WHY YOU SHOULD BUY

—AT—

Mastbaums's

LOTHING STORE.

1st.—We have the most Fashionable Clothing of any Establishment on the Eastern Shore.

2nd.—Ours is the Oldest Established House on the Shore.

3rd.—We Manufacture all our own Goods, and thus we are enabled to sell AND DO SELL much cheaper than those who buy to sell again, as we prevent the imposition of but one profit on our customers, whereas every other Clothing Store in Town is obliged to impose two.

4th.—Our Goods are well and tastefully made, by the most skillful artists Philadelphia can furnish.

5th.—We sell nothing but what we can recommend, and we defy any man to show where he has once been deceived by our recommendation.

6th.—Our Goods always
Fit a *little* closer,
And look a *little* neater,
And wear a *little* better,
And last a *little* longer,
And are sold a *little* cheaper
Than any other Goods in Town!
And THIS is the "REASON WHY" our Establishment is patronized by all who desire to get the full value of their money and to present a neat and gentlemanly appearance.

7th.—We have just received a NEW ...STOCK, embracing every variety which ...the most fastidious can desire and the most ...an demand.

...ke it our particular en... ...strictest attention to all ...

...are, we think, sufficient ... the popularity which we ...hich is an enigma to many, ...rved, and also warrants us in ...continuation of it.

OF INTEREST TO THE READING PUBLIC.

On the first of January, 1868, there will be published simultaneously in the cities of New York and Baltimore the first number of a new monthly Magazine, to be called

"THE NEW ECLECTIC."

It will possess the following distinctive features, which it is hoped will recommend it to the favor of a large portion of the reading public.

1st It will embrace the whole field of American, English and Continental periodical literature, and after a comprehensive and careful monthly review, will republish only such articles as bear evidence of the highest ability, the purest principle, and the most complete adaptness to the wants of American readers and the general necessities of the age.

2d. It will refuse to identified with the principles of any party or sect, political or religious, but will seek to bring before a discriminating public views of the most asteemed and temperate organs of the more prominent schools which divide the suffrages of the thinking world, with a view to promote the growth of an intelligent, healthful operative public opinion.

3rd. The selections will come under the general heads of Politics, Sociology, Religion, Belles Letters, Biography, History, Science and Art and the aim will be to keep busy mercantile and professional men accurately and compendiously informed upon those important movements of the day in the world of thought and discovery, which merit the attention of all classes of society.

4th. Though distinctively an Eclectic Magazine, the liberty will be reserved of bringing forward original articles from time to time, but only such are from the pens of the eminent writers.

5th. A special department will be devoted to notices and concise reviews of the most valuable new publicatiens, and care will be taken to render all information under this head pertinent and trustworthy.

Each number of the Magazine will contain 128 octavo pages, in clear distinct typography, and printed on the best paper. The subscription price will be $4.00 per annum, in advance to ministers, 3,00. Single copies 40 cents. Specimen numbers may be had of all the principal news dealers of the country, or upon a written application addressed to the Magazine, box 1484, Baltimore.

"A Penny Saved is a Penny Earned."

NEW STORE, NEW GOODS AND NEW PRICES.

The Best New York Weekly Pubished.

NEW YORK DAY-BOOK FOR 1868.

THE NEW DAY-BOOK is a straightforward, Radical Democratic paper, with a larger circulation than any other Democratic journal ever published on this Continent, and it enters on the threshold of 1868 more prosperous and more hopeful of the great cause it upholds than ever before. Standing on the foundation of the Declaration of Independence, that "all (*white*) men are created equal," and *therefore* entitled to equal rights, it is opposed to all forms and degrees of special legislation that conflict with this grand central TRUTH of Democracy.

THE DAY-BOOK, *therefore,* demands the restoration of the "Union as it was"—A UNION OF CO-EQUAL STATES UPON THE WHITE BASIS, as the only hope, and the only means possible under heaven for saving the grand ideas of 1776, and the fundamental principles of American liberty, and if the real friends of freedom, and the earnest believers in that sacred and glorious cause in which the men of the Revolution offered up their lives, will now labor to expose the ignorance, delusion and treason of the Mongrel party, IT WILL SUCCEED, and the white Republic of Washington be restored again in all its original beneficence and grandeur.

