SAUSAGE CUTTERS and Stuffers and Lard Cans, for sale at the Tin and Stove Store—by J. K. ALDRIDGE.

Chestertown, November 19, 1865.

FOUTZ'S

CELEBRATED

Horse and Cattle Powders.

These Powders will strengthen the Stomach and Intestines, cleanse them from offensive matter, and bring them to a healthy state. They are a sure preventive of Lung Fever, and a certain remedy for all Diseases incident to the Horse, such as Glanders, Yellow Water, Distemper, Founder, Heaves, Slavering, Coughs, Fevers, Loss of Appetite and Vital Energy, &c.

In poor, low-spirited animals, it has the most beneficial effect.

The use of them improves the wind, strengthens the Appetite, and gives to the Horse a fine, smooth and glossy skin—thus improving the appearance, vigor and spirit of this noble animal.

FOR MILCH COWS.

The property this Powder possesses in increasing the quantity of Milk in Cows, gives it an importance and value which should place it in the hands of every person keeping a Cow. By actual experiment it has proven that it will increase the quantity of Milk and Cream twenty per cent., and make the Butter firm and sweet. In fattening Cattle, it gives them an appetite, loosens their hide and makes them thrive much faster.

HOGS.

In all Diseases of the Swine, such as Coughs, Ulcers in the Lungs, Liver, &c. By putting from half a paper to a paper of these Powders in a barrel of Swill, the above Diseases can be cured or entirely prevented. By using these Powders the Hog Cholera can be prevented.

Price 25 cts. per Paper, or 5 Papers for $1.

CORN AND OATS

BERGER & BUTZ'S

EXCELSIOR

SUPER PHOSPHATE OF LIME.

AND

BERGER & BUTZ'S

AMMONIATED

SUPER PHOSPHATE OF

Lime.

WE OFFER to the Farmers of Kent and the adjoining counties these well known Fertilizers for the Spring seeding. BERGER BUTZ'S EXCELSIOR SUPER PHOSPHATE OF LIME has for the last five years undergone the most rigid tests upon all crops and has never been excelled. It not only acts immediately upon the crop, but is certain to produce a heavy growth of grass. BERGER & BUTZ'S AMMONIATED SUPER PHOSPHATE OF LIME we guarantee to be a good article.

We give a certificate from one of the most reliable Farmers in New Jersey, showing the effect upon Wheat, Oats and Corn.

Hopewell Township, Cumberland Co., N. J., August 7th, 1860.

MESSRS. BERGER & BUTZ:

I have now used your Super Phosphate of Lime for two seasons. Last Fall I used it upon part of my Wheat, which has turned out as well as where I manured with good barn-yard manure.

This last Spring I put in my oats with it; the oats were sown upon poor ground, and the yield was most excellent, far better than I had any reason to expect.

I also used it upon Corn alongside of another well known Fertilizer. The drought has been very severe this Summer, and the corn is therefore backward, still your Phosphate has done very much better than the other, and does not seem to have suffered so much from the drought. I consider your Super-Phosphate of Lime not only a good manure, but better than any other Fertilizer I ever used.

Yours, respectfully,
ROBERT JONES.

We will say to Farmers and Dealers in Fertilizers, that by the introduction of

NEW AND IMPROVED MACHINERY

into our Factory, our articles will be much better prepared than heretofore,

AND IF IT IS NOT FOUND TO BE IN EVERY WAY EQUAL TO THE ORIGINAL STANDARD, WE WILL NOT DEMAND ONE DOLLAR FOR OUR ARTICLES.

THE

SCIENTIFIC AMERICAN

FOR 1865!

VOLUME X.—NEW SERIES.

ONE NEW Volume of this popular Journal commenced on the first of January. It is published WEEKLY, and every number contains sixteen pages of useful information, and from five to ten original engravings of new inventions and discoveries, all of which are prepared expressly for its columns.

TO THE MECHANIC AND MANUFACTURER.

No person engaged in any of the mechanical or manufacturing pursuits should think of "doing without" the SCIENTIFIC AMERICAN. It costs but six cents per week; every number contains from six to ten engravings of new machines and inventions, which can not be found in any other publication.

TO THE INVENTOR.

The 'Scientific American' is indispensable to every inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each number contains an Official List of the claims of all the Patents issued from the United States Patent Office during the week previous; thus giving a correct history of the progress of inventions in this country. We are also receiving, every week, the best scientific journals of Great Britain, France, and Germany; thus placing in our possession all that is transpiring in mechanical science and art in these old countries. We shall continue to transfer to our columns copious extracts from these journals of whatever we may deem of interest to our readers.

A pamphlet of instruction as to the best mode of obtaining Letters Patent on new inventions, is furnished free on application.

Messrs. MUNN & CO. have acted as Patent Solicitors for more than SEVENTEEN years, in connection with the publication of the Scientific American, and they refer to 20,000 patentees for whom they have done business.

No charge is made for examining sketches and models of new inventions and for advising inventors as to their patentability.

Chemists, Architects, Millwrights and Farmers.

The Scientific American will be found a most useful journal to them. All the new discoveries in the science of chemistry, are given in its columns, and the interests of the architect and carpenter are not overlooked; all the new inventions and discoveries appertaining to these pursuits being published from week to week. Useful and practical information, pertaining to the interests of millwrights and mill owners will be found in the Scientific American, which information they can not possibly obtain from any other source. Subjects in which farmers are interested will be found discussed in the Scientific American; most of the improvements in agricultural implements being illustrated in its columns.

TERMS.

To mail subscribers:—Three Dollars a year or One Dollar for four months. The volumes commence on the first of January and July. Specimen copies will be sent gratis to any part of the country.
