The Chestertown Transcript

Saturday Morning, June 18, 1870.

☞ Our friends throughout the county are earnestly requested to furnish us with all items of local interest transpiring in their immediate neighborhoods.

LOCAL MATTERS.

Against a Camp Meeting.—The special meeting of the Quarterly Conference of the M. P. Church for Kent Circuit, held on Tuesday last, decided not to have a Camp Meeting this season.

Orphans' Court.—R. Augustus Brice, administrator of O. F. Sutton, returned a list of debts due deceased.

Wm. T. Hepbron, admr. of Daniel W. Turner, dec'd., returned a list of debts due deceased.

Ordered, that the Register of Wills renew the citation issued last Tuesday and directed to W. H. Ford, guardian to John H. Ford, to return his final guardian account.

The County Commissioners transacted no business of general interest.

National Camp Meeting.—The Fifth National Camp Meeting will be held in Wilton Grove, Oakington, Md., near Havre de Grace, commencing on Tuesday, July 12th and continuing till the 22nd. It will probably be the largest ever held. The managers have made arrangements with the Chester River Steamboat Company and the Baltimore and Philadelphia R. R. Co., by which passengers from any landing on Chester river can make the round trip for $3. Tickets are good from the 8th to the 25th of July.

The Kent County Railroad, as will be seen by advertisement elsewhere, is also prepared to issue round trip tickets to the National Camp Meeting, at a low figure.

The Odd Fellows' Demonstration at Galena on Wednesday was, we learn, a decided success, and drew together a large number of witnesses. Miss Hill was crowned Queen of Love and Beauty. The dancing was adjourned from the woods to the large Carriage Factory room in Galena, in consequence of the rain, and everything passed off pleasantly. We have been unable to procure any general account of the proceedings.

Central Farmers' Club.—At this Club on Thursday evening last, the question of the best Reaper for general use, was indefinitely postponed. It was decided by the Club that the market to which peaches are shipped, and the attending circumstances should govern the shipper in the use of boxes or baskets. It seemed to be generally conceded that boxes should be used for the Baltimore market. Mr. A. M. Russell made some extended, practical, and interesting remarks upon the peach trade. He forcibly urged the importance to the growers, of shipping their peaches in the best order and properly assorting them. Good peaches, he said, would always, even during a glut, command a fair price if the shipper established a reputation for good merchantable peaches. The practice of facing never deceived buyers but once, and every afterwards injured the sale of the party's peaches.

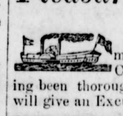

Public Improvement.—Mr. Colin F. Stam, of the firm of John L. Stam & Son, has undertaken to procure voluntary subscriptions to obtain sufficient shells to cover main or High street in our town its entire length, from the wharf to the end of town. This is a laudable undertaking, and one in which nearly all the citizens of our town, and country people who drive into the town are interested. The amount of hauling and driving over our streets is now such that owing to the character of the grade and drainage of the street it is almost impossible to keep the simple dirt roadway in any tolerable order. If sufficient funds are obtained to shell the street, it will be a permanent improvement and make the road almost equal to a Nicholson pavement. The subscription list will be found at Mr. Stam's counter, and we appeal to the citizens of town and county to call and contribute.

Broke Jail.—On Sunday night last, John W. Niblick, confined in the county jail for the action of the grand jury, on a charge of stealing from several parties, made his escape.

The Sheriff has for some time been watching this party. On Sunday last a young man named Jesse T. Clark who had stolen clothing in Baltimore city and been pursued here, was arrested by Sergeant Cross of the Baltimore police and lodged in our jail; was placed in the same room with [illegible] and the two immediately commenced to plan their escape. They [illegible] discovered their preparations and early [illegible] night, handcuffed and leg ironed both of them. Niblick, however, succeeded in drawing his hands through his irons and with a file which he left in the room freed his companion.—The two succeeded in forcing aside the iron bars at the window, and Niblick made his escape. Clark attempted to follow, but after getting his head and shoulders through the window grating, stuck fast, and being unable to return to his room, was discovered in that situation about daylight Monday morning. Clark was secured and carried to Baltimore by the city policeman, Niblick has not, up to the time of our going to press, been recovered.

Hearth & Home for this week (dated June 25th) contains the first of a series of sketches entitled *Jethro Throop's Night Thoughts*, by John Thomas, who is no other than Petroleum V. Nasby. The great humorist will take an honest country boy to the city, conduct him through the usual experience, and restore him to his home a sadder and wiser boy, satisfied that the peaceful, honest, and temperate life of the farmer is the best and safest life that can be lived. This is a lesson greatly needed at this time, and Nasby is the man to teach it.

