NEWARK MACHINE WORKS.

THE DIAMOND STATE THERSHER AND CLEANER.

WE call the attention of Farmers to our Improved Diamond State Thresher and Cleaner with Double Acting Separator. The practical operation of these Machines, is such, as will warrant us in advising those wanting Threshers, to examine ours before purchasing elsewhere. We build three sizes. No. 1, 36 in. cylinder, No. 2, 30 in. cylinder, No. 3, 26 in. cylinder. They are of the best materials and workmanship, and warranted to suit purchasers. Large or small Powers can be used to drive them, as desired. Galvanized sheet iron is used for seives and shaker bottoms. They are unequalled in strength, capacity, durability and lightness of running, doing their work rapidly and in the best manner. The machine is a model of simplicity in its construction and operation, and the price of it much below others in the market. The double shaker separates all the grain from the straw—none is wasted, and the fan as a cleaner is unsurpassed.

The shoe of the shaker can be easily detached and the machine used as a Thresher and Seperator alone.

Our Endless Chain Horse Powers are made with steel rods, and our Improved Link.—All the bearings for the wheels are steel, making the Power run with great ease to the team. Also Lever Powers.
