Farmers and Dealers

ARE respectfully referred to the above FERTILIZERS as being prepared in the best manner, thoroughly reliable, and in every way calculated to give universal satisfaction.

They are extensively known, having been used with great success during the past six or seven years.

Read the following opinion of one of the best Chemists of this country:

CHEMICAL LABORATORY,
No. 108 Arch St., Philadelphia,
April 10th, 1866.

During the last five years I have been in frequent consultation with Mr. George M. Woodward, Manufacturer of Messrs. *Berger & Butz's* artificial manures, in regard to the preparation of their Super Phosphate of Lime, etc. The materials used in these Fertilizers, are in all cases subjected to my examination and analyses before purchase. Being fully acquainted with their formula and methods of manufacture, I can assure those interested in the purchase and sale of Fertilizers, that their "*Excelsior*" and "*Ammoniated*" Super Phosphate of Lime are of such a character, as must render them of great value to the farmer, and place them amongst the best *Fertilizers* now in the market.

F. A. GENTH.

We guarantee these Fertilizers to be Unadulterated.

By the introduction of
NEW AND IMPROVED MACHINERY
into our Factory, these articles will be much better prepared than formerly.

ATTENTION, FARMERS!

DONT FAIL TO SEE THE *PENNINGTON REAPER* as built and improved by us, before you buy. They are the best in use, and have no superior in point of strength and reliability. No side draft, and run light.

Also, THE BUCKEYE SELF-DELIVERING WHEEL RAKE, which a lad eight years of age can easily work. Has English Steel Teeth, and warranted in every way the best in use.

Repairing of all kinds. Mill work done upon very reasonable terms.

TEETH EXTRACTED WITHOUT PAIN.

NITROUS OXIDE.

I DESIRE to call the attention of those who are suffering with bad teeth, for fear of having them extracted (as there is nothing more calculated to undermine the constitution than decayed teeth) *that the time has come, and now is,* when they can get their teeth taken out without pain, AND THAT IN CHESTERTOWN.

When I first introduced this powerful anesthetic, I was called upon to vouch for its innocency and happy effect. That I could not then do, only upon the authority of other responsible operators. But as I have now practical knowledge of its effect, it gives me great pleasure to say to all, that I feel no hesitation in now vouching for it, as it far surpasses my expectation.

COPARTNERSHIP.

BALTIMORE, March 1st, 1865.

THOMAS NORRIS, for TEN years past engaged in the sale of *AGRICULTURAL IMPLEMENTS* and Machines, FIELD and GARDEN SEEDS, etc., respectfully informs his friends and customers, that he has this day associated with him Mr. JOEL PUSEY, of Havre de Grace, very favorably known to many of the farmers of Maryland. The business will be continued under the name and style of

NORRIS & PUSEY,

at the old stand, No. 141 PRATT STREET, (near Light.) The senior partner tenders his grateful acknowledgments to his many friends who have so liberally patronized him, and solicits for the new firm a continuation of their favors.

In addition to the old business, the subscribers will be prepared to transact, in an extensive way, the

Lime, Plaster and Cement Business.

Yielding to the solicitations of many friends in the country, they beg to offer their services as

General Commission Merchants

for the sale of GRAIN and all kinds of *Country Produce.*

By a faithful attention to business, they expect to merit a good share of public favor, and ask a continuation of the patronage of old customers, and a fair trial by new ones.

They will continue the sale of *Wood's Prize Mower, Wood's Self-Raking Reaper, Westinghouse's Horse Powers and Threshing Machines, Beckford & Hoffman's Grain and Guano Drills, Von Wickle's Grain Fans,* and many other Implements and Machines, of superior merit.

They assure their customers that they are prepared to furnish any article in their line on as good terms as they can be supplied by any house in Baltimore.

Circulars, Catalogues, etc., giving descriptions, prices, &c., will be furnished on application.

THE
SCIENTIFIC AMERICAN
FOR 1865:

VOLUME X.—NEW SERIES.

ONE Volume of this popular Journal commenced on the first of January. It is published WEEKLY, and every number contains sixteen pages of useful information, and from five to ten original engravings of new inventions and discoveries, all of which are prepared expressly for its columns.

TO THE MECHANIC AND MANUFACTURER.

No person engaged in any of the mechanical or manufacturing pursuits should think of "doing without" the SCIENTIFIC AMERICAN. It costs but six cents per week; every number contains from six to ten engravings of new machines and inventions, which can not be found in any other publication.

TO THE INVENTOR.

The "Scientific American" is indispensable to every inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each number contains an Official List of the claims of all the Patents issued from the United States Patent Office during the week previous; thus giving a correct history of the progress of inventions in this country. We are also receiving, every week, the best scientific journals of Great Britain, France, and Germany; thus placing in our possession all that is transpiring in mechanical science and art in these old countries. We shall continue to transfer to our columns copious extracts from these journals of whatever we may deem of interest to our readers.

A pamphlet of instruction as to the best mode of obtaining Letters Patent on new inventions, is furnished free on application.

Messrs. MUNN & CO. have acted as Patent Solicitors for more than SEVENTEEN years, in connection with the publication of the Scientific American, and they refer to 20,000 patentees for whom they have done business.

No charge is made for examining sketches and models of new inventions and for advising inventors as to their patentability.

Chemists, Architects, Millwrights and Farmers,

The Scientific American will be found a most useful journal to them. All the new discoveries in the science of chemistry, are given in its columns, and the interests of the architect and carpenter are not overlooked; all the new inventions and discoveries appertaining to these pursuits being published from week to week. Useful and practical information pertaining to the interests of millwrights and mill owners will be found in the Scientific American, which information they can not possibly obtain from any other source. Subjects in which farmers are interested will be found discussed in the Scientific American; most of the improvements in agricultural implements being illustrated in its columns.

TERMS.

To mail subscribers:—Three Dollars a year or One Dollar for four months. The volumes commence on the first of January and July. Specimen copies will be sent gratis to any part of the country.