GRAND *Pleasure Excursion.*

The Safe, Swift and Commodious Steamer CHESTER, Capt. E. S. L. Young, having been thoroughly refitted and repaired, will give an Excursion

FROM CHESTERTOWN TO CAMBRIDGE,
On Thursday, July 7.

The Steamer will leave Chestertown at 7 o'clock, A. M., touching at all the Landings on the River, and at Spencer's, Corsica, and Grays Inn Creek; also, stopping opposite Queenstown.

The Steamer will lay at the wharf long enough to allow the passengers ample time to view the beautiful town of Cambridge and its surroundings.

A Fine Band of Music,

both Military and Cotillion, has been engaged for the occasion, and will be under the control of Mr. William D. Keating, Floor Manager.

DINNER AND REFRESHMENTS

will be prepared on board by an experienced caterer.

No efforts will be spared to make this the most pleasant and delightful excursion that ever went from Chester river.

☞ The Bar will possitively be closed and no intoxicating drinks allowed on board.

THE EXCELSIOR
DROPPING
REAPER AND MOWER
For 1870.

HAVING received from the manufacturers, a car-load of these justly celebrated machines, improved and built expressly for this section of the country, we ask our farmers to examine them before purchasing elsewhere.

There are three styles of Excelsior, to suit various customers.

THE SENIOR EXCELSIOR

With wood frame, has been before the public for the last ten years, and has no superior.

THE IRON-CLAD EXCELSIOR

Combines the accumulated improvements of the Senior Wood Frame, and has several features peculiar to itself. It has an enclosed iron frame, constructed on the principle of the arch, so as to combine enormous strength with great lightness.

THE JUNIOR EXCELSIOR

Is mounted on small wheels, of the same dimensions as the Buckeye. To those who want a Junior, we confidently recommend this machine.

RUSSELL
Combined Reaper and Mower,
WITH
DROPPING ATTACHMENT.

IT is with an unusual degree of confidence that we present this machine to the public for the harvest of 1870, it having passed through the trials of the past nine years with entire success. We feel confident that for utility, lightness of draft, strength, and durability, it has no superior.

This assertion we propose to make good to all who purchase these machines. To any one wishing a Rear Cut Machine, we offer the Russell.

BLACK
CHESAPEAKE INK.

MOST if not all the inks or writing fluids heretofore manufactured in the United States, have been composed of Tanic Acid, Gallic Acid, and a salt of Iron. A saturated solution of Aleppo galls in alcohol, is first made. This tincture contains several ingredients beside the Tannic and Gallic acids. By adding some of this tincture to a solution of Green Vitriol (Sulphate of Iron) the solution assumes first a violet and finally a black color. By adding some of the same tincture to a solution of sulphate of sesquioxide of iron a black color is immediately produced but on standing, both solutions will deposit a black percepitate. The manufacturers of ink add gum sugar or other mucillaginous matter to hold this black powder in suspension.

If this ink should freeze the black powder is, however, precipitated, and will not again readily dissolve, and the ink is rendered worthless. It cannot be diluted, when once too thick, without injuring, if not entirely destroying it. This ink may also be readily washed out from paper or parchment.

Forgers have availed themselves of this knowledge in altering checks, Drafts, Notes, &c. It is probable many wills have been entirely altered to suit interested parties having access to the paper by washing out the writing with oxalic acid, and again filling up the blanks. Many changes of Records have been from time to time discovered. Government Stamps have been freed from the ink used in cancelling them, and used a second time. There is no guarantee that anything written with these inks will not be altered at any time, by designing men.

The only preventive lies in using an ink that cannot be erased by any acid or alkali, without destroying the paper or parchment.

Heretofore no such ink could be obtained. Now, every one can obtain an absolutely indelible, unchangeable ink, for a less price than is paid for the worthless fluids in the market.

BLACK
CHESAPEAKE INK,

When written, cannot be erased with oxalic acid. It does not corrode the Pen.

It may be diluted with rain water, if too thick, and used up to the last drop.

It is equal to india ink for drawing.

It can be written with on the margins of Newspapers, or unsized paper of any kind, and does not blot.

It flows more freely from the pen than any other ink or fluid.

Neither freezing nor boiling injure it.—Every one who once uses it buys it again, and will use no other.

WILLIAM A. VICKERS, with whom I have entered into a limited partnership, will fill all orders from any part of the State of Maryland. All other orders should be addressed to me.

