The Chestertown Transcript

Saturday Morning, August 20, 1870.

☞ Our friends throughout the county are earnestly requested to furnish us with all items of local interest transpiring in their immediate neighborhoods.

LOCAL MATTERS.

Village Camp Meeting.

A meeting under the above title will be held in a large tent on the Eccleston Lot, next week. Service every evening, under the charge of Rev. J. B. Merritt of the M. E. Church, and Rev. H. C. Cushing of the M. P. Church.

Kent County Railroad.

We learn that the Board have contracted for the grading of this road from Worton station to Chestertown, and that the work and track-laying will be completed by the end of the year. The contractor is already at work, and will push it rapidly. The road so far as constructed is doing a good business, and the passenger travel for July increased forty per cent. over that of June.

Killed.

We learn that Mr. Tench Tilghman, son of the late Mrs. Harriet Tilghman of this town, who left Chestertown for California some eighteen or twenty years ago, was some days since shot by the officers of the law while defending property of which he claimed to be illegally dispossessed. His remains will be brought here for interment.

Sales.

On Wednesday next Charles H. Baker, executor of Wm. T. Baker, deceased, will sell at the late residence of said deceased, the entire personalty, among which is embraced eight head of horses, sixteen superior milch cows, and one extra peach wagon.

On Thursday the 25th inst., James A. Pearce, Esq., as Trustee, will sell at the store of G. W. Covington, in Still Pond, a tract of land the property of the late Mrs. Mary Kennard. For particulars see advertisements.

Orphans' Court.

Tuesday, Aug. 20th, 1870.—Present, James Beck, Thomas Lusby and William Stevens, Judges.

The release of Christiana Blackiston to Columbus A. Leary, adm'r. of William T. Adkinson, jr., late of Kent county, was received and ordered for record.

The release of John J. Blackiston, guardian to Ellen J. Blackiston and Laura Blackiston, was received by the Court.

The release of Margaret A. Godwin to James Pearce, her late guardian, was ordered for record.

William H. French was appointed guardian to Jane A. and Susan R. French, and gave bond with James A. Skirven and Solomon Sparks.

William D. Burchinal, guardian to Mary M. Brown, returned his first and final guardian account, which was passed.

William D. Burchinal, guardian to Hiram, William H. and Arthur M. Brown, returned guardian accounts for the year 1869 and '70 to Aug. 11th—passed and ordered for record.

Araminta M. Gooding, guardian to Addison M. Gooding, returned her guardian account for the year 1869—passed and ordered for record.

James H. Hurtt, jr., guardian to Thos. McLaughlin, returned guardian accounts for the years 1867, 1868 and 1869—passed, and ordered for record.

John W. Greenwood was appointed to the scholarship in Washington College.

Robberies.

The following, from the Easton Star of Tuesday, would seem to indicate that a party of professional thieves are on the tramp. Householders had better look to their fastenings:

On Saturday morning there was considerable excitement in Easton, which grew out of several bold robberies committed the night previous. It appears that the houses and sleeping apartments of the following persons were entered on Friday night by thieves, and a watch stolen from each:—Capt. William H. Smith, William Grace, N. Tuthill and James Greenhawlk; an entrance into the house of Charles E. Gattin was attempted, but he was aroused in time to drive off the thief. Captain Smith was absent from home at the time, and Mrs. Smith, whose watch was stolen, never heard a sound from the thief. She lost a valuable gold watch, as did also Mr. Wm. Grace and Mrs. Tuthill. The other was silver. The victims live in different parts of the town, and the robberies were evidently committed by professional thieves.

Proceedings of the School Board.

