The Chestertown Transcript.

Saturday Morning, August 8, 1868.

LOCAL MATTERS.

PREACHING AT THE COURT HOUSE.—Rev. David Thomas, of the M. E. Church South, will preach at the Court House in this place, to-morrow (Sunday) afternoon, at 3 o'clock. We are also requested to state that there will be preaching, at the same place and hour, every other Sunday afternoon hereafter, unless otherwise announced.

EXCURSION.—The steamer "Chester" made an excursion from Crumpton to White Rock Retreat and Baltimore, on Wednesday last, touching at all the landings on the route. The boat was well filled, but owing to the delay at Queenstown, she did not reach Baltimore until five o'clock, giving a much shorter time than anticipated in the city. Leaving the city at 6½ o'clock, P. M., she had a delightful run across the bay and up the river by moonlight; but just when leaving Corsica Creek, almost like lightning a dense fog settled on the boat and brought her to anchor, where she was detained until five in the morning. She reached Chestertown about half-past six, crew and passengers sufficiently satisfied with the length of the trip.

THE YOUNG MEN'S CHRISTIAN ASSOCIATION, which was organized here last March, has, (we are pleased to learn) within the last few weeks received a considerable accession to its membership. The meetings are held in Bates' M. P. Chapel, Queen street, every Wednesday evening, and are of a very beneficial and interesting character. The officers are as follows: President, George W. Russell; Vice President, James A. Shaw; Corresponding Secretary, J. Morgan Beaston; Recording Secretary, James Murch; Assistant do., James Taylor; Treasurer, W. Hudgins; Executive Committee—Thos. V. Simpson, John High, Henry Russell, Levi Fiddis, Jr., and Thos. Hurtt.

On the first Wednesday evening in September an election of officers, to serve six months, will be held, at which time every member is requested to be present.

IMPROVEMENTS ON CANNON STREET.—Major Richard Smyth, we are pleased to notice, is having erected on one of his Cannon street lots, a two-story frame house—the main building 24x16 and back building 28x16 feet. Messrs. John T. Dodd & Son are doing the work. The Major has in contemplation the erection of a similar building on the lot adjoining. There are other good sites for dwellings on this rapidly improving portion of the street, which we hope soon to see occupied.

One of the most noticable improvements in the above neighborhood, is that of the old Anderson property, now belonging to Col. John N. Denning. Here the judicious use of paint and whitewash, the removal of dilapidated out-buildings, and the erection of a neat paling fence in front of the street, has made a new and pleasing change in the aspect of that part of the street—not only ornamental to the town, but creditable to the enterprising owner of the property.

CANE PRESENTATION.—On Saturday afternoon last, Major Richard Smyth was the fortunate recipient of a handsome ebony cane surmounted with a gold head. The affair came off at General Vickers' office, and was witnessed by a large number of the personal friends of the recipient. In presenting the cane, General Vickers spoke as follows:

Major Richard Smyth:—A number of the citizens of Chestertown, your personal friends, have provided a handsome cane with the following inscription:

"Presented to Major Richard Smyth, by George Vickers, J. T. Dodd, J. H. Plummer, J. K. Hines, J. O. Slay, Wm. B. Usilton, and Wm. A. Vickers, his personal friends, of Chestertown, Maryland."

They have selected me as their organ of communication, and to present it to you as a token of their high respect, and of their admiration of the public spirit which you have so often exhibited, in erecting good and commodious houses, in promoting the beauty and growth of our town, and the accommodation and comfort of our people Although you are not a native of our town, resided in it but a comparatively short period, and while your removal from it was regretted by all, yet, by a liberal and generous expenditure in improvements, you have shown an example to others, which, it is hoped, may produce corresponding results. It has been said, that he who causes two spires of grass to grow where only one was wont to be, is a benefactor to his race: how much more is he worthy of that enviable appellation who has added dwelling to dwelling and built up the waste places in our midst? they are monuments which speak constantly to his praise,

You have served your country in the field, sustained most gallantly her honored flag, preserved a good name among your fellow men, and presented before the youth of your country an industry, perseverance, and integrity, in the business of life, which should stimulate them to similar deeds and qualities.

In the name of your friends, and with our best wishes for your continued health and usefulness, I offer to you this mark and evidence of our confidence and regard.