THIS CUT REPRESENTS

The New Self-Raking Attachment
UPON THE
CHAMPION
No. 2 REAPER AND MOWER.

THIS Machine stands pre-eminently at the head of all Harvesting Machines, and many valuable improvements have been added for the coming season. They are first class in every respect—unequalled and unexcelled.

A 2-wheeled Jointed-bar Self-Raker.

As a Mower, equal to the best single Mower in the market, and as a Self-Raking Reaper, it has no superior.

ALSO,
THE CHAMPION
No. 2 Reaper and Mower,
WITH DROPPER ATTACHMENT.

This Dropper is the strongest and most desirable arrangement for gaveling the Grain ever made, and in construction and operation is different in very many respects to any other dropping attachment in use. By continued experimenting in the field, in the most difficult kinds of Grain, the inventor has succeeded in constructing a Dropping Attachmnet capable of operating successfully in every condition of Grain to be cut. Also,

THE IMPROVED CHAMPION
No. 3 Mower,
The Great National Mowing Machine.
The Lightest Draft and Most Perfect Mower in the World!

We also call attention to *THE "ETNA" MOWER & REAPER AND DROPPER*, a First Class Machine which is a light draft and easy-cutting Machine, either in Grass or Grain.

Guieser Thrashers and Separators.

The Maryland Farmer Steel-Tooth Horse Rake. The Celebrated Double and Triple Screen Dixie Grain Fan.

TO PHYSICIANS.

New York, August 15th, 1868.

Allow me to call your attention to my

PREPARATION
OF
Compound Extract Buchu.

The component parts are BUCHU, LONG LEAF, CUBEBS, JUNIPER BERRIES.

MODE OF PREPARATION.

Buchu, in vacuo. Juniper Berries, by distillation, to form a fine gin. Cubebs extracted by displacement with spirits obtained from Juniper Berries; very little sugar is used, and a small proportion of spirit. It is more palatable than any now in use.

Buchu, as prepared by Druggists, is of a dark color. It is a plant that emits its fragrance; the action of a flame destroys this, (its active principle), leaving a dark and glutinous decoction. Mine is the color of ingredients. The Buchu in my preparation predominates; the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection, it will be found not to be a Tincture, as made in Pharmacopœa, nor is it a Syrup—and therefore can be used in cases where fever in inflammation exist. In this, you have the knowledge of the ingredients and the mode of preparation.

Hoping that you will favor it with a trial, and that upon inspection it will meet with your approbation,

With a feeling of confidence,
I am, very respectfully,
H. T. HELMBOLD,
Chemist and Druggist, of Sixteen Years' Experience.

[From the Largest Manufacturing Chemists in the World.]

November 4, 1854.

"I am acquainted with Mr. H. T. Helmbold; he occupied the Drug Store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise."

Ninth and Brown streets, Philadelphia.

Helmbold's Fluid Extract Buchu

Is the great specific for Universal Lassitude, Prostration, &c.

The constitution, once affected with Organic Weakness, requires the aid of Medicine to strengthen and invigorate the system, which HELMBOLD'S EXTRACT BUCHU invariably does. If no treatment is submitted to, Consumption or insanity ensues.

Helmbold's Fluid Extract of Buchu,

In affections peculiar to Females, is unequalled by any other preparation, as in Chlorosis, or Retention, Painfulness, or Suppression of Customary Evacuations, Ulcerated or Schirrus State of the Uterus, and all complaints incident to the sex, or the decline or change of life.

Helmbold's Fluid Extract Buchu and Improved Rose Wash

Will radically exterminate from the system diseases arising from habits of dissipation, at little expense, little or no change in diet, no inconvenience or exposure; completely superceding those unpleasant and dangerous remedies, Copaiva and Mercury, in all these diseases.

USE
Helmbold's Fluid Extract Buchu

In all diseases of these organs, whether existing in male or female, from whatever cause originating, and no matter of how long standing. It is pleasant in taste and odor, "immediate" in action, and more strengthening than any of the preparations of Bark or Iron.

Those suffering from broken-down or delicate constitutions, procure the remedy at once.

The reader must be aware that, however slight may be the attack of the above diseases, it is certain to affect the bodily health and mental powers.

All the above diseases require the aid of a Diuretic. HELMBOLD'S EXTRACT BUCHU is the great Diuretic.

Sold by Druggists everywhere. Price—$1.25 per bottle, or 6 bottles for $6.50. Delivered to any address. Describe symptoms in all communications.
