EYE OPENERS—by Bob Crosby

It was in 1896 that Rhodes set out to colonize parts of Africa. He proved his courage when he pitched his tent at the base of the Matoppo hills and lived alone surrounded by hostile savages. At the end of six weeks he was invited to their councils where peace was quickly made.

Not so long ago, a kitchen scene was being filmed in Hollywood. A myterious noise kept bobbing up to spoil the sound sequence. Directors finally located the trouble—a mechanical refrigerator in use on the set! Now, most directors insist on the gas refrigerator because it has no moving parts and is absolutely silent.

DO WE WANT DEMOCRACY?

"If we want democracy we cannot dispose of our responsibilities by marching to the polls once in a while and giving lip service to the Bill of Rights," writes Carl Dreher in Harper's. If we want democracy we have to work at it. We have to accept the idea of politics as every citizen's primary and unremitting concern, as our business in a very concrete and personal sense."

We have left politics to the politicians — and what a mess has resulted. We have regarded government as something in which we have no direct interest, and the consequence has been a steady extension of bureaucratic power atthe expense of us all. We've worked on the principal of "Let George do it" — and George has done us in, good and plenty!

Not until we all realize that government is our business, will we have the fair, efficient and economical government that is essential to democracy.

"Mary Eileen"

Have you ever heard the birds singing on a bright morning in May,
Or seen the sun shine, after a dark rainy day?
If you have — then you will realize
what I see when I gaze into my baby's eyes.

Her eyes are blue, the deep blue of the sea,
In their depth there shines a world of love for me.
The soft happy laugh while she's at play,
Chases all my cares away.

So when I'm old and bent and gray,
I'll still remember her baby days.
She is my all—the world to me,
The emblem of goodness and purity.

When she has grown to womanhood,
I hope she will still be as pure and good,
As the dear little girl I now see,
Sitting contentedly on her daddy's knee.

By Beulah E. Gorrell.

I LOVE YOU
(Unidentified)

I love your lips when they're wet with wine
And warm with a wild desire.
I love your eyes when their light divine
Is lost in a passionate fire.
I love your arms when their white, hot flesh
Burns me in close embrace.
I love your hair when its strands enmesh
My kisses against your face.
Not for me the cold, calm kiss.
Or a virgin's bloodless love.
Not for me the saint's white bliss,
The spotless breast of a dove.
Not for me the love that lives
For a sinless, soulful aim,
But the love that its riches freely gives,
And laughs, though the whole world blame.
So kiss me, sweet, with your warm, wet mouth,
Still fragrant with rosy wine.
Say with the fervor that's born in the South,
Your body and soul are mine.
Clasp me close till the break of day,
While the pale stars smile above.
And we'll laugh our long, wild lives away
In the joy of a living love.

She Cooks the COOL Electric-Way!
Lucky are women who cook and bake electrically! For, they can serve hot, nourishing meals and even bake bread on the most torrid days ...without perceptibly raising the temperature of their kitchens. The reason is simple. Superior insulation plus the happy habit of electric heat going directly into the food being cooked ...and not into the room... does the trick.
Pictured above is the new Crawford Electric Range. It has four FAST, clean surface units, all with five separate heat controls; extra large storage compartments and waist-high broiler. Costs only — $137.50 cash (installed under standard conditions). Slightly more on easy budget plan. Also available — Hotpoint and Quality Electric Ranges!
