PROSPECTUS OF

The Cosmopolite.

ON the first of January we commenced the publication in the City of Baltimore of a

MONTHLY LITERARY MAGAZINE.

There is no publication of this character now issued South of New York City and the closing of the war has left a large portion of the people of the country with no literary representative.

The COSMOPOLITE will be devoted to Literature, Art, Review, Scientific Paper and General Reading, and we shall number among its contributors some of the best literary men of the South, with others from the North and from London and Paris.

All matter not original will be carefully selected from the newest and best of the English, French and German publications; and its Editors will spare no effort or expense to make it rank with the *very first* Magazines of the country.

As its name imports, we have established THE COSMOPOLITE upon no sectional basis. We hope to make it the organ of general literature alone, and will be unaffected by any party or clique whatever.

It will be mailed to subscribers in any part of the country upon receipt of the following

SUBSCRIPTION

Single Copies, for one year	$ 4 00
Five " " "	18 00
Ten " " "	35 00

THE COSMOPOLITE will be generally distributed among the Merchants and Planters of the South, and we will add, for their information, a few advertisements, at moderate rates. Liberal deductions will be made to booksellers and news dealers. Address

BOOT AND SHOE ESTABLISHMENT.
No. 159 Pratt street, Baltimore.

BOOTS AND SHOES.

In soliciting the patronage of the inhabitants of Baltimore, in the above business, asks to invite their attention to a few plain facts in connection with the art of Boot and Shoe making, and particularly to the fitting of the same. Being fully convinced that the pain and inconvenience under which so many persons suffer arises from unequal pressure on certain portions of the feet, which causes corns, bunnions, and other unnatural formations of the foot, may be removed with due attention to the formation of the boot or shoe.

S. P. RHODES
guarantees
A GOOD AND EASY FIT.

Each article being made under my own superintendence. It is an indisputable fact that corns and bunnions are caused by unequal pressure on the foot; if the boot or shoe, therefore, be not formed according to the position of the foot when the weight of the body presses upon it, there must of necessity, be an unequal pressure, which, with the friction occasioned by walking, irritates and produces those afflictions. Hence, it is from the boots or shoes not fitting the foot properly a defect solely to be attributed to the manufacturer, who may not possess sufficient knowledge of his business, that has caused so many to suffer from the ignorance of the few, both in health and wealth; in the former instance by the pain occasioned by corns, &c., and in the latter by compelling persons to cut their boots and shoes to give ease, or sacrifice such articles before they are half worn out, and inflicting grievous wrong upon the public at large, in regard to that essential point—the properly fitting of the foot.

Boot making ought to be regarded as an important science, although it is generally considered as a very simple business. This arises from the great number of boot and shoe sellers, not manufacturers, many of whom are not in the slightest degree acquainted with the making of either; and many of the articles sold by such persons are frequently made from the one last, as if all person's feet were precisely the same shape, a thing as utterly impossible as it is to see two persons with precisely the same features. The fact, is they are made for sale, and the comfort of the purchaser is not in the slightest degree attended to, while the material is frequently the very worst, the workmanship inferior, cheapness being the only point considered; but it often turns out the dearest. S. P. Rhodes will not adopt that course, and assures those who favor him with a trial, that the article shall be manufactured of the best material, and best workmanship, and the lowest remunerative prices.

I have now on hand a fine lot of
GENT'S BOOTS, SHOES AND GAITERS.

I take the draft of your foot, so the boot or shoe is shaped to it. Corns cut, and all other imperfections of the feet attended to, without causing the slighest pain.—Persons waited on at their own houses.

Remember the old stand,
No. 159 WEST PRATT STREET.
