LOOK TO YOUR FENCES.

Now that harvest will soon be over we would call attention to the next important step on a well regulated farm—that of Fences. This is the time fence rows are being trimmed, and a post being put in here and a rail there in order to give the place a neat and attractive appearance.

THIS QUESTION OF FENCE

is a very important matter and a good Fence will add one-third in value to a farm.

The question is, which is the best, the most economical and most durable?

In any of these comparisons we think the

PATENT HEDGE FENCE

bears favorable examination. This Fence is now being daily substituted for either the barbed wire, post or board, combining in itself all the advantages of the above and none of the disadvantages, and adds beauty and value to the property at the same time.

☞SOLD ON VERY EASY TERMS.

For Full particulars address,