Major Smyth responded as follows:

Sir:—The honor which you have done me, and the friendly motives that have actuated you and those you represent in presenting to me this beautiful cane, have excited in me feelings that can be enjoyed but not fully expressed. Outside of parental and domestic relations, there is nothing which the heart appreciates, and which produces emotions of a more pleasing and comforting character and recollections, than friendship. To be the object of the kind remembrance and attentions and of disinterested regard of friends is cheering and comforting to any one, and especially so to one whose age and infirmities admonish him that those endearing ties which bind him to home, country, and friends, must soon be severed.

I have endeavored to be useful in my day and generation, to improve the waste places, and provide comfortable homes for my fellow citizens. I have wronged no man, done injustice to none: no gain unduly obtained attaches to my hands. I have striven to be industrious, frugal, just and patriotic; and hope that I have not been unmindful of my duties in the different relations of life, and my example has not been a stumbling-block to the young, nor have I led them from the paths of sobriety and rectitude. A good Providence has been propitious to me, and while I am permitted to live, my desire and purpose will be to do all the good I can, to cultivate kind relations with others, and to remember those whose friendships I highly prize.

I thank you, and those you represent, for this token of your and their regard; and you have my heartfelt thanks and gratitude. I value the present you have made me, and the manner you have conferred it, more highly than earthly honors; and I wish you all, in return, long life, health, happiness, and prosperity.

FREIGHTING.

SCHOONER "HIRAM BROWN."

THOMPSON & LEE have resumed their regular trips to Baltimore and are prepared to freight Grain as follows: Heavy Grain of all kinds 6 cts. per bushel by weight: Oats 5 cts. All other frighting done at lowest rates.

A CARD.—Some evil-minded unprincipled individual (no doubt for interested motives) having circulated the report that the undersigned were the first movers in raising the freight on grain, we take this method of saying to our customers and the public that the assertion is a base, malicious falsehood, gotten up and circulated with a view to injuring our business.

THOMPSON & LEE.
Chestertown, July 25, 1868—3t.

To Executors, Administrators, and *GUARDIANS.*

By the direction and authority of the Orphans' Court of Kent County, Maryland, the subscriber hereby respectfully calls the attention of Executors and Administrators to sections 1 and 2 of article 93 of Code of Public General Laws:

Section 1. Every Administrator, shall render to the Orphans' Court of the county in which he shall have obtained letters of Administration, within the period of twelve months from the date of such letters, the first account of his administration.

Section 2. If the first account shall not show the estate which was on hand to be fully administered, another account shall be returned within six months thereafter, and within every term of six months thereafter an account shall be returned, until the estate shall appear to be fully administered; and whenever a discovery or receipt of assets shall take place after rendering an account, another account shall be rendered within six months thereafter; but an administrator shall not be obliged to render accounts when it appears to the Court that the estate has been fully administered; except as to debts which the Court shall deem desperate.

And Guardians to section 165 of same article:

Section 165. And once in each year, or oftener if required by the Court, a guardian shall settle an account of his trust with the Orphans' Court; and the said Court shall ascertain at its direction the amount of the sum to be annually expended in the maintenance and education of the infant, regard being had to his future situation, prospects and destination and the said Court, if it deem it advantageous to the ward, may allow the guardian to exceed the income of the estate and to make use of his principal, and sell part of the same under its order; but no part of the real estate shall on account of such maintenance or education be diminished without the approbation of a court of equity as well as of the Orphans' Court.

E. CROUCH,
Reg. of Wills for Kent County.
July 25, 1868—3t.

NOTICE.

On and after July 22nd, the

Steamer Geo. Law!

THE Stockholders of the Queen Anne's and Kent Rail Road Company are hereby notified to pay a *third instalment* of FIVE DOLLARS PER SHARE to the Treasurer of said Company, on or before the 1st day of September next. By order of the Directors.

W. H. JACOBS, Sec'y.
July 25, 1868.

BLACK and GALVANIZED COAL HODS, Shovels, Pokers and Coal Sifters, for sale by J. K. ALDRIDGE.
Oct. 19, 1867.

NEW ESTABLISHMENT!

New Stock, Low Prices!

BUILDING HARDWARE, TIN WARE, AND STOVES.