THE WEEKLY DAY-BOOK is the most COMPLETE WEEKLY PAPER PUBLISHED. Its News Summary, Family Reading, Agricultural Articles, Reports of Cattle, Grain and Cotton Markets, &c., &c., are not surpassed by any paper.

ATTENTION IS CALLED TO THE AMERICAN

Fruit Drying House!

IN presenting this new and most useful invention to the public, we feel satisfied that we are supplying a want which all Fruit Growers have long experienced. It is a means of preserving in the most perfect manner all Fruits or Vegetables, such as PEACHES, APPLES, Pears, Plums, Cherries, Berries of all kinds, Green Corn, String Beans, Green Peas, &c.

It is a house, with a furnace attached in such manner as to cause a constant and rapid circulation of heated air within, or passing regularly through and out at the top of the house by two valves to turn off or on the heat as the drying process may require, carrying off immediately all the watery elements of the Fruits, and preserving all the aromatic properties without the least fermentation or decomposition.

The Fruits are not discolored but remain perfectly fair and pure, free from all manner of dirt, flies or wet weather. It only requires about six to eight hours (just as you give attention) to dry them perfectly. Fruits thus dried are of double the value of those dried in the ordinary way.

See handbills for testimonials. The following, from a well known citizen of Kent county, is all that is deemed necessary to give here:

MR. P. MCN. THOMAS,—*Dear Sir:* The fruit drying House, that I bought of J. W. Patterson, agent for Jasper Billings, patentee, I am very much pleased with, and recommend it to all Fruit rowers as a means of saving much of their fruit. Fruit dried in it is much superior to that dried in the ordinary way. It gave entire satisfaction last season. JOHN GALE.

WORTON MANOR, July 1st, 1867.

Price of House, drying from 10 to 15 bushels per day.....$40.00
Do. Do. Drying more.....50.00

You are aware that enough fruit is lost from falling off trees in all orchards, if saved, to pay for several of these houses. Houses manufactured by Stewart & Bro., Chestertown, and by Harbourd & Clinton, Still Pond.

P. MCN. THOMAS & CO.,
Proprietors of Patent Right for Kent Co.

Chestertown, July 20, 1867—tf.

THE

SCIENTIFIC AMERICAN

FOR 1865!

VOLUME X.—NEW SERIES.

A NEW Volume of this popular Journal commenced on the first of January. It is published WEEKLY, and every number contains sixteen pages of useful information, and from five to ten original engravings of new inventions and discoveries, all of which are prepared expressly for its columns.

TO THE MECHANIC AND MANUFACTURER

No person engaged in any of the mechanical or manufacturing pursuits should think of "doing without" the SCIENTIFIC AMERICAN. It costs but six cents per week; every number contains from six to ten engravings of new machines and inventions, which can not be found in any other publication.

TO THE INVENTOR.

The 'Scientific American' is indispensable to every inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each number contains an ficial List of the claims of all the Patents issued from the United States Patent ffice during the week previous; thus giving a correct history of the progress of inventions in this country. We are also receiving, every week, the best scientific journals of Great Britain, France, and Germany; thu placing in our possession all that is transpiring in mechanical science and art in these old countries. We shall continue to transfer to our columns copious extracts from these journals of whatever we may deem of interest to our readers.

A pamphlet of instruction as to the best mode of obtaining Letters Patent on new inventions, is furnished free on application.

Messrs. MUNN & C. have acted as Patent Solicitors for more than SEVENTEEN years, in connection with the publication of the Scientific American, and they refer to 20,000 patentees for whom they have done business.

No charge is made for examining sketches and models of new inventions and for advising inventors as to their patentability.

Chemists, Architects, Millwrights and Farmers.

The Scientific American will be found a most useful journal to them. All the new discoveries in the science of chemistry, are given in its columns, and the interests of the architect and carpenter are not overlooked; all the new inventions and discoveries appertaining to these pursuits being published from week to week. Useful and practical information pertaining to the interests of millwrights and mill owners will be found in the Scientific American, which information they can not possibly obtain from any other source. Subjects in which farmers are interested will be found discussed in the Scientific American; most of the improvements in agricultural implements being illustrated in its columns.

TERMS.

To mail subscribers:—Three Dollars a year or ne Dollar for four months. The volumes commence on the first of January and July. Specimen copies will be sent gratis to any part of the country.

