BOOT AND SHOE ESTABLISHMENT,

No. 159 Pratt street, Baltimore.

BOOTS AND SHOES.

In soliciting the patronage of the inhabitants of Baltimore, in the above business, asks to invite their attention to a few plain facts in connection with the art of Boot and Shoe making, and particularly to the fitting of the same. Being fully convinced that the pain and inconvenience under which so many persons suffer arises from unequal pressure on certain portions of the feet, which causes corns, bunnions, and other unnatural formations of the foot, may be removed with due attention to the formation of the foot or shoe.

S. P. RHODES

*guarantees*

A GOOD AND EASY FIT.

Each article being made under my own personal superintendence. It is an indisputable fact that corns and bunnions are caused by unequal pressure on the foot; if the boot or shoe, therefore, be not formed according to the position of the foot when [illegible] of necessity, be an unequal [illegible] with the friction occasioned by walking, inflicts and produces those afflictions. Hence, it is from the [illegible] fitting the foot properly a defect [illegible] to be attributed to the manufacturer, who may not possess sufficient knowledge of his business, that has caused so many to suffer from the ignorance of the few, both in health and wealth: in the former instance by the pain occasioned by corns, &c., and in the latter by compelling persons to cut their boots and shoes to give ease, or sacrifice such articles before they are half worn out, and inflicting grievous wrong upon the public at large, in regard to that essential point—the properly fitting of the foot.

Boot making ought to be regarded as an important science, although it is generally considered as a very simple business. This arises from the great number of boot and shoe sellers, not manufacturers, many of whom are not in the slightest degree acquainted with the making of either, and many of the articles sold by such persons are frequently made from the one last, as if all person's feet were precisely the same shape, a thing as utterly impossible as to suppose two persons will precisely die same features. The fact, is they are made for sale, and the comfort of the purchaser is not in the slightest degree attended to, while the material is frequently the very worst, the workmanship inferior, cheapness being the only [illegible] consideration; but such a turns out the dearest. S. P. Rhodes will not adopt that course, and assures those who favor him with a call, that the article shall be manufactured of the best material, and best workmanship, and the lowest remunerative [illegible]

I have now on hand a fine lot of

GENT'S BOOTS, SHOES AND GAITERS.

Take the draft of your foot, so the boot or shoe is shaped to it. Corns cut, and all other imperfections of the foot attended to, without causing the slightest pain.—Persons waited on at their own houses.

Remember the old stand,

No. 159 WEST PRATT STREET.

S. P. RHODES

successor to the late HENRY PECK,

who successfully carried on the above business for over fifty years. All measures, books and lasts kept, and I hope the old customers and the public in general will give me a trial.

FOUTZ'S

CELEBRATED

Horse and Cattle Powders.

These Powders will strengthen the Stomach and Intestines, cleanse them from offensive matter, and bring them to a healthy state. They are a sure preventive of Lung Fever, and a certain remedy for all Diseases incident to the horse, such as Bloody Water, Distemper, Founder, Heaves, Slavering, Coughs, Fevers, Loss of Appetite and Vital Energy, &c.

In poor, low-spirited animals, it has the most beneficial effect.

The use of this powder improves the wind, strengthens the appetite, and gives to the Horse a fine, smooth and glossy skin—thus improving the appearance, vigor and spirit of this noble animal.

FOR MILCH COWS.

The property this Powder possess in increasing the quantity of Milk in Cows, gives it an importance and value which should place it in the hands of every person keeping a Cow. By actual experiment it has proven that it will increase the quantity of Milk and Cream twenty per cent., and make the Butter firm and sweet. In fattening Cattle, it gives them an appetite, loosens their hide and makes them thrive much faster.

HOGS.

In all Diseases of the Swine, such as Coughs, Ulcers in the Lungs, Liver, &c. By putting from half a paper to a paper of these Powders in a barrel of Swill, the above Diseases can be cured or entirely prevented. By using these Powders the Hog Cholera can be prevented.

Price 25 cts. per Paper, or 5 Papers for $1.

THE

SCIENTIFIC AMERICAN

FOR 1866!

*VOLUME X.—NEW SERIES.*

ONE Volume of this popular Journal is published weekly, every number containing sixteen pages of useful information, and from four to six original engravings of new inventions and discoveries, all of which are prepared expressly for its columns.

TO THE MECHANIC AND MANUFACTURER.

No person engaged in any department of mechanical industry should be without a copy of the SCIENTIFIC AMERICAN. It costs but six cents per week, every number contains from six to ten engravings of new machines and mechanical devices, which can not be found in any other publication.

TO THE INVENTOR.

The Scientific American is indispensable to every inventor. No one who desires intelligence of the progress of the times in his department of industry should fail to read it constantly. The Editors are practical men, and the best talent in the country is employed on the paper. The Reports of Cases before the Patent Office, and the Claims of all the Patents issued from the United States Patent Office, are published in the Scientific American, thus furnishing a correct history of the progress of inventions during the year. The value of this feature is appreciated by Inventors.

TO THE FARMER AND MECHANIC.

The Scientific American will be found useful and interesting to persons of all professions in every department of Science, Mechanics, Chemistry, Electricity, Heat, Light, the Mechanic Arts, Steam Engineering, Agriculture, Horticulture, Photography, &c. Every number contains useful practical information, and the latest discoveries in the Science and Arts. Every Farmer, Mechanic, Engineer, Inventor, Chemist, Manufacturer and Patentee should have a copy for reference and examination.

TO PATENTEES.

The Scientific American is the best paper in the world for Inventors to advertise their inventions in, as it has a large circulation among the class of men whose patronage is desirable. Advertisements are inserted at the low rate of 25 cents a line for each insertion. Engravings are not admissible in the advertising columns.

Canals, Architects, Millwrights and Farmers,

The Scientific American will be found a most useful journal to them. All the new discoveries in the science or chemistry, are given in its columns, and the inventions of the architect and carpenter are described, so that all the new modes of improvement appertaining to these pursuits being published from week to week. Useful and practical information pertaining to the interests of millwrights and mill owners will be found in the Scientific American, which information they can not possibly obtain from any other source. Subscribers in whom farmers are interested will be found discussed in the Scientific American; most of the improvements in agricultural implements being illustrated in its columns.