THE citizens of Chestertown and the adjacent country, are respectfully invited to call at the New Establishment, (stand formerly occupied by A. A. Biscoe), and examine our large and cheap stock.

IN BUILDING HARDWARE

We are able to offer great inducements to Carpenters, Mechanics, Farmers, Builders, and those who contemplate having building done. If all such will only give us a chance we are confident of being able to convince them that we can supply their wants with a better article and for less money, than any establishment in this town. Our stock in this line is very full, and we are constantly making additions to it.

TIN AND SHEET IRON WARE.

In this department our stock is very complete, comprising almost any thing that can be called for, and at prices that must, we are sure, give satisfaction. In Tin we also keep the celebrated Stamped Ware. We have in our employ experienced, skillful and faithful workmen, and always use good material.

Stoves.

We shall keep a good stock, of all kinds, purchased from manufacturers direct, and will sell at a very small advance.

TIN ROOFING AND SPOUTING,

and all kinds of repairing (including repairs to stoves,) done promptly in a workmanlike and durable manner, at low rates.

HOUSEKEEPING GOODS,

Embracing Safes, Japanned and Block Tin Ware, Ornamental Chamber Sets, and fancy Ware generally, in great variety.

In conclusion we would remark that we have gone into this business with a determination to sell *low*, to spare no pains, and to do all in our power to give satisfaction: and we respectfully ask our friends and the public to give us a trial.

JAMES T. PARKS,
THOMAS BRYAN.
Chestertown, July 25, 1868—y.

WORK BENCH SCREWS,

MADE of good Hickory, for sale much under the usual price.

PARKS & BRYAN,

And will be delivered at any of the regular Landings in Kent, when ordered.
Chestertown, July 25, 1868—tf.

Special Notices.

BOILS.

Like the volcano, Boils give issue to the foul and fiery contents of the deep interior. To remove the cause of such suffering it is only necessary to vitalize the Blood by supplying it with its life element, Iron.

THE PERUVIAN SYRUP,

(a protected solution of the Proxtide of Iron) will do this effectually, and give strength, vigor and new life to the whole system.

Extract of a letter from Rev. Richard S. Edes, of Bolton, Mass.

"For years I was a sufferer from Boils, so that my life become wearisome through their frequent and persistent recurrence; finally a carbuncle formed in the small of my back. During its progress large pieces of decomposed flesh were every day or two cut away, and prostration and general disturbance of the system were great. Before I had recovered from this attack two smaller carbuncles broke out higher up, and I was again threatened with a recurrence of the sufferings to which I had so long been subjected. It was at this time that I commenced taking the Peruvian Syrup. I continued taking it until I had used five bottles; since then I have had nothing of the kind. For years I was one of the greatest sufferers. Other medicines gave me partial and temporary relief, but this remarkable remedy, with a kind and intuitive sense, went directly to the root of the evil, and did its work with a thoroughness worthy of its established character."

A 23 page Pamphlet sent free. The genuine has "Peruvian Syrup" blown in the glass.

J. P. DINSMORE, Proprietor,

COAL HODS, Shovels and Pokers—for sale by J. K. ALDRIDGE.

NEWARK MACHINE WORKS.

THE DIAMOND STATE THERSHER AND CLEANER.

WE call the attention of Farmers to our Improved Diamond State Thresher and Cleaner with Double Acting Separator. The practical operation of these Machines, is such, as will warrant us in advising those wanting Threshers, to examine ours before purchasing elsewhere. We build three sizes, No. 1, 36 in. cylinder, No. 2, 30 in. cylinder, No. 3, 24 in. cylinder. They are of the best materials and workmanship, and warranted to suit purchasers. Large or small Powers can be used to drive them, as desired. Galvanized sheet iron is used for selves and shaker bottoms. They are unequalled in strength, capacity, durability and lightness of running, doing their work rapidly and in the best manner. The machine is a model of simplicity in its construction and operation, and the price of it much below others in the market. The double shaker separates all the grain from the straw—none is wasted, and the fan as a cleaner is unsurpassed.

The shoe of the shaker can be easily detached and the machine used as a Thresher and Separator alone.

Our Endless Chain Horse Powers are made with steel rods, and our Improved Link.—All the bearings for the wheels are steel, making the Power run with great ease to the team. Also Lever Powers.

Send for a Circular,
