Red Cross Relief Appeal.

Last January President Roosevelt made a public appeal for a fund of at least $1,000,000 for relief of sufferers in China. Only $170,000 of this amount has been donated by the public.

At the 1938 annual Red Cross convention, resolutions were unanimously adopted to make an appeal for the remainder of this money. This should be obtained prior to June 15, 1938.

The minimum amount for Calvert County to subscribe is $20. Please send any donations to the Calvert County Treasurer of the Red Cross, Mrs. George Boyd, Barstow, Maryland.

The men, women and children of a friendly people, who are the victims of this tragedy in China, are no more responsible for their plight than if they were suffering from a great cataclysm of nature. Let us out of our comparative abundance give to them in their deep distress this measure of hope and encouragement.

Directions for Appling Blue Mold Treatment.

The following are directions for applying the treatment for blue mold in tobacco plant beds published in the county papers last week:

If the beds are not over 3 yards wide, tack a 3 inch board to one side of border boards about 2 inches below the top all the way around the inside of the bed. Apply paradichlorobenzene on the 3 inch board at the rate of 9 ounces per each 3 or 4 yards or 4 pounds of the parasite for each 100 square yards of bed. Apply the material late in the afternoon and pull cover over for the night, leaving enough space between the covers and material for fumes to float out. Use ordinary covers, rubbed one time. If the weather is clear remove covers the next morning. Repeat the operation every day until the disease is checked or the danger of mold is over.

If beds are wider than 3 yards, it is suggested that 5 or 6 inch boards be placed across the bed 3 yards apart and the parasite applied in the same manner as stated above. Since the gas liberated is heavier than air and will float to the outside of the bed, it is necessary that all border boards be tight. The fumes are effective 14 to 2 yards from the source of supply.

Paradichlorobenzene will probably be handled by a great many dealers in the county, but at the present time it is being sold by the Lusby Motor Co., Prince Frederick.

Kellar, assistant director of extension, spoke and introduced Mrs. Harlan Sprouls, president of the State Council of Homemakers.

The afternoon program was begun with several selections by the Calvert county trio, consisting of Mrs Carrow Frear, Mrs. Hugh Ward and Mrs. C. T. Hutchins, with Mrs. W. S. Williams accompanist. "The Woman's Page in a Daily Paper" was the subject of an address by Miss Malvina Lindsay, Women' reporter of the Washington Post.
