ty of ladies and gentlemen m Kent and Queen Anne's er this forenoon on the steamer Chester to visit the Monarch, and were disappointed in not going on board. They visited the House, Senate Chamber, Library, &c., and being on a frolic, enjoyed themselves as country people only can, when bent on fun. Among the party was a venerable "darky" whose snow-white locks were in striking contrast with his dark flashing eyes and black but honest beaming face. His scrupulously neat appearance and easy politeness pronounced him to be of the "old school," and that his associations has been among gentlemen. However, he had "neber seen de Legislater and neber been in de capitul." He was introduced as Mr. Perry Chambers, of Chestertown. Entering the anteroom of the Senate chamber, hat in hand, preceded by the ever courteous secretary, who always "does the honors" to strangers and visitors Perry halted abruptly at the door leading to the floor of the Senate, while the secretary moved on to the middle of the chamber. He was evidently overcome with astonishment at the magnificence of the room, but gathering confidence from kind looks, he asked:

"Ken I come in dare, Master?"

"Yes, certainly," said Mr. Gassaway, who pointed out to Perry the paintings in the room, designating by name the portraits of Charles Carroll, Judge Chase and others.

Perry looked at each, and then glancing round the walls he asked:

"Where's de likeness of Judge Chambers? Dat ought to be here."

As he was about to leave, Perry asked, "Marsa, is de Senit room at Wash'nun any nicer dan dis?"

"It may be a little bigger, but not nicer," answered the secretary, who always stands by his State.

BLACK CHESAPEAKE INK.

MOST if not all the inks or writing fluids heretofore manufactured in the United States, have been composed of Tanic Acid, Gallic Acid, and a salt of Iron. A saturated solution of Aleppo galls in alcohol, is first made. This tincture contains several ingredients beside the Tannic and Gallic acids. By adding some of this tincture to a solution of Green Vitriol (Sulphate of Iron) the solution assumes first a violet and finally a black color. By adding some of the same tincture to a solution of sulphate of sesquioxide of iron a black color is immediately produced but on standing, both solutions will deposit a black percepitate. The manufacturers of ink add gum sugar or other mucillaginous matter to hold this black powder in suspension.

If this ink should freeze the black powder is, however, precipitated, and will not again readily dissolve, and the ink is rendered worthless. It cannot be diluted, when once too thick, without injuring, if not entirely destroying it. This ink may also be readily washed out from paper or parchment.

Forgers have availed themselves of this knowledge in altering checks, Drafts, Notes, &c. It is probable many wills have been entirely altered to suit interested parties having access to the paper by wssshing out the writing with oxalic acid, and again filling up the blanks. Many changes of Records have been from time to time discovered. Government Stamps have been freed from the ink used in cancelling them, and used a second time. There is no guarantee that anything written with these inks will not be altered at any time, by designing men.

The only preventive lies in using an ink that cannot be erased by any acid or alkali, without destroying the paper or parchment.

Heretofore no such ink could be obtained. Now, every one can obtain an absolutely indelible, unchangeable ink, for a less price than is paid for the worthless fluids in the market.

BLACK CHESAPEAKE INK,

When written, cannot be erased with oxalic acid. It does not corrode the Pen.

It may be diluted with rain water, if too thick, and used up to the last drop.

It is equal to india ink for drawing.

It can be written with on the margins of Newspapers, or unsized paper of any kind, and does not blot.

It flows more freely from the pen than any other ink or fluid.

Neither freezing nor boiling injure it.—Every one who once uses it buys it again, and will use no other.

WILLIAM A. VICKERS, with whom I have entered into a limited partnership, will fill all orders from any part of the State of Maryland. All other orders should be addressed to me.

LORILLARD'S **"EUREKA," Smoking Tobacco** is an excellent article of granulated Virginia; wherever introduced it is universally admired. It is put up in handsome muslin bags, in which orders for Meerschaum Pipes are daily packed.

LORILLARD'S **Yacht Club Smoking Tobacco** classed by all who consume it as the "finest of all;" it is made of the choicest leaf grown; it is anti-nervous in its effects, as the Nicotine has been extracted; it leaves no disagreeable taste after smoking; it is very mild, light in color and weight, hence one pound will last as long as 3 of ordinary tobacco. In this brand we also pack orders every day for first quality Meerschaum Pipes. Try it and convince yourself it is all it claims to be, "THE FINEST OF ALL."

LORILLARD'S **CENTURY Chewing Tobacco** This brand of Fine Cut chewing tobacco has no equal or superior anywhere. It is without doubt the best chewing tobacco in the country.

LORILLARD'S **SNUFFS** have now been in general use in the United States over 110 years, and still acknowledged "the best" wherever used.

If your storekeeper does not have these articles for sale, ask him to get them; they are sold by respectable jobbers almost everywhere.
