TO THE PUBLIC.

WE have this day, May 25th, 1869, completed extensive repairs on the MILL, which enable us to grind more than ten bushels of good meal in one hour, and more than eight bushels of wheat. If any one doubts it, I invite him to call, and I promise to convince him, we can accommodate all that may find it convenient to send, in the best possible manner. We have also repaired the mill for grinding Plaster, and Corn in the ear, etc.

N. B. I have been compelled to expend quite a large amount of money in the repaires or incur great loss, and cause the public much inconvenience; I would therefore take it as a great favour for any one owing me to call and pay their indebtedness, or any part of it. I have called where I thought it most likely to succeed and failed, and am discouraged from further attempts. This may find some prepared whom I least suspect. If so, I shall be spared the mortification of selling paper or borrowing money.

Most respectfully,

RUTH'S Challenge Soluble Phosphate,

THE most active and durable FERTILIZER ever offered to the Farmer. This article is manufactured expressly to take the place of A. No. 1 Peruvian Guano, and will be found as active as Guano and much more durable in its effects. It is made upon the principle that the measure of our prosperity is the prosperity of the farmer, and every farmer who uses it may confidentially rely upon large Crops unless injured by providential acts. It is indeed the "Challenge" Fertilizer of the times and in order that it may always remain such we have engaged in its preparation the very best chemical skill in this country.

Give it a trial.