The Board of School Commissioners held a meeting on Tuesday, Aug. 2d. All the members being present, and I. C. Taylor, President, in the Chair. Miss Mary Smith obtained a recommendation to the Normal School. A letter from J. A. Pearce, Esq., giving his opinion in relation to the title of the County to certain School House Lots, was presented and placed on file. Very few lots are held by deed, but undisputed possession will give sufficient title. Orders were accepted and bills passed for payment amounting to $699.88. Bill of R. F. Moffett rejected; bills of Wm. T. Miller and Geo. B. Westcott referred to Secretary for examination. Ordered that the Secretary and Treasurer collect the amount due this Board, $81, for School House at Galena, sold July, 1869. Mr. Covington submitted a letter from Mr. Raymond, offering to donate on certain conditions a site for new school house from the land of Miss S. E. Raymond, near Urieville. The offer was accepted and the Secretary instructed to prepare the deed for execution. Messrs. H. M. Rollison, S. C. Sparklin, and Joseph H. Hossinger were appointed District Commissioners of this new District. Messrs. B. F. Sappington and Thomas Glenn were associated with David Jones as District Commissioners of the new District on Eastern Neck Island, in place of R. B. Willson and Dr. Thomas Willson, thrown out of the District by the division. Tuesday, Aug. 30th, was fixed for examination of candidates for schools. Ordered to apply the funds on hand to the payments of Teachers as far as they will go. The District Commissioners of the school at Hibernia be authorized to make certain needed repairs as economically as possible. Resolved, that a sum not to exceed $25 to each School, be appropriated for the purchase of fuel for the Schools, and that Joseph P. Ireland, Esq., be appointed to contract for the whole supply. Resolved, that the District Commissioners be authorized to proceed with repairs heretofore allowed, provided these can be done on reasonable long time, but that no further action be taken in relation to building new houses, except where parties interested will consent to wait until after the levy of 1871 can be realized. The following resolution was laid over until Aug. 30th: Resolved, that the additional sum of $300 be applied to building a new school house at Still Pond, provided that an equal amount be raised by the citizens of that school district, and the whole amount to be paid from the levy of 1871. The Board took into consideration the readjustment of salaries of teachers for the next year, but without arriving at any definite conclusion adjourned to meet on Tuesday, 30th inst.

Clearing the James River.—The engineers' bureau is about beginning to clear the wrecks and the obstructions occasioned by the war out of the James river. At Drury's Bluff it has been ascertained that the following must be removed to put the river in good navigable order: The wreck of the iron clad ram Fredericksburg, sunk with armor, guns, &c., on board; the iron gunboat Raleigh, 150 tons, sunk with gung, &c., on board; the war steamer Jamestown, wooden, 1,200 tons, sunk with gungs on board; the steamer Curtis Peck, 450 tons; the schooner Wythe, 300 tons, and Roach, 225 tons; a brig, 175 tons, and a small schooner, between 80 and 100 tons; also, eighteen or twenty cribs of timber and stone, each twenty-two feet square, averaging eighteen feet high.

A Colored Man Nominated to Fill Whittemore's Place in Congress.—The republicans of the first congressional district of South Carolina have put in nomination State Senator Rainey (colored) to fill Mr. Whittemore's unexpired term in the Forty-second Congress. Whittemore's candidate got only 9 out of 30 votes on the informal ballot.

Experiments with Torpedoes.—A war correspondent was present the other day at Brest during some trials with torpedoes, and beheld the action of one of those submarine monsters on a nautical "screw," which was placed in position for the purposes of the experiment. The old vessel was moored over a torpedo containing about six hundred pounds of powder, lying at a depth of forty feet French, say fifty English feet. When the explosion took place the condemned craft was first of all nearly lifted out of the sea, and then a powerful jet of water pierced it as if enormous projectile had passed through keel and decks, and rose to a height of some sixty feet. But for the empty casks with which the ship was laden, it would immediately have gone to the bottom. It must not be supposed, however, says the writer, that all the danger in the explosion of the torpedo is represented by this mass of water, which destroys as it rises and inundates as it falls. A no less terrible effect is produced by the gas generated by the powder, which, in searching an issue, escapes from the water in sharp blades, which nothing can resist. Beams measuring more than six square feet have been cut through as with a saw. We then learn that gunpowder is found to answer better for torpedoes than pierate of potassium, nitro-glycerine or gun cotton.

EXAMINERS' NOTICE.

THE undersigned having been appointed by the County Commissioners for Kent county, Examiners, to view and determine whether the public convenience requires the widening of the Public Road in the Fourth Election District, leading from Muddy Creek to the dam across the lands belonging to the heirs of Mrs. S. W. Spencer—hereby give notice that they will meet at Muddy Creek,
