adjournment to the hockey center can be taken at once.

Seismographic Building:

In no territory on earth will the prompt detection of disturbances within the earth be more essential. Building should have super type seismographs, and carry spares for use when main ones are broken by disturbances within the UNO itself.

Hall of the Allies:

This building should be as dignified as to have both ways of exit and might even be put on a residential thoroughfare. Special press gallery. Day and night lunch service for periods when the diplomats making the allies and exclusions are having stenog trouble.

Roll Ring:

Mr. Twitchell wants this one designed especially for a few figures whose actions and words make such a place essential. More later!

Most Embarrassing Moments Auditorium:

This months with custom floors and disappearing radiants, with offices to be known as the Fiske Wisdom Annex. Very handy for delegates caught in doubtfuls. (Automatic blush controls.)

Voice Throwing Center:

Should be on outskirts of reservation where notably persistent orators of the filibuster species may keep in shape without disturbing the current sessions, which will be noisy enough.

World Amity Gymnasium:

Special running track (with trap doors) for any speed boys whose specialty is artful dodging, running in excessive circles, etc.

Peaceful Infirmary:

To provide headquarters for building up tissues of the peacemakers and the entire admin. Feature of this building to be science's latest invention, the AM I A Mouse or Man-O-Graph.

UNO and the Bathing Beach

("Appears to be excessive and can does, because of summer heat, to maybe need to a considerable element in admitting the personnel UNO can." — Newspaper item.)

When a fellow's solving problems
Of a very global sort—
When he's striving for more concord
And a peace that won't be short—
When he's busy as a blueprint
And all-embracing plan,
He will want to go in swimming
Just like any other man.

When a crisis is for Denmark
And another one in Greece
And a third in Argentina
Threatened amity to freeze—
When the meddlers are perplexing
And the outlook's very black,
Oh, how nice to find a beachside
There to lie upon one's back!

If the day is hot and humid
And there's talk of further wars
And there is no breeze for UNO
Through the windows or the doors
And the Big Three's brows are dripping
And their chiffrobs watery
Any cause of peace is bettered
By a dive into the sea.

So let nothing interfere with
UNO's chances to a touch
(With a swimming-float, a surfboard
And a cake or two in reach)
Let it never be the verdict
Should war raise its face as prize
"That's what comes of keeping UNO
From a lovely place to swim."

* * *

Gangsters are interfering with radio reception. Happily many of the commercials are now indistinct.

VANISHING ABBREVIATIONS

1—Give me your orders now and I'll have it delivered by morning.
2—"Anemone to let."
3—"Would you prefer South?"
4—Any spark will do as long as it's big enough for four people.
5—"I can—but I need my sleep!"
6—I'll take a dozen shirts, all white.
7—I don't care any words with one hole.
8—The money ain't much, but it's nice work.
