THE
SCIENTIFIC AMERICAN
FOR 1865!

VOLUME X.—NEW SERIES.

ONE NEW Volume of this popular Journal commenced on the first of January. It is published WEEKLY, and every number contains sixteen pages of useful information, and from five to ten original engravings of new inventions and discoveries, all of which are prepared expressly for its columns.

TO THE MECHANIC AND MANUFACTURER.

No person engaged in any of the mechanical or manufacturing pursuits should think of "doing without" the SCIENTIFIC AMERICAN. It costs but six cents per week; every number contains from six to ten engravings of new machines and inventions, which can not be found in any other publication.

TO THE INVENTOR.

The 'Scientific American' is indispensable to every inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each number contains an Official List of the claims of all the Patents issued from the United States Patent Office during the week previous; thus giving a correct history of the progress of inventions in this country. We are also receiving, every week, the best scientific journals of Great Britain, France, and Germany; thus placing in our possession all that is transpiring in mechanical science and art in these old countries. We shall continue to transfer to our columns copious extracts from these journals of whatever we may deem of interest to our readers.

A pamphlet of instruction as to the best mode of obtaining Letters Patent on new inventions, is furnished free on application.

Messrs. MUNN & CO. have acted as Patent Solicitors for more than SEVENTEEN years, in connection with the publication of the Scientific American, and they refer to 20,000 patentees for whom they have done business.

No charge is made for examining sketches and models of new inventions and for advising inventors as to their patentability.

Chemists, Architects, Millwrights and Farmers.

The Scientific American will be found a most useful journal to them. All the new discoveries in the science of chemistry, are given in its columns, and the interests of the architect and carpenter are not overlocked; all the new inventions and discoveries appertaining to these pursuits being published from week to week. Useful and practical information pertaining to the interests of millwrights and mill owners will be found in the Scientific American, which information they can not possibly obtain from any other source. Subjects in which farmers are interested will be found discussed in the Scientific American; most of the improvements in agricultural implements being illustrated in its columns.

TERMS.

To mail subscribers:—Three Dollars a year or One Dollar for four months. The volumes commence on the first of January and July. Specimen copies will be sent gratis to any part of the country.

Mears' Infallible
(SUGAR-COATED)
AGUE PILLS
NEVER FAIL!

Mears' Wonderful Ague Pills

are unrivalled for the cure of **Chills and Fever.** Hundreds of persons who have been afflicted with this distressing complaint for months, after trying Quinine in vain, have been speedily cured by them.

They are warranted not to contain a particle of Quinine, Arsenic, or any other deleterious drug; on the contrary, they are a most excellent tonic and alterative, promoting the appetite, and renovating and strengthening the system. For a torpid liver, or any bilious derangement, they will be found an excellent remedy—gently stimulating the liver to an increased action—thus removing the most troublesome source of this distressing disease.

Those living in districts where Chills and Fever prevail *should never be without these Pills;* and on the *first appearance* of the symptoms, should take a few, and thus ward off an attack.

They may be taken by old or young, and at any time, without the slightest regard to diet or exposure.

BRISTOL, August 1st, 1866.

This is to certify, that I am acquainted with the formula of MEARS' CELEBRATED FEVER AND AGUE PILLS, and I have *used the same very extensively* in my practice, and have never known them to fail when used according to directions; on the contrary, I have *succeeded with them,* in many instances, after TRYING QUININE IN VAIN.

E. J. GROOM, M. D.

NEWPORTVILLE, Aug. 1st, 1866.

This is to certify, that I am acquainted with the formula of MEARS' FEVER AND AGUE PILLS, and I have no hesitation in pronouncing them *a perfectly reliable and sure cure* for all forms of this distressing disease, if taken according to directions.