MUNN & CO., *Publishers,*

PHI...ELPHIA UNIVERSI... OF MEDI...E AND SURGE...

THE Phila...phia University of Me... and Surgery ... organized in 1848. ... tered by the ...lature, February 26, ... Name changed by a legislative enactme... the Eclectic Medical College of Philadel... in 1860. In 1863 it purchased the Penn... vania Medical College, established in 18... and the Philadelphia Medical College, wh... had previously been merged into the Pen... sylvania Medical College. In 1864 it pu... chased the Penn Medical University. T... Trustees of the separate schools united, pu... tioned, and obtained a special act of the Le... islature, consolidating these institutions an... changing their names to that of the Philadel... phia University of Medicine and Surgery, March 15, 1865. All these various acts are published in the statutes of Pennsylvania. The cost of the building and museum was over one hundred thousand dollars. It will be observed that the University, as now organized, is the legal representative of the four medical Colleges that it has absorbed. It is a liberal school of medicine, confined to no dogma, nor attached to any medical clique; but embraces in its teachings everything of valu... profession.

Sessions.—It has two full session... year, commencing on the 1st of October, continuing until the 1st of January as its first session, and from the 1st of January to 1st of April as its second; the two constituting one full course of lectures. It has also summer session, commencing the 1st of Ap... and continuing until August, for the prepa... atory branches, such as Latin, Greek, Math... matics, Botany, Zoology, Chemistry, Anat... omy, Physiology, etc.

Tickets.—Tickets to the full course of lectures $120, or $60 for each session. For the summer or preparatory course $25. Graduating fee $30. To aid *young men of moderate means,* the University has issued *five hundred scholarships,* which are sold to first-course students, for $75, and to second-course students and clergymen for $50, each constituting the holder a life member, with the perpetual privileges of the lectures, and all the teachings of the school. The only additional fees are a yearly dissecting and matriculating ticket, each of which is $5.

The Advantages of Scholarships.—The student holding a scholarship can enter the College at any time during the year, attend as long as he chooses, and re-enter the institution as frequently as desired.

It requires no previous reading or study to enter the University on scholarships, hence, all private tuition fees are saved.

Students, by holding scholarships, can prosecute other business a part of the time.

The candidate for graduation can present himself at any time, and receive his degree as soon as qualified.

In case a student should hold a scholarship and not be able to attend lectures, it can be transferred to another, thus preventing any loss.

Parents, guardians, or friends of students wishing to purchase scholarships for them a year or more before their attendance at the University, can secure them by advancing one-half the price, and paying the balance when the student enters. Physicians and benevolent men can bestow great benefit upon poor young men, by presenting them a scholarship, and thus enabling them to obtain an honorable profession.

The Faculty embraces seventeen eminent physicians and surgeons. The University has associated with it a large hospital clinic, where every form of medical and surgical disease is operated on and treated in the presence of the class.

COLLEGE BUILDING.—The College building, located in Ninth Street, south of Walnut, is the finest in the city. Its front is collegiate gothic, and is adorned with embattlements and embrasures, presenting a novel, bold, and beautiful appearance. The facade is of brown stone, ornamented by two towers, rising to the elevation of eighty feet, and crowned with an embattled parapet. The building contains between fifty and sixty rooms, all supplied with water, gas, and every other convenience that modern improvement can contribute to facilitate medical instruction. Only five hundred scholarships will be issued, and as two hundred and fifty are now sold, those who wish to secure one should do so at once. Money can be remitted by express, or a draft or check sent on any National bank in the United States, when the scholarship will be returned by mail, signed by the President of the Board of Trustees, Jos. S. Fisher, Esq., and the Dean of the Faculty, W. Paine, M. D. All orders for scholarships or other business of the University, should be addressed to Professor W. Paine, M. D, Philadelphia, Pa. June 15, 1867.

We the undersigned beg leave to inform our friends and the public generally that, having thoroughly repaired our Mill and also added a Steam Engine, we are prepared to execute all work in our line of business in a neat and satisfactory manner.

☞ OUR WAGON will be around and exchange KERSEY, CASSIMERS, BLANKETS, &c., at the usual rates.

Please remember the Old Stand, and give us a trial.
