Public Sale
OF LAND.

THE undersigned, as Attorney for John D. Carter, Esq., will sell at Public Sale, at the Voshell House in Chestertown, on

Tuesday, the 15th day of January, 1867,
at 11 o'clock, A. M.,

That Tract of Land

known as "THE CLIFF," lying on Chester River, in Quaker Neck, Kent County, Maryland, containing about

50 Acres.

This Tract of Land is situated eight miles from Chestertown, and adjoins the farms of Messrs. R. Ll. Nicols and John Start. Three Acres have been cleared and are inclosed: the balance is in *WOODLAND*, principally Pine, and a sufficient amount of Chestnut and Cedar to supply and keep in repair the fences. The whole tract is now nearly inclosed with a good fence.

The Wood is valuable, and it is believed that a sufficient quantity could be cut and sold, in a short time, to pay the whole purchase money.

The location is admirably adapted for a *CANNING ESTABLISHMENT*. Oysters abound in the immediate vicinity and can be purchased throughout the year for twenty-five or thirty cents per bushel. There are also large Peach Orchards in the neighborhood, from which a supply of fruit could be obtained on reasonable terms.

It is also *AN EXCELLENT STAND FOR A STORE*, and a profitable business could be done by a person of enterprise.

The Improvements consist of a GOOD FRAME DWELLING two stories and-a-half high, with a KITCHEN attached. There is a *STORE ROOM* in the Dwelling.

The purchaser can have immediate possession.

THE TERMS OF SALE ARE:

One third of the purchase money Cash on the day of sale, and the balance in two equal instalments of one and two years from the day of sale, with interest from the day of sale, to be secured by the bond of the purchaser with security to be approved by the undersigned.

J. A. WICKES.

☞ For any additional information which may be desired, application may be made to JOHN D. CARTER, ESQ., at Townsend, Del., or to his Attorney in Chestertown, Md.

THE
SCIENTIFIC AMERICAN
FOR 1865!

VOLUME X.—NEW SERIES.

ONEW Volume of this popular Journal commenced on the first of January. It is published WEEKLY, and every number contains sixteen pages of useful information, and from five to ten original engravings of new inventions and discoveries, all of which are prepared expressly for its columns.

TO THE MECHANIC AND MANUFACTURER.

No person engaged in any of the mechanical or manufacturing pursuits should think of "doing without" the SCIENTIFIC AMERICAN. It costs but six cents per week; every number contains from six to ten engravings of new machines and inventions, which can not be found in any other publication.

TO THE INVENTOR.

The 'Scientific American' is indispensable to every inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each number contains an Official List of the claims of all the Patents issued from the United States Patent Office during the week previous; thus giving a correct history of the progress of inventions in this country. We are also receiving, every week, the best scientific journals of Great Britain, France, and Germany; thus placing in our possession all that is transpiring in mechanical science and art in these old countries. We shall continue to transfer to our columns copious extracts from these journals of whatever we may deem of interest to our readers.

A pamphlet of instruction as to the best mode of obtaining Letters Patent on new inventions, is furnished free on application.

Messrs. MUNN & CO. have acted as Patent Solicitors for more than SEVENTEEN years, in connection with the publication of the Scientific American, and they refer to 20,000 patentees for whom they have done business.

No charge is made for examining sketches and models of new inventions and for advising inventors as to their patentability.

Chemists, Architects, Millwrights and Farmers.

The Scientific American will be found a most useful journal to them. All the new discoveries in the science of chemistry, are given in its columns, and the interests of the architect and carpenter are not overlooked; all the new inventions and discoveries appertaining to these pursuits being published from week to week. Useful and practical information pertaining to the interests of millwrights and mill owners will oe found in the Scientific American, which information they can not possibly obtain from any other source. Subjects in which farmers are interested will be found discussed in the Scientific American; most of the improvements in agricultural implements being illustrated in its columns.

TERMS.

To mail subscribers:—Three Dollars a year or One Dollar for four months. The volumes commence on the first of January and July. Specimen copies will be sent gratis to any part of the country.
