RAIL ROAD MEETING.

NOTWITHSTANDING the heavy rain and difficulty of traveling, quite a considerable number of the friends of the proposed Rail Road through Kent county, attended at the Court House in Chestertown on Thursday last; several thousand dollars of additional Stock was sold and a free interchange of opinions and views was had in reference to this great and interesting work. The Stock Book is at the Bank. It is of the utmost importance that subscribers for Stock should sign upon the large Stock Book. The small books are at the Bank and whenever an equal or larger amount is subscribed upon the large book, the name will be erased from the small book, upon which it was previously recorded. Until the large book is subscribed, steps cannot be taken to organize the Company and secure the State's subscription.

Let no one delay calling at the Bank and subscribing. A few thousand dollars additional is all that is necessary to obtain the State's aid. Persons desiring the road to pass through their neighborhood would do well to subscribe, or increase their subscriptions, as every share that may be taken will entitle them to a vote, and they may thus contribute to influence the location of the road. No one can scarcely surmise where the route will be, as it will have to be surveyed by competent Engineers who will report plans and estimates of cost, for the consideration of the Board of Directors, who are to be chosen by the Stockholders. What is *now* of most importance, is the proper subscription for Stock and increased subscriptions. It has been estimated, by intelligent gentlemen, that the Farmers and Fruit Growers in our county have lost by reduced prices in consequence of a want of means of forwarding their produce of the soil and trees, to a choice market, within the last five or six years, enough to have constructed the road.

Notice of the next meeting will be given through the press.

BOOT AND SHOE ESTABLISHMENT,

No. 159 Pratt street, Baltimore.

BOOTS AND SHOES.

In soliciting the patronage of the inhabitants of Baltimore, in the above business, asks to invite their attention to a few plain facts in connection with the art of Boot and Shoe making, and particularly to the fitting of the same. Being fully convinced that the pain and inconvenience under which so many persons suffer arises from unequal pressure on certain portions of the feet, which causes corns, bunnions, and other unnatural formations of the foot, may be removed with due attention to the formation of the boot or shoe.

S. P. RHODES

guarantees

A GOOD AND EASY FIT.

Each article being made under my own superintendence. It is an indisputable fact that corns and bunnions are caused by unequal pressure on the foot: if the boot or shoe, therefore, be not formed according to the position of the foot when the weight of the body presses upon it, there must of necessity, be an unequal pressure, which, with the friction occasioned by walking, irritates and produces those afflictions. Hence, it is from the boots or shoes not fitting the foot properly a defect solely to be attributed to the manufacturer, who may not possess sufficient knowledge of his business, that has caused so many to suffer from the ignorance of the few, both in health and wealth; in the former instance by the pain occasioned by corns, &c., and in the latter by compelling persons to cut their boots and shoes to give ease, or sacrifice such articles before they are half worn out, and inflicting grievous wrong upon the public at large, in regard to that essential point—the properly fitting of the foot.

Boot making ought to be regarded as an important science, although it is generally considered as a very simple business. This arises from the great number of boot and shoe sellers, not manufacturers, many of whom are not in the slighest degree acquainted with the making of either; and many of the articles sold by such persons are frequently made from the one last, as if all person's feet were precisely the same shape, a thing as utterly impossible as it is to see two persons with precisely the same features. The fact, is they are made for sale, and the comfort of the purchaser is not in the slightest degree attended to, while the material is frequently the very worst, the workmanship inferior, cheapness being the only point considered; but it often turns out the dearest. S. P. Rhodes will not adopt that course, and assures those who favor him with a trial, that the article shall be manufactured of the best material, and best workmanship, and the lowest remunerative prices.

I have now on hand a fine lot of

GENT'S BOOTS, SHOES AND GAITERS.

I take the draft of your foot, so the boot or shoe is shaped to it. Corns cut, and all other imperfections of the feet attended to, without causing the slighest pain.—Persons waited on at their own houses.

A CARD
To the Ladies.

MRS. MARTHA BISCOE

Tenders her thanks to the Ladies who have so liberally patronized her, and would inform them that she has just returned from the City WITH A GOOD ASSORTMENT OF

Fall and Winter Millinery of the Latest Styles!

Also, a VARIETY OF FANY GOODS,

which she will be pleased to sell at a small advance. She has also in her employ a young Lady of great experience in the business and being a practical Milliner herself feels confident that she will be able to give general satisfaction.

Her Store is at the same place in Queen St. next door to the Old Bakery.
