to be discussed and agreements had before the ratification of the treaty. This would make possible

York and Light Gray. He spoke over WLT on the Elmer Cramer Farm, Farmington, where a single elevator removes the feed from the granary to wagon, whereas it is a job in the 4200 overhead." He said, "Close to these feed lots is the feed lot below them, the grain is in it and then elevated to the silos, where ingredients are added. The ingredients feed to the hoghouse and the making up of it is simple as the grinding, and being mixed while it is transferred from one bin to the next by the elevator. Two grades of feed is mixed, corn and the supply is ready to use." Cramer pointed out that the
