The Chestertown Transcript

Saturday Morning, August 27, 1870.

☞ Our friends throughout the county are earnestly requested to furnish us with all items of local interest transpiring in their immediate neighborhoods.

LOCAL MATTERS.

The Village Camp Meeting

Bids fair to be a great success. On Monday night the exercises commenced with a sermon by Rev. H. C. Cushing; Tuesday night Rev. J. B. Merritt preached; Wednesday Rev. H. E. Miskimon, and Thursday night Rev. S. G. Valliant. The tent—a very large board structure, seated around the sides and down the centre, and the ground well strewn with straw in the old-fashioned camp-meeting style—is filled every night with attentive audiences, and the prospect seems good for a considerable religious revival in this community. Wednesday night quite a number of penitents were at the altar. We presume the meeting will be continued through the coming week.

In our advertising columns will be found a letter from W. L. Buckingham in reference to the repair of the Bickford and Huffman Drill.

Remarkable Tenacity of Life.

About the first of August, a *game hen* belonging to Mr. John L. Ringgold at Chester bridge, and which he prized, disappeared. He supposed that it had been stolen or was some where hatching a brood; diligent search was made for her, but the hen could not be found. Several days ago Mr. Ringgold had occasion to move some old lumber, and there he found the game hen with another completely imprisoned, some two feet from the ground. Mr. Ringgold missed them, or rather the game one, about twenty days ago, and the chickens must have been without food or drink during that time. The hen laid three eggs during her imprisonment. When liberated they walked with difficulty to the water and drank until driven off. Both chickens are alive and likely to live.

County Commissioners.

This body was chiefly engaged in passing orders for the payment of money.

It was also ordered that the Court meet the Commissioners of Queen Anne's county, at Crumpton, on Saturday the 10th of September, to inspect the repairs which have been made on the bridge at that place.

Orphans' Court

Met on Tuesday last: 'present, James Beck, of George, Thomas Lusby and William Stevens.

The release of Mary M. Brown to William D. Burchinal, her late guardian, was received and ordered for record.

The release of Mary R. Wood to Chas. C. Wood, executor of Rebecca Wood, was received for record.

On application of Susan Chamberlain, the mother of John Todd, minor, and Dr. James H. Price, the Court bound the said minor to Dr. Price, and the indentures were ordered for record.

The Court received notice of the vacancy of the scholarship for Kent county in the Baltimore Female College.

Peterson's Magazine for September is already on our table. The principal engraving in this number is called "Kathleen," and represents a beautiful high-spirited girl, the heroine of a charming novelet, begun in this number, "Kathleen's Love-Story." But the tales and romances of this magazine are always good. The double-size colored steel fashion-plate is good; and, in addition, there are some fifty wood-cuts of dresses, bonnets, collars, &c., &c. One of the most valuable articles is our "Every-Day Dresses," illustrated with engravings, showing how stylish and fashionable dresses may be made at home, and economically. Terms $2 a year, with liberal deductions to clubs. Published by Caas. J. Peterson, 306 Cestnut street, Philadelphia.

SOLUBLE
PACIFIC GUANO
IMPROVED IN
QUALITY AND CONDITION.

THE quality of this Guano is materially improved this season by the addition to its composition of a large per cent. of the
SALTS OF POTASH.
It is improved in condition by being brought into market sufficiently dry and uniformly fine to pass with *facility* and *regularity* through the orifices of the
WHEAT DRILL.
More than $1,000,000 is involved in the production of this Guano, and the trade in it has steadily increased, until now it far exceeds that of any other fertilizer.
The Pacific Guano Company has a far greater interest in the maintainance of the *quality* of its Guano than any number of *consumers* can have; hence no apprehension need exist as to its *continued excellence*.
